**Global Crime and Justice** David Jenks, John Randolph Fuller, 2016-12-08 Global Crime and Justice offers a truly transnational examination of both deviance and social controls around the world Unlike comparative textbooks detailing the criminal justice systems of a few select nations or cataloging types of international crimes that span multiple legal jurisdictions Global Crime and Justice provides a critical and integrated investigation into the nature of crime and how different societies react to it The book first details various types of international crime including genocide war crimes international drug and weapons smuggling terrorism slavery and human trafficking The second half covers international law international crime control the use of martial law and the challenges of balancing public order with human and civil rights Global Crime and Justice is suitable for use in criminology and criminal justice departments as well as in political science international relations and global studies programs It will appeal to all who seek an academically rigorous and comprehensive treatment of the international and transnational issues of crime and social order

**Errors of Justice** Brian Forst, 2004 In this book Brian Forst takes a fresh new perspective on the assessment of criminal justice policy examining the prospect of assessing policies based on their impact on errors of justice the error of failing to bring offenders to justice on the one hand and the error of imposing costs on innocent people and excessive costs on offenders on the other Noting that we have sophisticated systems for managing errors in statistical inference and quality control processes and no parallel system for managing errors of a more socially costly variety on matters of guilt and innocence the author lays the foundation for a common sense approach to the management of errors in the criminal justice system from policing and prosecution to sentencing and corrections He examines the sources of error in each sector the harms they impose on society and frameworks for analyzing and reducing them

**Justice Church** Frederick Herzog, 2005-09-13 Frederick Herzog's focus on the praxis context of the church is right on target He makes a much needed contribution to the critical development of liberation theologies in the North American situation Letty M Russell Yale University Divinity School I am particularly grateful for the clear articulation in the book of a number of concerns emerging in Third World theology such as the recognition of poverty as a political and not a natural phenomenon the shift from elite universals to peoples universals the emphasis on Christopraxis as the key to orthodoxy the interpretation of theology as praxis seeking understanding and the emphasis on the sacraments of Baptism and the Lord's Supper as affirming that the bifurcation of history into a bodily history and spiritual history has been overcome I hope that the book will be widely read in all continents and stimulate dialogue for promoting praxis rooted theology J Russell Chandran United Theological College Bangalore India Herzog refuses to do an easy or obvious theology but insists on raising difficult questions which require theology to be done with some anguish He has seen more clearly than most that we are in a crisis of categories which must be reshaped in shattering ways not only to

do a new theology but to re understand the nature of theology Members of the United Church of Christ his own church body will especially benefit from Herzog s proposals as this militantly liberal church is urged in critical and self critical directions Walter Brueggemann Professor Emeritus Columbia Theological Seminary No one has been more passionately involved than Frederick Herzog in responding to the challenges to mainstream North American Christianity from Latin American and black liberation theologians Addressing liberal Protestant theology and denominational structures in Justice Church Herzog unfolds a new theological method and a new understanding of the church This is an important book for all who believe that Christian faith involves response to injustice Lee Cormie University of St Michael s College University of Toronto Frederick Herzog was Professor at the Duke University Divinity School He served on numerous commissions of the World Council of Churches and the United Church of Christ In the spring of 1970 he wrote the first North American article on liberation theology and in 1972 his Liberation Theology was published a study of the Fourth Gospel described by Robert McAfee Brown as a pioneer North American work In Justice Church Herzog continues his pioneering work with a North American methodology of liberation theology

Profiling and Criminal Justice in America Jeff Bumgarner, 2014-12-16 An unbiased examination of profiling in the criminal justice system one of the most hotly contested public policy issues on the streets in the courts and in the jails and prisons of America In the post 9 11 world profiling by law enforcement has become standard operating procedure Profiling by prosecutors judges and corrections officers is pervasive in other criminal justice contexts as well Is profiling actually effective in preventing crime or identifying likely offenders and therefore justifiable This accessible single volume reference book examines profiling as it pertains to the criminal justice system in the United States providing non partisan information that illuminates the full scope of the profiling issue and discusses the possible impact of profiling on all American citizens Addressing this highly controversial topic holistically the book considers questions such as whether the criminal justice system in the United States unfairly targets minorities how the rights of minorities can be protected while enabling law enforcement to use every resource available and whether justification for profiling techniques exists This work will serve students at the high school and college level as well as general readers who are interested in criminal justice issues and issues relating to equality and fairness before the bar of justice

