The Women Who Invented Twentieth-Century Children's Literature Elizabeth West, 2022-10-24 Publishing for children between 1930 and 1960 has been denigrated as a relatively fallow period for creativity and quality certainly in comparison with the golden ages of children's literature that preceded and succeeded it This book questions this perception by using archival evidence to argue that the work of what was predominantly a female group of editors illustrators authors and librarians collectively referred to as bookwomen resulted in many titles which are still considered as classics today The bookwomen reframed ideas about how children's publishing should be approached and valued and in doing so laid the foundations for a subsequent generation of children's authors and publishers who were to achieve far greater prominence The key to the success of the bookwomen was their willingness to experiment the strength of their relationships and their comprehensive understanding of the book production process By focusing on a selection of women working across all aspects of the book production process this book demonstrates that both individually and collectively women capitalised on their position as other to the existing male institutions The Puffin Twentieth-century Collection of Verse Brian Patten, 1999 An illustrated collection of poems by famous children's poets Children's Literature Collections Keith O'Sullivan, Pádraic Whyte, 2017-05-19 This book provides scholars both national and international with a basis for advanced research in children's literature in collections Examining books for children published across five centuries gathered from the collections in Dublin this unique volume advances causes in collecting librarianship education and children's literature studies more generally It facilitates processes of discovery and recovery that present various pathways for researchers with diverse interests in children's books to engage with collections From book histories through bookselling information on collectors and histories of education to close text analyses it is evident that there are various approaches to researching collections In this volume three dominant approaches emerge history and canonicity author and text ideals and institutions Through its focus on varied materials from fiction to textbooks this volume illuminates how cities can articulate a vision of children's literature through particular collections and institutional practices **Brian Patten** Linda Cookson, 1997 This study seeks to explore Brian Patten's position in relation to his fellow Liverpool Poets and to contemporary poetry more widely British Working-Class Writing for Children Haru Takiuchi, 2017-08-21 This book explores how working class writers in the 1960s and 1970s significantly reshaped British children's literature through their representations of working class life and culture Aidan Chambers Alan Garner and Robert Westall were examples of what Richard Hoggart termed

scholarship boys working class individuals who were educated out of their class through grammar school education This book highlights the role these writers played in changing the publishing and reviewing practices of the British children's literature industry while offering new readings of their novels featuring scholarship boys As well as drawing on the work of Raymond Williams and Pierre Bourdieu and referring to studies of scholarship boys in the fields of social science and education this book also explores personal interviews and previously unseen archival materials Yielding significant insights on British children's literature of the period this book will be of particular interest to scholars and students in the fields of children's **So Much To Tell** Valerie Grove, 2010-05-06 Kaye Webb a and working class literature and of British popular culture journalist with no publishing experience burst into the world of children's books in 1961 and changed the face of children's publishing forever Her child like enthusiasm and shrewd business mind led her to become Puffin s most successful editor and the genius behind the Puffin Club which opened up the exciting world of authors and books to children across Britain But whilst Kaye's professional life had worked out beautifully her private life had been the reverse Kaye had two husbands before her marriage to the artist Ronald Searle and the torment of his sudden and shocking departure never left her Yet to the outside world Kaye Webb remained passionate and unstoppable This is the unknown story of the woman who brought the joy of books to children everywhere whilst battling the emotional pain that plagued her private life Reading Children's Literature: A Critical Introduction - Second Edition Carrie Hintz, Eric L. The text also examines how texts are abridged and transformed from publisher to publisher through close readings of The Wind in the Willows and Alice s Adventures in Wonderland and how the repackaging of works within a series highlight issues and choices tied to key

paratextual elements Analysing data through distant reading and close reading of series from Ladybird Longman Puffin and Walker Illustrated editions this book sheds light on how modern classics series are marked by variation and instability but also a reductive homogeneity Through her use of quantitative and text focused research Webster reveals how commercial motivations have created a gulf between the canonical concepts of the classic and how the term functions as a marketing tool in British children's publishing With notions of what counts as a classic compromised and complicated this book leads the call for a critical approach towards both the term classic and to reading children's classics that acknowledges how they are tied Books in the Life of a Child Maurice Saxby, 1997-10-15 to the commercial enterprises of the children's book business Books in the Life of a Child explores the value of books and reading in the stimulation of children's imagination and their fundamental importance in the development of language and true literacy.
