

The background of the book cover is a classical painting. It depicts a man in a red robe, possibly a philosopher or a figure of authority, being restrained or held back by several other figures. The man in the red robe is looking towards the viewer with a serious expression. The other figures are dressed in classical attire, and the scene is set in a dark, dramatic environment. The overall tone is serious and intellectual.

Classics of Moral and Political Theory Michael L. Morgan,2011-09-15 The fifth edition of Michael L Morgan s Classics of Moral and Political Theory broadens the scope and

increases the versatility of this landmark anthology by offering new selections from Aristotle's Politics, Aquinas' Disputed Questions on Virtue and Treatise on Law as well as the entirety of Locke's Letter Concerning Toleration, Kant's To Perpetual Peace and Nietzsche's On the Advantage and Disadvantage of History for Life. Hegel and the Metaphysical Frontiers of Political Theory Eric Lee Goodfield, 2014-06-27 For over one hundred and fifty years G W F Hegel's ghost has haunted theoretical understanding and practice. His opponents first and later his defenders have equally defined their programs against and with his. In this way Hegel's political thought has both situated and displaced modern political theorizing. This book takes the reception of Hegel's political thought as a lens through which contemporary methodological and ideological prerogatives are exposed. It traces the nineteenth century origins of the positivist revolt against Hegel's legacy forward to political science's turn away from philosophical tradition in the twentieth century. The book critically reviews the subsequent revisionist trend that has eliminated his metaphysics from contemporary considerations of his political thought. It then moves to re-evaluate their relation and defend their inseparability in his major work on politics, the Philosophy of Right. Against this background, the book concludes with an argument for the inherent metaphysical dimension of political theorizing itself. Goodfield takes Hegel's reception, representation as well as rejection in Anglo-American scholarship as a mirror in which its metaphysical presuppositions of the political are exceptionally well reflected. It is through such reflection, he argues, that we may begin to come to terms with them. This book will be of great interest to students, scholars and readers of political theory and philosophy. **Hegel, metaphysics and the philosophy of the social sciences** **Philosophical Foundations of Criminal Law** R. A. Duff, Stuart Green, 2013-01-24 Twenty-five leading contemporary theorists of criminal law tackle a range of foundational issues about the proper aims and structure of the criminal law in a liberal democracy. The challenges facing criminal law are many. There are crises of over-criminalization and over-imprisonment. Penal policy has become so politicized that it is difficult to find any clear consensus on what aims the criminal law can properly serve. Governments seeking to protect their citizens in the face of a range of perceived threats have pushed the outer limits of criminal law and blurred its boundaries. To think clearly about the future of criminal law and its role in a liberal society, foundational questions about its proper scope, structure and operations must be re-examined. What kinds of conduct should be criminalized? What are the principles of criminal responsibility? How should offences and defences be defined? The criminal process and the criminal trial need to be studied closely and the purposes and modes of punishment should be scrutinized. Such a re-examination must draw on the resources of various disciplines, notably law, political and moral philosophy, criminology and history. It must examine both the inner logic of criminal law and its place in a larger legal and political structure. It must attend to the growing field of international criminal law. It must consider how the criminal law can respond to the challenges of a changing world. Topics covered in this volume include the question of criminalization and the proper scope of the criminal law, the grounds of criminal responsibility, the ways in which offences and defences should be defined, the criminal process and its

values criminal punishment the relationship between international criminal law and domestic criminal law Together the essays provide a picture of the exciting state of criminal law theory today and the basis for further research and debate in the coming years *Greek Political Theory* Sir Ernest Barker, 1918
