Purity Of Blood:

Race and Blood in the Iberian World María Elena Martínez, Max-Sebastián Hering Torres, David Nirenberg, 2012 Racism Analysis is a research series by LIT Verlag that explores racial discrimination in all its varying historical ideological and cultural patterns It examines the invention of race as well as the dimensions of modern racism and it inquires into racism avant la lettre *Race and Blood in the Iberian World* is the third volume in the Race Analysis series This collection offers an historical approach to the topics of race and blood in the Spanish Atlantic world with extended comparative glances toward other Iberian imperial contexts Portuguese India and periods the modern The contributions include a proposition to analyze processes of racialization in plural before the modern period the question of whether it is analytically appropriate to apply the concept of race to early modern Spanish and Spanish American contexts the intricate dynamics of race and blood in Iberian discourses of otherness an analysis of the discourse of limpieza de sangre in relation to Spain's Muslims and moriscos in New Granada the meanings of the Spanish notions of race and its relationships with gender in colonial Mexico the meaning of casta raza and limpieza de sangre in Goa the place of Gypsies indigenous people and blacks within discourses of citizenship and nativeness a discussion about how to transform colonial subjects into citizens an exploration of the works of two scientists of the inter war period whose research in different ways contributed to what is called blood science Series Racism Analysis Series B Yearbooks Vol 3 Blood and Kinship Christopher H. Johnson, Bernhard Jussen, David Warren Sabean, Simon Teuscher, 2013-01-01 The word blood awakens ancient ideas but we know little about its historical representation in Western cultures Anthropologists have customarily studied how societies think about the bodily substances that unite them and the contributors to this volume develop those questions in new directions Taking a radically historical perspective that complements traditional cultural analyses they demonstrate how blood and kinship have constantly been reconfigured in European culture This volume challenges the idea that blood can be understood as a stable entity and shows how concepts of blood and kinship moved in both parallel and divergent directions over the course of European history
