and reappropriated by the state apparatus War turns out to be a central instrument not just for making possible this logic of appropriation but also for bringing temporal notions such as modernization and progress to spaces that were described albeit problematically as being outside of history The book argues that wars waged against deserts as Patagonia the sert o Paraguay and the Uruguayan countryside were described and imagined were in fact means of generating empty spaces real voids that were the condition for new foundations The study of travel writing is an essential tool for understanding the transformations of space brought by war and for analyzing in detail the forms and connotations of movement in connection to violence Uriarte pays particular attention to the effects that witnessing war had on the traveler s identity and on the relation that is established with the oikos or point of departure of their own voyage Written at the intersection of literary analysis critical geography political science and history this book will be of interest to those studying Latin American literature Travel Writing and neocolonialism and Empire writing

Gauchos and Foreigners Ariana Huberman,2010-12-29 In *Gauchos and Foreigners* Glossing Culture and Identity in the Argentine Countryside Ariana Huberman discusses the relationship between the gaucho figure and the foreigner in Argentine rural literature The narratives of William Henry Hudson Benito Lynch and Alberto Gerchunoff present English scientists and travelers as well as Jewish and Italian immigrants in direct contact with the gaucho in the Argentine and Uruguayan countryside The book shows how the intent to define and translate terms from the national glossary the gaucho his lifestyle and habitat and from foreign cultures ultimately questions these terms capacity to represent a specific culture It traces a series of writing practices that challenge the concepts of native and foreign as stable categories of representation by conveying identity and culture across multiple linguistic social and cultural registers The reading of these unique practices of translation hopes to offer a fresh approach to the multicultural scope of Argentine literature
