Pun(k) Deconstruction Jan Jagodzinski, 1997 In Postmodern Dilemmas Outrageous Essays in Art Art Education and Pun k Deconstruction Experifigural Writings in Art Art Education jan jagodzinski presents a series of essays covering a timespan of approximately ten years These essays chart the theory and practice of art art education as it relates to issues of postmodernity and poststructuralism concerning representation identity politics consumerism postmodern architecture ecology phallocentrism of the artistic canon pluriculturalism media and technology and AIDS As a former editor of The Journal of Social Theory in Art Education and a founding member for the Caucus on Social Theory in Art Education the author attempts to deconstruct the current art education paradigm which is largely based on modernist tenets and to reorient art education practice to social issues as developed in both media education and cultural studies Part of the intent in these two volumes is to undertake a sustained critique of the 1982 Art in the Mainstream A I M statement which continues to be considered as the core value for art education The distinct intention of this critique is to put forward a new value base for art art education in these postmodern times Many of the essays raise the need to be attentive to sex gender issues in art art education and the need to read the artistic discourse otherwise There is a sustained critique of the art programs developed by the Getty Center for the Arts whose arts curriculum presents the paradigm case of late modernist thinking Some essays are written in a provocative form that tries to accommodate such content This is particularly the case in Pun k Deconstruction where architectural discourse is deconstructed and which includes an artistic performance given by the author in 1987 This singular set of volumes combines scholarship in the areas of gender studies aesthetics art history art education poststructuralism and cultural studies in a unique blend of theory and practice for rethinking the field of art education

by the Getty Center for the Arts whose arts curriculum presents the paradigm case of late modernist thinking Some essays are written in a provocative form that tries to accommodate such content This is particularly the case in Pun k Deconstruction where architectural discourse is deconstructed and which includes an artistic performance given by the author in 1987 This singular set of volumes combines scholarship in the areas of gender studies aesthetics art history art education poststructuralism and cultural studies in a unique blend of theory and practice for rethinking the field of art education

Music in Youth Culture j. jagodzinski, 2005-08-19 Music in Youth Culture examines the fantasies of post Oedipal youth cultures as displayed on the landscape of popular music from a post Lacanian perspective Jan Jagodzinski an expert on Lacan psychoanalysis and education s relationship to media maintains that a new set of signifiers is required to grasp the sliding signification of contemporary youth He discusses topics such as the figurality of noise the perversions of the music scene by boyz bois boys and the hysterization of it by gurlz girls grrrls Music in Youth Culture also examines the postmodern fan addict techno music and pop music icons Jagodzinski raises the Lacanian question of an ethics of the Real and asks educators to re examine youth culture

Text, Discourse, Deconstruction and an Exploration of Self Jane S. Gooding Brown, 1997 With the development of disciplined based art education we need to have a way to unpack and repack through techniques of postmodern critical activity interpretations of meanings in art texts in such a way as to understand and expand upon concepts of self and difference In this study I have investigated the problem of a postmodern perspective for interrogating interpretations of meanings in art texts Such a perspective uses poststructuralist approaches to interpretation and meaning in order to disrupt modernist assumptions of fixed meaning in art texts I believe that the consequences of such a perspective ultimately lead to an understanding of how interpretations of meanings have been socially and historically constructed by discursive practices and how the experience of interpretation contributes to an exploration of self and identity This study has been framed by the different theoretical positions of the French post structuralists Michel Foucault and Jacques Derrida As the concept of discursive positioning in constituting interpretation is important in this study Foucault s understanding of discourses and the self has been examined As deconstruction as critical activity is also important Derrida s writing has been examined in order to develop strategies of text deconstruction The resulting poststructuralist perspectives have been used in the methodology of the research problem They have also been used to develop a postmodern disruptive model which allows for the interpretations of meanings in art texts to be understood as discursive practices In understanding discursive practices students may see their own shifting positions in discourses and understand how those positionalities constitute and condition their interpretations of the world This has important implications for multicultural concepts in art education The empowering of students by the personal construction and understanding of aesthetic knowledge and knowledge of self allows for greater expansion of interpretations critical thinking multicultural thinking and innovative risk taking in their everyday experiences The implications of subjectivity and understanding of self for critical art theory and

critical thinking at the senior school level are significant. If students are able to understand and recognize their own and others' positioning in particular and different discourses, they can examine their own interpretations through their relationship with the discourses embedded in art texts. By deconstructing the discourses in art texts and positioning themselves in those discourses, students can begin to see their selves in the world as social beings and see how they link with others. Their interpretations of meanings in all art texts and of the world become richer and more numerous. Students in understanding how different positionalities in different discourses interconnect and interact may also critically think about programs in art education such as multiculturalism which could become as a whole irrelevant in their postmodern worldview.

What Punk Taught Me Gregory Blair, Jason Swift, 2025-07-22. From personal anecdotes to philosophical inquiries, *What Punk Taught Me* gathers essays from fifteen different contributors whose lives have all been touched upon by punk culture in some meaningful way. Many years after hearing their first blast of distorted punk guitar as a youth or teenagers, these individuals like so many others have come to realize later in life that their experience of punk has provided them with an incredibly valuable tutelage in becoming an artist, writer, educator, or overall human being. For these contributors, the experience of punk has been the source of community and ethics, philosophy and aesthetics, or even an attitude and identity. This anthology explores how various individuals have connected with punk in a variety of distinctive ways through music, venues, fashion, art, writing, activism, collecting, culture, rebellion, subversion, or DIY projects. These essays document the lessons of punk bringing together people from a wide array of backgrounds. Each of them shares their own unique story of what punk has taught them, how those experiences have been formative in their lives, and how punk has supported their personal and professional development. These narratives serve as a reflection on the myriad influences of punk as a methodology, a philosophy, an ontology, an aesthetic, a strategy, a cultural phenomenon, or a worldview. The culmination of this collection provides a deeper understanding of the individualized and personal influences of punk, but also the wider arch and overall legacy of punk culture. Through this analysis, an explicit correlation is drawn between the world of punk, the education it provides, and the ripples of its wider socio-cultural impact.
