**Breaking Anonymity** The Chilly Collective, 2006-01-01 Across North America, a growing body of chilly climate research documents the role played by environmental factors in reproducing gender inequality. Practices that stereotype and devalue women are persistently powerful forces in creating glass ceilings and maintaining pink ghettos. Women academics in North American universities and colleges offer an especially striking case for such research. Precisely because of their elite status, the accounts now emerging of the chilly climate faced by academic women throw into sharp relief the mechanisms that foster gender inequity throughout North American society. Collected in this volume are a number of reports and commentaries on climate issues as they affect women faculty in Canadian universities. They include Sheila McIntyre's Memo, an account of gender harassment in the context of a law school that was first circulated in 1986; two reports by and about women faculty at the University of Western Ontario that were inspired by McIntyre's Memo; accounts of the reactions of male colleagues, the administration, and the media to climate studies; and several chapters that critically reframe the discussion of chilly climate practices in terms of questions of race and sexual identity. Taken together, these reports and discussions demonstrate the importance of addressing the environmental roots of women's continuing inequity both within and outside contemporary academia. They communicate specific experiences which testify to the existence of a chilly climate in our universities and call into question any supposition that women and men have achieved equity to the degree that they could be said to work in the same environment in these institutions.

**Ladies Laughing** Barbara Levy, 2013-09-13 This engaging and accessible book examines the world of seven contemporary popular American women writers and their individual use of wit as a subtle and effective strategy to engage or control the reader. A chapter is devoted to each of the seven writers: Lisa Alther, Rita Mae Brown, Nora Ephron, Shirley Jackson, Alison Lurie, Grace Paley, and Anne Tyler, and discusses their writings and their use of wit in the context of their lives. An opening chapter frames wit and control in psychological realities, and a concluding chapter summarizes the power of wit. A bibliography of the writers' works is also included, making this an ideal introduction and companion to these writers and their works.

Grace Paley Jacqueline Taylor, 2014-02-19 Grace Paley is a writer's writer, admired by both scholars and the reading public for her originality and unique voice. In this first book-length study of her

work Jacqueline Taylor explores the source of Paley's originality locating it in the way Paley transforms language to create strongly woman centered stories Drawing on interviews with the author as well as the stories themselves Taylor emphasizes Paley's awareness that women's voices have been muted and their stories ignored or left untold in our culture's male oriented dominant discourse She watches Paley in the process of reshaping language at both the semantic and narrative levels to make it express women's perceptions and experiences In Paley's stories it becomes possible to ignore traditional heroic and dramatic themes and instead talk about women and children in such everyday settings as the playground the kitchen and the grocery store Some of the specific techniques Paley uses to accomplish this include identifying and repudiating sexist language in the dominant discourse and redefining ordinary words from the perspective of women At the narrative level Taylor reveals how she draws on women's oral traditions to tell open ended stories that resist rigid beginning middle and end structuring This transformed language enables Paley to construct a social world where woman centered meanings can flourish In her nontraditional stories no single narrator or version of events dominates Anyone can be a storyteller and no one has the last word

**The New Wave of British Women Playwrights** Elisabeth Angel-Perez, Aloysia Rousseau, 2023-01-30 It is a fact that today's British stages resound with powerfully innovative voices and that very often these voices have been those of young women playwrights This collection of essays gives visibility and pride of place to these fascinating voices by exploring the vitality inventiveness and particularly strong relevance of these poetics These women playwrights sometimes invent radically new forms and sometimes experiment with conventional ones in fresh and unexpected ways as for example when they re energize naturalism and provide it with new missions The plays that are addressed are all concerned with the necessity to grasp the complexity of the contemporary world and to further investigate what it means to be human Intimate or epic and sometimes both at once visionary or closer to everyday life these plays approach the contemporary world through a multitude of prisms historical scientific political and poetic and open different and visionary perspectives

**How to Tell God from the Devil** A. Roy Eckardt, 2018-01-16 How to Tell God From the Devil is the first book to depict the relationship among comedy the Devil and God Drawing from Jewish and Christian theories Eckardt describes comedy as a means to distinguish the divine from the diabolic He presents a thorough critique of efforts throughout history to justify God in the presence of radical evil and suffering How to Tell God From the Devil is a sequel to Eckardt's fascinating earlier study *Sitting in the Earth and Laughing* Eckardt offers a theological vision of the comic and shows its practical use in differentiating God from the Devil The viewpoint presupposed is a special application of the incongruity theory of humor which sees humor as an attempt to deal with inexplicable occurrences Eckardt shows how humor can make faulty explanations tolerable for examining evil and suffering particularly the notion that God can somehow be excused for the terrible evils extant in the world Eckardt critiques dualistic views that make the Devil and God independent sovereign beings and monistic views that try to reduce evil to non being Eckardt holds God to be ultimately

responsible for evil in such ways that the only final resolution of evil if there is such is a form of divine comedy Eckardt employs a variety of historical psychological sociological philosophical and theological sources He discusses and assesses such diverse figures as Martin Luther Reinhold Niebuhr Zen Buddhists Conrad Hyers Nancy A Walker Jon D Levenson and Harvey Cox How to Tell God From The Devil is an exceptional work and will be significant and enjoyable for sociologists theologians philosophers and specialists concerned with the study of humor
