Puritan Temper and Transcendental Faith: Carlyle's Literary Vision A. Abbott Ikeler, 1972 **A Disimprisoned Epic**
Mark Cumming, 2018-01-09 Thomas Carlyle's history of the French Revolution captured the Victorian imagination with vivid pictures of a society in conflict. A rich, brilliant and arresting book, it defined a crucial epoch in modern European history for generations of British readers. Nevertheless, the French Revolution has lost not only its general readership but also its academic audience for it is not history as history is commonly practiced and it is not literature as literature is commonly understood. Only in the past few decades has this difficult yet rewarding text moved back to the central position it deserves. In *A Disimprisoned Epic*, Mark Cumming elucidates the formal genesis of the French Revolution in Carlyle's literary criticism and reestablishes it as an epic experiment in literary form. He discusses specifically how the French Revolution combines the myths of epic with the facts of history, the nobility of tragedy with the grotesque absurdity of farce, the devotion of elegy with the dismissive rancor of satire and the didactic clarity of emblem and allegory with the confusion of symbol, fragment and phantasmagory. *A Disimprisoned Epic* will be useful to scholars and students of Carlyle and of Victorian British and American literature.

Carlyle and Jean Paul: Their Spiritual Optics J.P. Vijn, 1982-01-01 It has always been thought difficult if not impossible to define what the philosophy of Carlyle was. Ever since the publication of Sartor Resartus in 1833-1834, the view that Carlyle had a theistic conception of the universe has been defended as well as opposed. At a time therefore when Carlyle's work as a whole is being reappraised, his philosophy should first and foremost be dealt with. Carlyle's life philosophy is based on the inner experience of a process of conversion which set in with an incident that occurred to him at Leith Walk, Edinburgh. This study, which settles the old question of the date of the incident, demonstrates that the inner struggle, the dynamics of which are described most fully in Sartor, is analogous to the Jungian process of individuation. For the first time in critical literature, the basic ideas of Carlyle's philosophy are thus linked to depth psychology and shown to be analogous to the fundamental concepts of Analytical Psychology. In recent criticism, it has been asserted that the crisis recorded in Sartor is akin to the crisis of doubt said to underlie Jean Paul's *Rede des todten Christus* 1796, which is probably the first poetic expression of nihilism in European literature and has become a classic. Apart from demonstrating that in the last fifty years at least the *Rede* has erroneously been interpreted as a dream of annihilation, this book invalidates the view of Jean Paul as victim of the skepticism of his age and argues that, contrary to what is usually maintained, the *Rede* is not the document of a crisis but of a belief which had become antiquated and obsolete for Carlyle.

The True and Only Heaven: Progress and Its Critics Christopher Lasch, 1991-09-17 Traces the anti-progressive populist tradition of democracy in nineteenth and early twentieth-century movements by artisans and farmers as well as in major thinkers.

The Carlyle Encyclopedia Mark Cumming, 2004 The Carlyle Encyclopedia focuses primarily on Thomas Carlyle. It reflects the range of his interests and resists stereotyped impressions of who he was and what he believed. It covers Carlyle's entire life without privileging any particular

work or period and locates Carlyle in his time and place in the context of a rich and challenging age The Carlyle Encyclopedia also gives a balanced assessment of Jane Welsh Carlyle which avoids either belittling her or overestimating her achievement It avoids the reductive and contradictory stereotypes of her which were offered by early biographers of Thomas Carlyle and offers instead a study of her varied friendships and her trenchant observations on contemporary life The Carlyle Encyclopedia will interest a variety of readers who concern themselves with literature social history the history of ideas Victorian culture and Scottish studies

BOOK JACKET Thomas Carlyle and the Idea of Influence Megan Dent, Paul E. Kerry, Albert D. The French Revolution Thomas Carlyle, 2019-01-24 It is I think the most radical Book that has been written in these late centuries and will give pleasure and displeasure one may expect to almost all classes of persons Carlyle Thomas Carlyle s history of the French Revolution opens with the death of Louis XV in 1774 and ends with Napoleon suppressing the insurrection of the 13th Vend maire Both in Its form and content the work was intended as a revolt against history writing

itself with Carlyle exploding the eighteenth century conventions of dignified gentlemanly discourse Immersing himself in his French sources with unprecedented imaginative and intellectual engagement he recreates the upheaval in a language that evokes the chaotic atmosphere of the events In the French Revolution Carlyle achieves the most vivid historical reconstruction of the crisis of his or any other age This new edition offers an authoritative text a comprehensive record of Carlyle's French English and German sources a select bibliography of editions related writings and critical studies chronologies of both Thomas Carlyle and the French Revolution and a new and full index In addition Carlyle's work is placed in the context of both British and European history and writing and linked to a variety of major figures including Edward Gibbon Friedrich Nietzsche George Eliot John Stuart Mill Hegel and R G Collingwood