**Islamic Public Law - Islamic Law in Theory and Practice** Ahmed Akgunduz, 2011-11-01 Islamic law contains explications and divisions that imply a classification in terms of public and private law In this book we will explain the outlines of Islamic public law e g First Chapter Islamic constitutional law al siy sah al shar iyyah and administrative law al siy sah al shar iyyah Second Chapter penal law al uq b t Third Chapter financial law zak t ushr ar j and other taxes Fourth Chapter trial law qa and Fifth Chapter international public law al siyar The fields of especially Islamic constitutional law administrative law financial law ta z r penalties and arrangements concerning military law based on the restricted legislative authority vested by Shar ah rules and those jurisprudential decrees based on secondary sources like customs and traditions and the public good maslahah all fell under

what was variously called public law *al siy saḥ al sharʿiyyah* Sharʿah policy *qānūn* legal code *qānūn* *maḥrūf* etc Since these laws could not go beyond Sharʿah principles either at least in theory they should not be regarded as a legal system outside of Islamic law But Islamic penal law financial law trial law and international law depend mostly on rules that are based directly on the Qurʾān and the Sunnah and codified in books of fiqh Islamic law called Sharʿah rules Sharʿi sharʿf or Sharʿah law Such rules formed 85% of the legal system In this book we will focus on some controversial problems in the Muslim world today such as the form of government in Islamic law and the relation between Islam and democracy Islamic law does not stipulate a certain method of state government nonetheless we may say that the principles it decrees and its concept of sovereignty suggest a religious republic As a matter of fact *ulaf al Rashid* the Rightly Guided Caliphs were both caliphs and religious republican presidents We could say that this book has three main characteristics i We have tried to base our explanations directly on the primary Islamic law sources For example after reading some articles on the caliphate or *tamr* system in articles or books by some Western scholars and even by some Muslim scholars one might conclude that there are different views on these subjects among Muslim scholars This is not true Muslims have agreed on the basic rules on legal subjects but there are some conflicts regarding nuances and interpretations If one reads works by Imām Gazzālī Ibn Taymiyyah al Mawardi and al Farrānī one will not find any disagreement on the main rules but there are some different interpretations of some concepts We have tried to discover where they agreed and we have sometimes pointed to where they differed ii We have researched practices of Islamic law especially legal documents in the Ottoman archives For example we explain *add-i sariqa* but also mention some legal articles from the Ottoman legal codes *qānūn* *mes* and some Sharʿah court decisions like legal decrees *ilmi sharʿiyyah* It is well known that nobody can understand any legal system without implementing and practicing it That also holds for Islamic law because theory alone does not yield a complete understanding of Sharʿah rules iii We have worked hard to correct some misconceptions and misunderstandings about Islamic law That is why we appeal to the primary sources For example some scholars claim that the *anaf* jurist Imām Sarāḥ did not accept the idea of punishment for apostasy We have studied his work *al Mabṣūṭ* and found this claim to be unfounded The comparison between *tamr* and *fief* is another example because the *tamr* system is different from the *fief* system Some scholars confuse the concept of sovereignty and governance The Islamic state is not a theocratic state in the sense in which Europeans understand the term

supersensitive world hyperuranion books six and seven describe the theory of knowledge the eighth and ninth books talk about the state and the family and the last book examines the idea of the immortality of the soul with the Myth of Er The central theme of the book is justice argued with the help of several Platonic theories including the allegorical myth of the cave the doctrine of ideas dialectics the theory of the soul and the project of an ideal city A book of moral philosophy in which the real questions are how to live best and what is the best order or organization of human society The Republic is considered by many academics to be the greatest philosophical text ever written being the most studied book in top universities      **Cobbett's Parliamentary Debates** Great Britain. *Hansard's Parliamentary Debates* Great Britain. Parliament,1838      **The Concept of Justice and Equality** Eliane Saadé,2015-09-25 Unless considered on a practical level where a precise distribution of social goods is chosen John Rawls s and Gerald Cohen s approaches to social justice cannot be complementary Their disagreement about justice and its principles calls for a choice which opts either for the Rawlsian theory or for the Cohenian one What is the more plausible approach to social justice This work compares both approaches and aims to defend Cohen s position in the light of two considerations It answers the philosophical question about the analysis of the idea of justice which puts the virtue of justice in its philosophical context It however presents a method everyone can apply in order to arrive at the fundamental principles of justice by employing the power of reason An analysis of the concept of justice based on the power of reason should seek to uncover the ultimate nature of justice which is independent of facts and of other virtues Once exposed the understanding of justice arrived at should inform social institutions and determine people s daily decisions A just society is therefore a society where just persons and just institutions exhibit the virtue of justice      **Agape and Hesed-Ahava** David L.

