*At the Threshold of Liquid Geology* Eric W. Bragg, 2002-09-15 This modern collection of surrealist prose poems was inspired by the improvisational method of automatic writing popularized by the International Surrealist Movement From one brain to another without any literary rules or standards the words in these automatic writings are not just words but rays of subconscious illumination that peel away the various layers of the civilized western psyche one by one Full of bizarre transformations and dark irrationally motivated patterns of erotic thought these writings will seduce the reader into nothing less than a sublime overload and transgressive derangement of the senses While a must read for the poetically daring and the adventurous this book is not recommended for those who seek peaceful numbness and safety **Notice to Mariners** ,
