Puppies Nature Series:

The Scientific Education of Dogs for the Gun (History of Shooting Series - Gundogs & Training) H. Nevill Fitt, 2021-01-08
The author writes from his then thirty seven years of practical experience beginning with his first successfully trained Pointer as a teenager Some of his methods will prove controversial but the overall advice given in this book has easily stood the test of time and will benefit all first time trainers or anyone wishing to improve on their present methods 220 pages contain sixteen detailed chapters dealing with The Rationale Kennel Management Retrievers 4 chapters Wild Fowling Pointers and Setters 8 chapters Field Trials Spaniels The eight chapters concentrating on the breaking or training of Pointers and Setters will prove of enormous interest to shooting men field triallers and falconers The author s admiration for the reasoning power of the dog which makes itself evident on every other page will assuredly be shared by all who read this book Many of the earliest sporting books particularly those dating back to the 1800s are now extremely scarce and very expensive We are republishing these classic works in affordable high quality modern editions using the original text and artwork *The Dogs of the British Islands. Being a Series of Articles on the Points of Their Various Breeds, and the Treatment of the Diseases to which They are Subject* John Henry Walsh, 2025-07-12 Reprint of the original first published in 1882 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage **Special Report Series** ,1921 A **Teaching Guide for Suzanne Tate's Nature Series** Suzanne Tate, Susan Maloney, 1995 **HANDBOOK OF NATURE STUDY** ANNA BOTSFORD COMSTOCK, 2010-01-08 Anna Botsford Comstock s classic tome on Nature Study for Children Parts I II and III Suitable for all ages *Good Puppy Academics* Margie Cantwell, 2012-09 This book was written for people who feel overwhelmed confused or simply turned off by all the conflicting dog training methods available to us today There is so much information created by people on the subject that it is difficult to sort out who s right who s wrong what works and what doesn t work I have designed this simple book to touch on the basic things that apply to all dogs and their owners because it s not my way it s nature s way a sensible universal place to start regardless of what kind of dog or puppy you have because it s encoded in their genes As an educator I enjoy teaching people how to live more balanced lives with their pets because I believe dogs are meant to be in our lives as stress reducers not stress producers People should have a pet to enjoy them not to annoy them If your dog is causing you stress chances are you are doing the same to him Who you are and how you interact on a daily basis with your dog will determine what kind of leadership style you represent and what kind of feedback your dog will give you in return Good Puppy Academics incorporates the science of the mind along with canine psychology to achieve a balance that enhances the human and canine partnership You will discover how pain versus pleasure problem solving and having the no skill no kill mentality can help you to tap into your dog s primal intelligence and train your dog more efficiently and humanely because it s not my way it s nature s way *The School Journal* ,1904 *New York School Journal* ,1904
