Debating the Death Penalty Hugo Adam Bedau, Paul G. Cassell, 2005-03-24 When news breaks that a convicted murderer released from prison has killed again or that an innocent person has escaped the death chamber in light of new DNA evidence arguments about capital punishment inevitably heat up Few controversies continue to stir as much emotion as this one and public confusion is often the result This volume brings together seven experts judges lawyers prosecutors and philosophers to debate the death penalty in a spirit of open inquiry and civil discussion Here as the contributors present their reasons for or against capital punishment the multiple facets of the issue are revealed in clear and thought provoking detail Is the death penalty a viable deterrent to future crimes Does the imposition of lesser penalties such as life imprisonment truly serve justice in cases of the worst offences Does the legal system discriminate against poor or minority defendants Is the possibility of executing innocent persons sufficient grounds for abolition In confronting such questions and making their arguments the contributors marshal an impressive array of evidence both statistical and from their own experiences working on death penalty cases The book also includes the text of Governor George Ryan s March 2002 speech in which he explained why he had commuted the sentences of all prisoners on Illinois s death row By representing the viewpoints of experts who face the vexing questions about capital punishment on a daily basis *Debating the Death Penalty* makes a vital contribution to a more nuanced understanding of the moral and legal problems underlying this controversy

Abortion, Execution, and the Consequences of Taking Life James D. Slack, 2017-09-08 This book focuses on the relationship between public morality and personal action in the American political community It emphasizes the responsibilities of citizens and government to find and confirm truth looking to specific sources religious scripture and empirical events Recognizing that we have a natural preference for distraction and distance from both sources of truth Slack uses qualitative open ended interviews and direct observation to uncover the intimate consequences of life taking in open societies Abortion and murder capital punishment are instances in which there is a sequence of events that result in life taking The act of murder denies the sanctity of life of someone else Abortion and capital punishment also deny the sanctity of the lives of others The intimacy of life taking is not typically acknowledged or remains hidden This makes it difficult to assess the consequences for victims survivors and the political community as a whole As a result there is only a tenuous link between public actions that question the sanctity of human life and the moral compass professed by the American democracy The volume presumes a theocentric foundation envisioned by the American Founders It explores the model's first source of truth biblical scripture as it applies to the public actions of murder abortion and capital punishment Then it investigates the intimate reality of these acts These realities are examined in a variety of settings resulting in a mosaic pattern of public action about capital punishment and abortion Slack underscores the importance of government's role of providing outward justice as well as the citizen's responsibility to be supportive of government tasks in order to reconcile the reality of life taking with the moral compass professed in the American political community

Deterrence and the Death Penalty National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Law and Justice, Committee on Deterrence and the Death Penalty, 2012-05-26 Many studies during the past few decades have sought to determine whether the death penalty has any deterrent effect on homicide rates Researchers have reached widely varying even contradictory conclusions Some studies have concluded that the threat of capital punishment deters murders saving large numbers of lives other studies have concluded that executions actually increase homicides still others that executions have no effect on murder rates Commentary among researchers advocates and policymakers on the scientific validity of the findings has sometimes been acrimonious Against this backdrop the National Research Council report Deterrence and the Death Penalty assesses whether the available evidence provides a scientific basis for answering questions of if and how the death penalty affects homicide rates This new report from the Committee on Law and Justice concludes that research to date on the effect of capital punishment on homicide rates is not useful in determining whether the death penalty increases decreases or has no effect on these rates The key question is

whether capital punishment is less or more effective as a deterrent than alternative punishments such as a life sentence without the possibility of parole Yet none of the research that has been done accounted for the possible effect of noncapital punishments on homicide rates The report recommends new avenues of research that may provide broader insight into any deterrent effects from both capital and noncapital punishments

Public Executions Christopher S. Kudlac, 2007-08-30

The death penalty is one of the country's most controversial issues The fairness of its application is debated in coffeehouses classrooms political arenas and the media However despite its representation in the media most death cases receive surprisingly little national media attention In fact of the 1000 people executed in the United States since 1977 and the 3500 inmates currently awaiting execution only a handful of cases can be recalled by the public Those that are memorable are so because only a few are dramatically represented in the media Why is it that those that receive the most serious penalty are virtually nameless while the death penalty in general is one of the most discussed aspects of the criminal justice system What makes some executions more newsworthy than others What are the implications of this coverage for the public's understanding of this significant issue This book looks at those death row cases that received the most intensive media coverage from the 1970s through the present and why At the same time it focuses on changes in public opinion about the death penalty and how newspaper coverage and evolving mass sentiment relate to one another Kudlac covers such celebrated cases as Karla Faye Tucker Timothy McVeigh Aileen Wuornos John Wayne Gacy and others that captured the attention of the American public and affected public opinion about the death penalty through the help of the media He considers issues such as religion politics race gender and class as he reveals the reasons for our attention to certain cases above others The book concludes with a consideration of where we go from here With new investigative techniques that have helped to exonerate some death row inmates and various other considerations that have come into play in recent cases the future of the death penalty will continue to be shaped by the media and the public

The Death Penalty Ernest Van den Haag, John Phillips Conrad, 2013-06-29

From 1965 until 1980 there was a virtual moratorium on executions for capital offenses in the United States This was due primarily to protracted legal proceedings challenging the death penalty on constitutional grounds After much Sturm und Drang the Supreme Court of the United States by a divided vote finally decided that the death penalty does not invariably violate the Cruel and Unusual Punishment Clause of the Eighth Amendment The Court's decisions however do not moot the controversy about the death penalty or render this excellent book irrelevant The ball is now in the court of the Legislature and the Executive Legislatures

federal and state can impose or abolish the death penalty within the guidelines prescribed by the Supreme Court A Chief Executive can commute a death sentence And even the Supreme Court can change its mind as it has done on many occasions and did with respect to various aspects of the death penalty itself durlog the moratorium period Also the people can change their minds Some time ago a majority according to reliable polls favored abolition Today a substantial majority favors imposition of the death penalty The pendulum can swing again as it has done in the past

By Man Shall His Blood Be Shed Edward Feser,Joseph Bessette,2017-03-15 The Catholic Church has in recent decades been associated with opposition to the death penalty It was not always so This timely work recovers and calls for a revival of the Catholic tradition of support for capital punishment Drawing upon a wealth of philosophical scriptural theological and social scientific arguments the authors show that it is the perennial and irreformable teaching of the Church that capital punishment can in principle be legitimate not only to protect society from immediate physical danger but also for purposes such as retributive justice and deterrence They show that the recent statements of churchmen in opposition to the death penalty are merely prudential judgments with which faithful Catholics are not obliged to agree They also show that the prudential grounds for opposition to capital punishment offered by Catholics and others in recent years are without force The extreme statements made by some Catholics in opposition to the death penalty do grave harm to the Church by falsely suggesting a rupture in her traditional teaching thereby inadvertently casting doubt on the reliability of the Magisterium And they do grave harm to society by removing a key component of any system of criminal justice which can protect the lives of the innocent inculcate a horror of murder and affirm the dignity of human beings as free and rational creatures who must be held responsible for their actions By Man Shall His Blood Be Shed is a challenge to contemporary Catholics to move beyond simple minded sloganeering to a serious engagement with scripture tradition natural law and the actual social scientific evidence and a faithful exercise of the hermeneutic of continuity called for by Pope Benedict XVI