The Prophets of Doom Neema Parvini, 2023-07-27 Linear and progressive views of history have dominated the popular imagination for the past seventy years in a worldview wedded to the inexorable rise of globalisation and GDP growth at any cost However the end of the Cold War failed to produce the end of history as hoped a fact brought home to many by Russia's invasion of Ukraine in 2022 Material wealth and Progress in the name of social justice have not made people happier or more united but quite the opposite Anxiety depression fearfulness sadness loneliness and anger have all massively increased since 1970 with the male suicide rate at an all time high Western society seems to be divided against itself across every line conceivable left versus right women versus men non whites versus whites globalists versus populists the elites versus the people people who think that men can be women and vice versa versus those who insist that they cannot and so on Seventy three percent of Americans believe their country is on the wrong track with similar views reflected in Britain and across Europe *The Prophets of Doom* explores eleven thinkers who not only dared to contradict the dominant linear and progressive view of history but also predicted many of the political and social maladies through which we are living

Class and the Canon K. Blair, M. Gorji, 2012-11-13 Examining how labouring class poets constructed themselves and were constructed by critics as part of a canon and how they situated their work in relation to contemporaries and poets from earlier periods this book highlights the complexities of labouring class poetic identities in the period from Burns to mid late century Victorian dialect poets

A Place Somewhat Apart Philip E. Harrold, 2006-10-01 The story of secularization and religious disestablishment in American higher education is told from the standpoint of a lively community of professors students and administrators at the University of Michigan in the late nineteenth century This campus culture one of the most closely watched of its day sheds new light on

the personal and cultural meanings of these momentous changes in American intellectual and public life Here we see how religion was not so much displaced or marginalized in the heyday of university reform as translated into new arenas of public service and scholarly pursuit The main characters in this story professors Calvin Thomas and Henry Carter Adams underwent profound religious crises of faith accompanied by major adjustments in their interpersonal relationships Together with students and administrators their lives constituted a communal biography of religious deconversion A close examination of these private and public worlds provides a more complete understanding of the dynamics behind new academic policies and intellectual innovations in a leading public university The non cognitive intersubjective gendered quasi religious shadings of academic modernism and early pragmatist philosophy in particular come to light in vivid ways As John Dewey later observed Michigan became an experimental laboratory for new meanings to unfold new acts to propose

Spiritual Selfhood and the Modern Idea David Donovan, 2004-07-06 Thomas Carlyle 1795 1881 and T S Eliot 1888 1965 were icons of their age literary giants who dominated the British cultural landscape of the nineteenth and twentieth centuries Yet both were cosmopolitan outsiders who lived in London as expatriates but remained products of their biographical histories Carlyle as the working class Scotsman and Eliot the transplanted New England patrician Carlyle quickly earned himself a reputation as the Chelsea Sage of the Victorian Era the cultural prophet whose creative and critical works informal salon gatherings and oracular personality generated an unprecedented following among both the intellectuals and masses His opinion and company were sought out by almost every major luminary of his century including John Stuart Mill Charles Dickens and Ralph Waldo Emerson And his social and political insights like his aesthetic and philosophical views touched on wide ranging subjects from Romantic poetry and German history to parliamentary reform and slavery abolition Similarly T S Eliot's reputation as a writer and social observer enjoyed mythic status as he became the preeminent twentieth century critic of the English speaking world In his verse masterpiece The Waste Land spiritual drama Murder in the Cathedral Christian social initiatives with Moot and editorial leadership at The Criterion Eliot conversed with the principal figures and movements of his time from Charles Maurras and the struggles against communism to G K Chesterton and disputes over Anglican reform Ultimately however both men may be seen as moderns whose sensitivities inclined them to encounter the monumental historical changes of their day with a unique historical perspective and an informed cultural conservatism Democratization industrialization urbanization and population growth were signs of changing times signs demanding a new vision and mode of expression to integrate and process rapidly transforming realities And Carlyle and Eliot address these by establishing a spiritual response to modernity's loss of faith in transcendent authority Their conceptions of self society and God are communicated in other words through a literary form that engages the conditions of modernity through the language categories and symbols of the Western humanistic and Christian traditions And because their cultural and theoretical judgments fall on that historical continuum between the pre modern and postmodern their lives and works are particularly

relevant as case studies that can tell us much about the historical progression of European intellectual and cultural history into the twenty first century

Sacred Estrangement Peter A. Dorsey, 1993-07-12 Sacred Estrangement analyzes certain works by important American writers and thinkers in the context of the rhetoric of conversion Such analysis is especially valuable because it provides a reliable index of the relationship between the self and larger communities Traditionally conversion has served a socializing function signifying that one has come into alignment with certain linguistic behavioral and cultural expectations The socialization process is particularly apparent in the Christian conversion narratives of the seventeenth through nineteenth centuries by publicly testifying to a conversion experience believers became empowered members not only of God s elect community but also of a local population As modern autobiography developed in the eighteenth and nineteenth centuries the Christian pattern was secularized and individualized Conversion became a model for many kinds of psychological change With the coming of the twentieth century however the authors upon whom Peter Dorsey focuses including William and Henry James Henry Adams Edith Wharton Ellen Glasgow Zora Neale Hurston and Richard Wright radically revised conversion rhetoric If conversion had traditionally linked the search for illumination with the search for a defined social role these writers increasingly used conversion as an index of estrangement from mainstream America Dorsey documents this profound change in the way American intellectuals defined the self not in terms of personal orientation toward or away from a given community but as a resistance to such an orientation altogether as if social forces by their nature were a threat to personal identity
