Purpose Directed Theology Getting Our Priorities Right In Evangelical Conversations:

Dethroning Jesus Darrell L. Bock, Daniel B. Wallace, 2010-05-17 New York Times bestselling author Dr Darrell Bock teams up with Dr Daniel Wallace to help you separate fact from fiction among constant attacks on Christianity from popular culture and bogus scholars There is a quest going on to reduce Jesus to a mythic legend or to nothing more than a mere man Scholars such as Elaine Pagels and James Tabor are using recent discoveries like the Gospel of Judas and the Gospel of Thomas to argue that the Christ of Christianity is a contrived figure and that a different Christ one human and not divine is the true Christ Both research professors Bock and Wallace set out a vigorous defense of Christianity against a popular trend that they dub Jesusanity where Christ was simply a human teacher In their trademark easy to understand style the authors take on attempts to redefine Jesus in a convincing way that will help you understand that the orthodox understanding of Christ and his divinity is as trustworthy and sure as it ever was This book Refutes the six main claims that represent a large part of skepticism about Jesus today Provides credible answers to attacks on the traditional texts Defends against the interpretations of bogus scholars and the arguments of biased scholars Constructs a positive case for the Jesus of faith If you re exhausted by the constant attempts to dethrone Jesus renew the security of your knowledge of who Jesus really is the Son of God *Engaging Deconstructive Theology* Ronald T. Michener, 2016-04-29 Engaging Deconstructive Theology presents an evangelical approach for theological conversation with postmodern thinkers Themes are considered from Derrida Foucault Mark C Taylor Rorty and Cupitt developing dialogue from an open minded evangelical perspective Ron Michener draws upon insights from radical postmodern thought and seeks to advance an apologetic approach to the Christian faith that acknowledges a mosaic of human sources including experience literature and the imagination Purpose-Directed Theology Darrell L. Bock, 2009-09-20 When the stakes are high evangelicals don t often engage each other well How should evangelicals grapple with controversial issues What methods and principles should direct theological conversations especially when evangelicals from various backgrounds come together These are the questions Darrell Bock addresses in this important and thoughtful book Setting his discussion somewhere between modernism and postmodernism Bock proposes a way through the philosophical maze He addresses the concern for theological boundaries but also emphasizes the need to take into account the differing purposes for evangelical denominational and interdenominational institutions especially scholarly organizations such as the Evangelical Theological Society Most important Bock recalls the church s scholars to their mandate for cultural engagement He warns against diverting our efforts by putting too much energy into intramural controversies and identifies areas of potential cultural impact now opening up to evangelical scholarship Written by a concerned informed and visionary leader this is a book for all those concerned about evangelical theology scholarship and the church with its missional mandate **The Book Review Digest** ,2003 **American Book Publishing Record** ,2004 **Forthcoming Books** Rose Army, 2003-04 **The Deconstructed Church** Gerardo Marti, Gladys Ganiel, 2014 The Emerging Church

Lindbeck,1996-01-01 Voted one of Christianity Today s 1997 Books of the Year Ours is an age of profound cultural change in which new categories and alliances are bound to arise In theology the liberal strategy has lost support having degenerated into mere anthropology and succumbed to the political agendas of its proponents And while the evangelical movement appears to be gaining ground it is simultaneously suffering an acute identity crisis Currently the postliberal or Yale school movement has found a strong resonance in some mainline denominational circles Its emphasis on the biblical text and Jesus Christ through which all other reality needs to be construed may turn out to be the most significant theological realignment in more than a century Are we witnessing a paradigm shift Can evangelicals and postliberals make common confession Might they even combine forces to reinvigorate the church its theology and its mission for a new era In this groundbreaking book creative evangelical and postliberal thinkers explore exactly how they agree and disagree along a range of issues from epistemology and theological method to doctrinal concerns Evangelical contributors include such significant theologians as Alister McGrath and Gabriel Fackre Postliberal contributors include George Lindbeck a founding father of postliberalism and George Hunsinger the former student and major interpreter of the late Hans Frei another founder of postliberalism In *The Nature of Confession* we are presented with the beginnings of a robust discussion of real importance to both the academy and the church *National Commission on Health Science and Society* United States. The Spirit's Tether Mary Ellen Konieczny, 2013-07-01 Cultural conflicts about the family including those surrounding women s social roles abortion same sex marriage and contraception have intensified over the last few decades among Catholics as well as among Americans generally In fact they are the source of much of the political polarization we see But how do individuals in local settings and cultures especially religious ones experience and participate in these conflicts Why are they so resonant By exploring how religion and family life are intertwined in local parish settings Mary Ellen Konieczny seeks to explain how and why Catholics are divided about the family The Spirit s Tether presents a detailed comparative ethnographic analysis of the families and local religious cultures in two Catholic parishes one conservative and one progressive Through an examination of the activities of parish life and the faith stories of parishioners this book reveals how parishes support and shape the ways in which Catholics work out the routines of marriage childrearing and work family balance as well as how they connect these everyday challenges to public politics Local parishes Konieczny argues promote polarization through practices that unintentionally fragment the Catholic tradition **Bridge Or Barrier** Gerrie Ter

