City of Intellect Nicholas B. Dirks, 2023-11-16 During his four years as the tenth Chancellor of Berkeley 2013-17 Nicholas B Dirks was confronted by crises arguably more challenging than those faced by any other college administrator in the contemporary period This thoughtfully candid book emerging from deep reflection on his turbulent time in office offers not just a gripping insider's account of the febrile politics of his time as Berkeley's leader but also decades of nuanced reflection on the university's true meaning at its best to be an aspirational city of intellect Dirks wrestles with some of the most urgent questions with which educational leaders are presently having to engage including topics such as free speech and campus safe spaces the humanities contested future and the real cost and value of liberal arts learning His visionary intervention part autobiography part practical manifesto is a passionate *cri de c ur* for structural changes in higher education that are both significant and profound

Book Lust Nancy Pearl, 2009-09-29 What to read next is every book lover's greatest dilemma Nancy Pearl comes to the rescue with this wide ranging and fun guide to the best reading new and old Pearl who inspired legions of litterateurs with *What If All* name the city *Read the Same Book* has devised reading lists that cater to every mood occasion and personality These annotated lists cover such topics as mother daughter relationships science for nonscientists mysteries of all stripes African American fiction from a female point of view must reads for kids books on bicycling chick lit and many more Pearl's enthusiasm and taste shine throughout

Schoolhouse Gothic Sherry R. Truffin, 2009-03-26 *The Schoolhouse Gothic* undertaken by insiders and outsiders to the academy alike and embodied both in literature and in academic discourse draws on Gothic metaphors and themes in representing and interrogating contemporary American schools and educators Curses from the past take the form of persistent power inequities of race gender class and age and rather ironically the very Enlightenment that was to save the moderns from rigid ancient mystified hierarchies In *Schoolhouse Gothic* literature including works by Stephen King Flannery O'Connor Toni Morrison Joyce Carol Oates and David Mamet school buildings classrooms and/or offices function as traps or analogues to the claustrophobic family mansions monasteries and convents of old In *Schoolhouse Gothic* scholarship the trap is academic objectivity viewed not as a lofty goal but rather as an institutional strategy of concealment that blinds the scholar to his or her own prejudices and renders even the most well meaning complicit with inequitable power structures The combination of curse and trap common to the Gothic scenario produces paranoia violence and monstrosity In *Schoolhouse Gothic* literature schools turn students into psychopaths and machines In the scholarship the product is discourse or epistemic violence reified *The Schoolhouse Gothic* suggests at the very least that Americans have become increasingly uneasy about the role of the academy increasingly mistrustful of its guardians and increasingly convinced that something sinister lies behind its officially benevolent exterior

Meaning Mats Alvesson, Yiannis Gabriel, Roland Paulsen, 2017-06-30 This book argues that we are currently witnessing not merely a decline in the quality of social science research but the proliferation of meaningless research of no value to society and modest value to its authors apart from securing employment and promotion The explosion of published outputs at least in social science creates a noisy cluttered environment which makes meaningful research difficult as different voices compete to capture the limelight even briefly Older more significant contributions are easily neglected as the premium is to write and publish not read and learn The result is a widespread cynicism among academics on the value of academic research sometimes including their own Publishing comes to be seen as a game of hits and misses devoid of intrinsic meaning and value and of no wider social uses whatsoever Academics do research in order to get published not to say something socially meaningful This is what we view as the rise of nonsense in academic research which represents a serious social problem It undermines the very point of social science This problem is far from academic It affects many areas of social and political life entailing extensive waste of resources and inflated student fees as well as costs to tax payers Part two of the book offers a range of proposals aimed at restoring meaning at the heart of social research and drawing social science back address the major problems and issues that face our societies

The Lecturer's Tale James Hynes, 2007-04-01 The author of *Publish and Perish* returns with a Faustian tale of the horrors of academe Nelson Humbolt is a visiting adjunct English lecturer at prestigious Midwest University until he is unceremoniously fired one autumn morning Minutes after the axe falls his right index finger is severed in a freak accident Doctors manage to reattach the finger but when the bandages come off Nelson realizes that he has acquired a strange power he can force his will onto others with a touch of his finger And so he obtains an extension on the lease of his university owned townhouse and picks up two sections of freshman composition saving his career from utter ruin But soon these victories seem inconsequential and Nelson's finger burns for even greater glory Now the Midas of academia wonders if he can attain what every struggling assistant professor and visiting lecturer covets tenure A pitch perfect blend of satire and horror *The Lecturer's Tale* paints a gruesomely clever portrait of life in academia