Goicoechea,2015-02-19 Goicoechea presents his third volume in a series on agape In this book he shows in four ways how the agape of Jesus fulfills the ahava and hesed of the Hebrew Bible First he shows existentially how he learned and lived this for six years in a Benedictine Minor Seminary and then for three years in a Sulpician Major Seminary Second he demonstrates how ahava or our love for God and neighbor and hesed or God s love for us develop through the Hebrew Bible Goicoechea

argues that St Matthew's Gospel explains the fulfilment of *ahava* and *hesed* with Jesus' *agape*. He concludes by drawing attention to how Levinas and Derrida, two Jewish postmodern philosophers, treat Jewish and Christian love. *The Logic of Incarnation* Neal DeRoos, Brian Lightbody, 2009-01-01 With his *Logic of Incarnation* James K. A. Smith has provided a compelling critique of the universalizing tendencies in some strands of postmodern philosophy of religion. A truly postmodern account of religion must take seriously the preference for particularity first evidenced in the Christian account of the incarnation of God. Moving beyond the urge to universalize which characterizes modern thought, Smith argues that it is only by taking seriously particular differences, historical, religious and doctrinal, that we can be authentically religious and authentically postmodern. Smith remains hugely influential in both academic discourse and church movements. This book is the first organized attempt to bring both of these aspects of Smith's work into conversation with each other and with him. With articles from an internationally respected group of philosophers, theologians, pastors and laypeople, the entire range of Smith's considerable influence is represented here. Discussing questions of embodiment, eschatology, inter-religious dialogue, dogma and difference, this book opens all the most relevant issues in postmodern religious life to a unique and penetrating critique. *An Introduction to Said Nursi* Ian S. Markham, Suendam Birinci Pirim, 2016-04-15 Contemporary Islamic thinkers are often studied sociologically rather than as theologians. There are many accessible introductions to Christian theologians but very few such studies of Islamic thinkers. This book and this series seek to change this situation, offering new introductions to influential Islamic thinkers and engaging at the level of ideas with the rich depths of contemporary Islamic theology. This book introduces to the English-speaking world the leading modern Islamic thinker Said Nursi (1878-1960) who has some nine million followers in modern-day Turkey and around the world. After an opening chapter that provides an overview of his life, the next four chapters outline the theology of Nursi on God, the Qur'an, the West and Politics. The final section provides an invaluable resource of readings from Nursi's most important writings. Providing an introduction to a major form of Islam which is committed to non-violence, dialogue and constructive relationships with the West, this is the first student textbook to introduce a contemporary Islamic theologian in a systematic way. *Rescuing Justice and Equality* G. A. Cohen, 2009-07-01 In this work of political philosophy Cohen sets out to rescue the egalitarian thesis that in a society where distributive justice prevails, people's material prospects are roughly equal. Arguing against the Rawlsian version of a just society, Cohen demonstrates that distributive justice does not tolerate deep inequality. *Justice and Remembrance* Reza Shah-Kazemi, 2006-06-28 Abi Talib, son-in-law and cousin of the Prophet Muhammad, first Shi'i imam and fourth caliph, is a monumental figure within the Islamic tradition. But despite the immense importance of Ali, there is a dearth of literature in Western languages about his life and thought. This book, the first serious engagement in English with the intellectual principles underpinning his teachings, is therefore a welcome and valuable addition to the sources available. It consists of three parts. Part one introduces the person of Ali in a general manner and focuses particularly on the spiritual and ethical

content of his teachings Part two evaluates Ali's sacred conception of justice Part three addresses the theme of spiritual realization through the remembrance of God the central mystical practice of the Sufis Justice and Remembrance will be of great value to students and scholars of Islamic thought as well as to those interested in the relationship between spirituality and ethics
