Pulling Faces:

The Neuropsychology of Face Perception and Facial Expression Raymond Bruyer, 2014-04-04 This book is the first to offer an overview of the increasingly studied field of face perception. Experimental and pathological dissociation methods are used to understand both the precise cognitive mechanisms and the cerebral functions involved in face perception. Three main areas of investigation are discussed: face processing after brain damage, lateral differences for face processing in normals, and neuropsychological studies on facial expressions.

Manitowapow Warren Cariou, Niigaanwewidam James Sinclair, 2011 This anthology of Aboriginal writings from Manitoba takes readers back through the millennia and forward to the present day, painting a dynamic picture of a territory interconnected through words, ideas, and experiences. A rich collection of stories, poetry, nonfiction, and speeches, it features historical writings from important figures, vibrant literary writing by eminent Aboriginal writers, nonfiction and political writing from contemporary Aboriginal leaders, local storytellers and keepers of knowledge from far-reaching Manitoba communities, new vibrant voices that express the modern Aboriginal experiences, Anishinaabe, Cree, Dene, Inuit, Métis, and Sioux writers from Manitoba. Created in the spirit of the Anishinaabe concept *debwe* to speak the truth, *The Debwe Series* is a collection of exceptional Aboriginal writing from across Canada. *Manitowapow*, a one-of-a-kind anthology, is the first book in *The Debwe Series*. *Manitowapow* is the traditional name that became Manitoba, a word that describes the sounds of beauty and power that created the province.

Numbers in the Dark Italo Calvino, 2021-05-12 From the acclaimed genre-bending Italian fabulist author, a posthumous collection of career-spanning stories previously unavailable in English. Everybody telephones everybody at every possible moment and nobody can speak to anybody. Distance has been the warp that supports the weft of every love story from *Numbers in the Dark*. Written between 1943 and 1984, the stories in *Numbers in the Dark* span the career of one of fiction's modern masters from Italo Calvino's earliest fables to tales informed by life in World War II era Italy to the delightful experimentation that would define his later work. Here are speculative stories on life in the digital age, genre-bending wonders, and impossible interviews with the likes of Montezuma and a Neanderthal. Deftly translated by Tim Parks, *Numbers in the Dark* shows off Calvino's lifelong gift for subtle humor and shimmering philosophical insight. Praise for *Numbers in the Dark*: *Numbers in the Dark* is a glorious grab bag with enough gems from every phase in Calvino's career to make it feel indispensable. *Seattle Times*. These stories reward the patient reader with wisdom, humor, and insight. *Library Journal*. Calvino is well represented in this continually surprising collection. Novelist Parks's superb translations capture Calvino's quirky iconoclastic voice, helping to make this a worthy addition to the Calvino shelf. *Publishers Weekly*.

Oxford Handbook of Face Perception Andy Calder, Gillian Rhodes, Mark Johnson, Jim Haxby, 2011-07-28 The human face is unique among social stimuli in conveying such a variety of different characteristics. A person's identity, sex, race, age, emotional state, focus of attention, facial speech patterns, and attractiveness are all detected and interpreted with relative ease from the face. Humans also display a surprising degree

of consistency in the extent to which personality traits such as trustworthiness and likeability are attributed to faces In the past thirty years face perception has become an area of major interest within psychology with a rapidly expanding research base Yet until now there has been no comprehensive reference work bringing together this ever growing body of research The Oxford Handbook of Face Perception is the most comprehensive and commanding review of the field ever published It looks at the functional and neural mechanisms underlying the perception representation and interpretation of facial characteristics such as identity expression eye gaze attractiveness personality and race It examines the development of these processes their neural correlates in both human and non human primates congenital and acquired disorders resulting from their breakdown and the theoretical and computational frameworks for their underlying mechanisms With chapters by an international team of leading authorities from the brain sciences the book is a landmark publication on face perception For anyone looking for the definitive text on this burgeoning field this is the essential book

Face to No-Face David Lang,2015-02-10 In this distinctive series of dialogues Douglas Harding author philosopher and mystic discusses the fundamental issue of life how to awaken to the natural freedom that is our true self Through a unique series of exercises Harding guides us to where we can clearly perceive our original nature From this vantage point we see that who we really are is not limited to our face and the self behind the face but is instead opened out into the limitless No Face the infinite and eternal essence that is both absolutely free and at the same time identified with all existence In spirited intimate conversations as well as public talks Face to No Face offers us a special opportunity to come to know this beloved philosopher in an informal and often humorous setting Throughout the rediscovery of oneself by oneself is invariably the principal theme and Harding articulates the way home in a manner that is always refreshingly authentic and original

The Theatre of Death - The Uncanny in Mimesis Mischa Twitchin,2016-10-20 This book is concerned with such questions as the following What is the life of the past in the present How might the theatre of death and the uncanny in mimesis allow us to conceive of the afterlife of a supposedly ephemeral art practice How might a

theatrical iconology engage with such fundamental social relations as those between the living and the dead Distinct from the dominant expectation that actors should appear life like onstage why is it that some theatre artists from Craig to Castellucci have conceived of the actor in the image of the dead Furthermore how might an iconology of the actor allow us to imagine the afterlife of an apparently ephemeral art practice This book explores such questions through the implications of the twofold analogy proposed in its very title as theatre is to the uncanny so death is to mimesis and as theatre is to mimesis so death is to the uncanny Walter Benjamin once observed that The point at issue in the theatre today can be more accurately defined in relation to the stage than to the play It concerns the filling in of the orchestra pit The abyss which separates the actors from the audience like the dead from the living If the relation between the living and the dead can be thought of in terms of an analogy with ancient theatre how might avant garde theatre be thought of in terms of this same relation today
