## **Puppetmaster The Secret Life:**

**Puppetmaster** Richard Hack, 2004-01-01 J Edgar Hoover the most powerful lawman in America for more than fifty years was also the country's most controversial and feared public servant His career as director of the Federal Bureau of Investigation spanned nine different presidential administrations During that time Hoover completely reshaped domestic law enforcement transforming his G men into an elite national crime fighting division Despite his contributions to the criminal justice system Hoover fell from favor soon after his death the victim of rampant rumors and innuendo In *Puppetmaster* Richard Hack separates truth from fiction to reveal the most hidden secrets of Hoover's private life and exposes previously undisclosed conduct that threatened to compromise the security of the entire nation Based on files documents and over 100 000 pages of FBI memos and State Department papers Hack rips the lid off Hoover's facade of propriety to detail a life replete with sexual indiscretions criminal behavior and a long standing alliance with the Mafia *Puppetmaster: The Secret Life* Richard Hack, 2001-01-01 While many of J Edgar Hoover's achievements and insecurities are well documented the author of *Hughes and Clash of the Titans* reveals for the first time the most hidden secrets of Hoover's private life and exposes previously undisclosed conduct that threatened to compromise the security of the entire nation of photos **Dishonorable Passions** William N. Eskridge Jr., 2008-05-01 From the Pentagon to the wedding chapel there are few issues more controversial today than gay rights As William Eskridge persuasively demonstrates in *Dishonorable Passions* there is nothing new about this political and legal obsession The American colonies and the early states prohibited sodomy as the crime against nature but rarely punished such conduct if it took place behind closed doors By the twentieth century America's emerging regulatory state targeted degenerates and later homosexuals The witch hunts of the McCarthy era caught very few Communists but ruined the lives of thousands of homosexuals The nation's sexual revolution of the 1960s fueled a social movement of people seeking repeal of sodomy laws but it was not until the Supreme Court's decision in *Lawrence v Texas* 2003 that private sex between consenting adults was decriminalized With dramatic stories of both the hunted Walt Whitman and Margaret Mead and the hunters Earl Warren and J Edgar Hoover *Dishonorable Passions* reveals how American sodomy laws affected the lives of both homosexual and heterosexual Americans Certain to provoke heated debate *Dishonorable Passions* is a must read for anyone interested in the history of sexuality and its regulation in the United States *The Gospel of J. Edgar Hoover* Lerone A. Martin, 2024-11-05 The shocking untold story of how the FBI partnered with white evangelicals to champion a vision of America as a white Christian nation On a Sunday morning in 1966 a group of white evangelicals dedicated a stained glass window to J Edgar Hoover The FBI director was not an evangelical but his Christian admirers anointed him as their political champion believing he would lead America back to God *The Gospel of J Edgar Hoover* reveals how Hoover and his FBI teamed up with leading white evangelicals and Catholics to bring about a white Christian America by any means necessary Lerone Martin draws on thousands of newly declassified FBI documents and memos to describe how

under Hoover's leadership FBI agents attended spiritual retreats and worship services creating an FBI religious culture that fashioned G men into soldiers and ministers of Christian America Martin shows how prominent figures such as Billy Graham Fulton Sheen and countless other ministers from across the country partnered with the FBI and laundered bureau intel in their sermons while the faithful crowned Hoover the adjudicator of true evangelical faith and allegiance These partnerships not only solidified the political norms of modern white evangelicalism they also contributed to the political rise of white Christian nationalism establishing religion and race as the bedrock of the modern national security state and setting the terms for today's domestic terrorism debates Taking readers from the pulpits and pews of small town America to the Oval Office and from the grassroots to denominational boardrooms The Gospel of J Edgar Hoover completely transforms how we understand the FBI white evangelicalism and our nation's entangled history of religion and politics **LBJ: The**

**Mastermind of the JFK Assassination** Phillip F. Nelson, 2013-07 Lays out evidence for the theory that Lyndon Baines Johnson played an active role in plotting the death of John F Kennedy **McCarthyism** Jonathan Michaels, 2017-04-21 In this succinct text Jonathan Michaels examines the rise of anti communist sentiment in the postwar United States exploring the factors that facilitated McCarthyism and assessing the long term effects on US politics and culture McCarthyism The Realities Delusions and Politics Behind the 1950s Red Scare offers an analysis of the ways in which fear of communism manifested in daily American life giving readers a rich understanding of this era of postwar American history Including primary documents and a companion website Michaels text presents a fully integrated picture of McCarthyism and the cultural climate of the United States in the aftermath of the Second World War How We Forgot the Cold War Jon Wiener, 2012-10-15 Here's a book that would've split the sides of Thucydides Wiener's magical mystery tour of Cold War museums is simultaneously hilarious and the best thing ever written on public history and its contestation Mike Davis author of City of Quartz Jon Wiener an astute observer of how history is perceived by the general public shows us how official efforts to shape popular memory of the Cold War have failed His journey across America to visit exhibits monuments and other historical sites demonstrates how quickly the Cold War has faded from popular consciousness A fascinating and entertaining book Eric Foner author of Reconstruction America's Unfinished Revolution 1863-1877 In How We Forgot the Cold War Jon Wiener shows how conservatives tried and failed to commemorate the Cold War as a noble victory over the global forces of tyranny a good war akin to World War II Displaying splendid skills as a reporter in addition to his discerning eye as a scholar this historian's travelogue convincingly shows how the right sought to extend its preferred policy of rollback to the arena of public memory In a country where historical memory has become an obsession Wiener's ability to document the ambiguities and absences in these commemorations is an unusual accomplishment Rick Perlstein author of Nixonland The Rise of a President and the Fracturing of America In this terrific piece of scholarly journalism Jon Wiener imaginatively combines scholarship on the Cold War contemporary journalism and his own observations of various sites commemorating the era to

describe both what they contain and just as importantly what they do not By interrogating the standard conservative brand of American triumphalism Wiener offers an interpretation of the Cold War that emphasizes just how unnecessary the conflict was and how deleterious its aftereffects have really been Ellen Schrecker author of *Many Are The Crimes McCarthyism in America*