Brint, Jean Reith Schroedel, Steven Brint, 2009-08-13 Separation of church and state is a bedrock principal of American democracy and so too is active citizen engagement Since evangelicals comprise one of the largest and most vocal voting blocs in the United States tensions and questions naturally arise In the two volume Evangelicals and Democracy in America editors Steven Brint and Jean Reith Schroedel have assembled an authoritative collection of studies of the evangelical movement in America Religion and Politics the second volume of the set focuses on the role of religious conservatives in party politics the rhetoric evangelicals use to mobilize politically and what the history of the evangelical movement reveals about where it may be going Part I of Religion and Politics explores the role of evangelicals in electoral politics Contributor Pippa Norris looks at evangelicals around the globe and finds that religiosity is a strong predictor of ideological leanings in industrialized countries But the United States remains one of only a handful of post industrial societies where religion plays a significant role in partisan politics Other chapters look at voting trends especially the growing number of higher income evangelicals among Republican ranks how voting is influenced both by values and race and the management of the symbols and networks behind the electoral system of moral values politics Part II of the volume focuses on the mobilizing rhetoric of the Christian Right Nathaniel Klemp and Stephen Macedo show how the rhetorical strategies of the Christian Right create powerful mobilizing narratives but frequently fail to build broad enough coalitions to prevail in the pluralistic marketplace of ideas Part III analyzes the cycles and evolution of the Christian Right Kimberly Conger looks at the specific circumstances that have allowed evangelicals to become dominant in some Republican state party committees but not in others D Michael Lindsay examines the elastic

orthodoxy that has allowed evangelicals to evolve into a formidable social and political force The final chapter by Clyde Wilcox presents a new framework for understanding the relationship between the Christian Right and the GOP based on the ecological metaphor of co evolution With its companion volume on religion and society this second volume of Evangelicals and Democracy in America offers the most complete examination yet of the social circumstances and political influence of the millions of Americans who are white evangelical Protestants Understanding their history and prospects for the future is essential to forming a comprehensive picture of America today

Why the Right Went Wrong E.J. Dionne, 2016-01-19 From the author of *Why Americans Hate Politics* the New York Times bestselling and notably fair minded The New York Times Book Review story of the GOP's fracturing from the 1964 Goldwater takeover to the Trump spectacle *Why the Right Went Wrong* offers an up to the moment The Christian Science Monitor historical view of the right since the 1960s Its core contention is that American conservatism and the Republican Party took a wrong turn when they adopted Barry Goldwater's worldview during and after the 1964 campaign The radicalism of today's conservatism is not the product of the Tea Party Washington Post columnist E J Dionne writes The Tea Partiers are the true heirs to Goldwater ideology The purity movement did more than drive moderates out of the Republican Party it beat back alternative definitions of conservatism Since 1968 no conservative administration not Nixon not Reagan not two Bushes could live up to the rhetoric rooted in the Goldwater movement that began to reshape American politics fifty years ago The collapse of the Nixon presidency led to the rise of Ronald Reagan the defeat of George H W Bush to Newt Gingrich's revolution Bush initially undertook a partial modernization preaching compassionate conservatism and a Fourth Way to Clinton's Third Way Conservatives quickly defined him as an advocate of big government and not conservative enough on spending immigration education and Medicare A return to the true faith was the only prescription on order The result was the Tea Party which Dionne says was as much a reaction to Bush as to Obama The state of the Republican party controlled by the strictest base is diminished Dionne writes It has become white and older in a country that is no longer that It needs to come back to life for its own health and that of the country's and in *Why the Right Went Wrong* Dionne expertly delineates where we are and how we got there Chicago Tribune and how to return