Writing Your Doctoral Dissertation Rita S. Brause, 2012-10-02 Increasing numbers of adults are enrolling in doctoral programmes but their earlier college lives often do not prepare them for the rules of the academic game Many have no idea what a dissertation looks like how it gets that way or what options are available to them This book is a practical guide for students who need help in progressing from the decision to write a dissertation to the planning writing and defending of it It includes samples of proposals and dissertations that have been accepted and data drawn from a number of sources including focus groups with doctoral students and graduates and responses to an open ended questionnaire from doctoral students across the United States

Faculty Towers Elaine Showalter, 2005 In the days before there were handbooks self help guides or advice columns for graduate students and junior faculty there were academic novels teaching us how a proper professor should speak behave dress think write love and more than occasionally solve murders If many of these books are

wildly funny others paint pictures of failure and pain of lives wasted or destroyed Like the suburbs Elaine Showalter notes the campus can be the site of pastoral and refuge But even ivory towers can be structurally unsound or at least built with glass ceilings Though we love to read about them all is not well in the faculty towers and the situation has been worsening In Faculty Towers Showalter takes a personal look at the ways novels about the academy have charted changes in the university and society since 1950 With her readings of C P Snow's idealized world of Cambridge dons or of the globe trotting antics of David Lodge's Morris Zapp of the sleuthing Kate Fansler in Amanda Cross's best selling mystery series or of the recent spate of bitter novels in which narratives of sexual harassment seem to serve as fables of power anger and desire Showalter holds a mirror up to the world she has inhabited over the course of a distinguished and often controversial career **In Pursuit of**

Knowledge Deborah Rhode, 2006-09-25 Although academics have never lacked for critics publications on the profession tend to be either popularized polemics which are engaging but misleading or scholarly analyses which are intellectually responsible but of little interest to anyone but specialists In Pursuit of Knowledge offers an alternative a unique portrait of academic life that should appeal to both experts and a general audience Drawing on a wide range of disciplines including higher education history law sociology economics and literature the book focuses on the ways in which the pursuit of status has undermined the pursuit of knowledge Deborah Rhode argues that both individual scholars and institutions in higher education are caught in an arms race of reputation The result has been to skew priorities in scholarship erode commitments to teaching compromise efforts of public intellectuals and impede effectiveness in administration The book offers several solutions to counter these pervasive problems in our research institutions Rhode makes a case for increasing accountability and realigning reward systems She argues that what is needed is a greater sense of responsibility among universities and their faculties to narrow the gap between academic ideals and practices In Pursuit of Knowledge is meticulously researched and elegantly written It is also exceptionally entertaining in its use of quotations culled from over a hundred academic novels including works by Kingsley Amis Saul Bellow David Lodge and C P Snow For example from P G Wodehouse's The Girl in Blue The Agee woman told us for three quarters of an hour how she came to write her beastly book when a simple apology was all that was required The result is a highly readable but also deeply reflective analysis of the academic profession

The Dawn of Industrial Agriculture in Iowa E. Paul Durrenberger, 2021-11-15 In The Dawn of Industrial Agriculture in Iowa E Paul Durrenberger recounts the transformation of Iowa's family farms into today's agricultural industry through the lens of the lives and writings of Iowa novelist Paul Corey and poet Ruth Lechlitner This anthropological biography analyzes Corey's fiction Lechlitner's poetry and their professional and personal correspondence to offer a new perspective on an era 1925-1947 that saw the collapse and remaking of capitalism in the United States the rise of communism in the Soviet Union the rise and defeat of fascism around the world and the creation of a continuous warfare state in America Durrenberger tells the story that Corey aimed to record and preserve of the industrialization of Iowa's agriculture and the death of its family

farms He analyzes Corey s regionalist focus on Iowa farming and regionalism s contemporaneous association in Europe with rising fascism He explores Corey s adoption of naturalism evident in his resistance to heroes and villains to plot structure and resolution and to moral judgment as well as his ethnographic tendency to focus on groups rather than individuals An unusual and wide ranging study *The Dawn of Industrial Agriculture in Iowa* offers important insight into the relationships among fiction individual lives and anthropological practice as well as into a pivotal period in American history [More Book Lust](#)
