The author a self identified member of the punk subculture formerly living and active in Warsaw explores the various political economic and social dimensions of the development of these unique communities and the meaning of the punk ethos for people across different age groups genders and life experiences in relation to other subcultures especially skinheads and the broader society. An additional dimension previously unexplored in scholarship are the ties between these Polish punk communities and their counterparts in the United States and Canada. The personal connections between early bands and the long lasting transnational aspects of punk practices are shown to be an important factor in the shaping of punk attitudes across time and space. The economics of everyday punk life are discussed referring to contemporary scholarship on the subject punk lyrics and ethnographies which throughout the book illustrate selected themes and problems.