*Einstein on Race and Racism* Fred Jerome, Rodger Taylor, 2005-07-11 Nearly fifty years after his death Albert Einstein remains one of America s foremost cultural icons A thicket of materials ranging from scholarly to popular have been written compiled produced and published about his life and his teachings Among the ocean of Einsteinia scientific monographs biographies anthologies bibliographies calendars postcards posters and Hollywood films however there is a peculiar void when it comes to the connection that the brilliant scientist had with the African American community Nowhere is there any mention of his close relationship with Paul Robeson despite Einstein s close friendship with him or W E B Du Bois despite Einstein s support for him This unique volume is the first to bring together a wealth of writings by the scientist on the topic of race Although his activism in this area is less well known than his efforts on behalf of international peace and scientific cooperation Einstein spoke out vigorously against racism both in the United States and around the world Fred Jerome and Rodger Taylor suggest that one explanation for this historical amnesia is that Einstein s biographers avoided controversial topics such as his friendships with African Americans and his political activities including his involvement as co chair of an antilynching campaign fearing that mention of these

details may tarnish the feel good impression his image lends topics of science history and America Combining the scientist s letters speeches and articles with engaging narrative and historical discussions that place his public statements in the context of his life and times this important collection not only brings attention to Einstein s antiracist public activities but also provides insight into the complexities of antiracist culture in America The volume also features a selection of candid interviews with African Americans who knew Einstein as children For a man whose words and reflections have influenced so many it is long overdue that Einstein s thoughts on this vital topic are made easily accessible to the general public

**The Fall of the House of Bush** Craig Unger,2008-09-04 Conventional wisdom has it that the Middle East crisis is the product of a clash of civilizations between Islam and the West **THE FALL OF THE HOUSE OF BUSH** frames that conflict as part of an entirely different paradigm namely the ongoing war between faith and reason between fundamentalisms Islamic Jewish Christian and the modern scientific post Enlightenment world It tells the story of how radical neoconservative ideologues secretly formed an alliance with the Christian Right in the Bush White House and how driven by delusional idealism and ideological and religious zeal they waged unilateral and pre emptive war in the Middle East as well as a domestic war against reason science and civil liberties Extending the investigative reach deployed so devastatingly in **HOUSE OF BUSH** **HOUSE OF SAUD** Craig Unger s brilliant expos shows the real intentions and likely outcomes of the Bush administration s true playbook *National Insecurities* Deirdre M. Moloney,2012 For over a century deportation and exclusion have defined eligibility for citizenship in the United States and in turn have shaped what it means to be American In this broad analysis of policy from 1882 to present Deirdre Moloney places current debat *Adventures in the Orgasmatron* Christopher Turner,2011-06-07 One of The Economist s 2011 Books of the Year A Boston Globe Best Nonfiction Book of 2011 Well before the 1960s a sexual revolution was under way in America led by expatriated European thinkers who saw a vast country ripe for liberation In *Adventures in the Orgasmatron* Christopher Turner tells the revolution s story an illuminating thrilling often bizarre story of sex and science ecstasy and repression Central to the narrative is the orgone box

a tall slender construction of wood metal and steel wool A person who sat in the box it was thought could elevate his or her orgasmic potential The box was the invention of Wilhelm Reich an outrider psychoanalyst who faced a federal ban on the orgone box an FBI investigation a fraught encounter with Einstein and bouts of paranoia In Turner s vivid account Reich s efforts anticipated those of Alfred Kinsey Herbert Marcuse and other prominent thinkers efforts that brought about a transformation of Western views of sexuality in ways even the thinkers themselves could not have imagined **Hit List** Richard Belzer,David Wayne,2016-06-07 Richard Belzer and David Wayne are back to set the record straight after Dead Wrong this time they re going to uncover the truth about the many witness deaths tied to the JFK assassination For decades government pundits have dismissed these coincidental deaths even regarding them as myths as urban legends Like most people Richard and David were initially unsure about what to make of these coincidences After all events don t consult the odds prior to happening they simply happen Then someone comes along later and figures out what the odds of it happening were Some of the deaths seemed purely coincidental heart attacks hunting accidents Others clearly seemed noteworthy witnesses who did seem to know something and did seem to die mysteriously Hit List is a fair examination of the evidence of each case leading to necessarily different conclusions The findings were absolutely staggering as some cases were clearly linked to a clean up operation after the murder of President Kennedy while others were the result of other forces The impeccable research and writing of Richard Belzer and David Wayne show that if the government is trying to hide anything they re the duo who will uncover it Revelations of the Great Spirit Arthur J.
