**Postmodern Picturebooks** Lawrence R. Sipe, Sylvia Pantaleo, 2010-04-26 Over the past 15 years there has been a pronounced trend toward a particular type of picturebook that many would label postmodern Postmodern picturebooks have stretched our conventional notion of what constitutes a picturebook as well as what it means to be an engaged reader of these texts The international researchers and scholars included in this compelling collection of work critically examine and discuss postmodern picturebooks and reflect upon their unique contributions to both the field of children's literature and to the development of new literacies for child adolescent and adult readers Postmodernism is Not What You Think Charles C. Lemert, 2015-12-03 Charles Lemert is one of the most thoughtful and interesting of sociology's postmodernists He recurrently finds new angles of vision and is especially helpful for overcoming the pernicious opposition of micro and macro perspectives Craig Calhoun New York University on the first edition Highly readable the second edition of Postmodernism Is Not What You Think responds to the widespread claim that postmodernism is over It explains the historical connections between the postmodern and globalization Those who wish to kill the term postmodernism still must face the facts that the former nationalistic world system has collapsed and is slowly being replaced by a more global set of structures The book is completely revised and updated with an entirely new section on globalization The media and popular culture identity politics the science wars politics and cultural studies structuralism and poststructuralism and the new sociologies are also put in perspective as signs of the new social formations dawning at the end of the modern age Lemert shows that the postmodern is less a theory than a condition of social life brought about by the trouble modernity has gotten itself into **Postmodernism and Video Art** Liz Kim, 2025-08-22 Liz Kim traces the theories and artistic practices that articulated American experimental video through its key works and events art critical discourse as well as the politics of its funding and distribution during the 1970s into the 1980s focusing on New York This is a historical examination of the relationship between experimental video and postmodernism in the context of the early New York video scene as a foundational crucible of ideas and practices Video grew out of both the acculturation of television as well as the resistance against its hegemonic forms as it enabled hybrid user generated content As such video became a testing ground for postmodern thought as it sat at the perfect nexus of mass media art and the politics of representation This book historicizes the theories of video art through the shifts in representations of cultural identities and the changes within its critical and structural supports Through this process chapters uncover new roots of postmodernism through historical evidence widening the scope of the term and its concepts The book will be of interest to scholars working in art history film studies and media studies **Postmodern Music, Postmodern Listening** Jonathan D. Kramer, 2016-08-11 Kramer was one of the most visionary musical thinkers of the second half of the 20th century In his The Time of Music he approached the idea of the many different ways that time itself is articulated musically This book has become influential among composers theorists and aestheticians Now in his almost

completed text written before his untimely death in 2004 he examines the concept of postmodernism in music Kramer created a series of markers by which we can identify postmodern works He suggests that the postmodern project actually creates a radically different relationship between the composer and listener Written with wit precision and at times playfully subverting traditional tropes to make a very serious point about this difference Postmodern Music Postmodern Listening leads us to a strongly grounded intellectual basis for stylistic description and an intuitive sensibility of what postmodernism in music entails Postmodern Music Postmodern Listening is an examination of how musical postmodernism is not just a style or movement but a fundamental shift in the relationship between composer and listener The result is a multifaceted and provocative look at a critical turning point in music history one whose implications we are only just beginning to understand

Liturgy, Theurgy, and Active Participation Kjetil Kringlebotten, 2023-09-08 Providing a metaphysical grounding for liturgical participation this book argues that active participation in the liturgy must be understood principally as our participation in God's act particularly in the act of Christ and only secondarily as our ritual involvement Utilizing Neoplatonist philosophy Kjetil Kringlebotten proposes that this should be understood in terms of theurgy which is the human participation in divine action which finds its consummation in the incarnation of Christ Without the incarnation all acts will remain extrinsic and imposed but acts can become real and intrinsic precisely because the incarnation makes possible true union with the divine a metaphysical union in distinction without confusion because this union is not extrinsic Through union with Christ as the one common focus of the divine human relation we can have true union with God and may offer true worship In order to make sense of active participation then we need to understand theology in theurgic terms where theurgy is understood not as a mechanical coercion of God but as a participation in His act in creation and through Christ as the true theurgist the master theurgist Whose work transforms our act and the liturgy

**Women's Writing in Colombia** Cherilyn Elston, 2016-12-20 Winner of the Montserrat Ord ez Prize 2018 This book provides an original and exciting analysis of Colombian women's writing and its relationship to feminist history from the 1970s to the present In a period in which questions surrounding women and gender are often sidelined in the academic arena it argues that feminism has been an important and intrinsic part of contemporary Colombian history Focusing on understudied literary and non literary texts written by Colombian women it traces the particularities of Colombian feminism showing how it has been closely entwined with left wing politics and the country's history of violence This book therefore rethinks the place of feminism in Latin American history and its relationship to feminisms elsewhere challenging many of the predominant critical paradigms used to understand Latin American literature and culture

**The Postmodern World** Millard J. Erickson,2002-02-28 In both subtle and distinct ways postmodernism has permeated American life becoming a part of our schools our TV shows our churches our conversations

and even our own thinking How often have we said or heard Do what you want but don't push your values on me or You live your life and I'll live mine Its sheer pervasiveness demands that we ask Is there anything wrong with postmodernism or with the tolerance pluralism individualism and casualness that it promotes With compelling illustrations from current events and everyday life as well as his customary sound analysis Millard Erickson equips discerning evangelical Christians not only to understand and recognize the phenomenon of postmodernism but to deal with its effects in a relevant biblically minded way As he unearths its evolution he forcefully reveals postmodernism's inherent problems and its incoherence with the teachings of God's Word He also unveils the greatest areas of concern for Christians and gives people the tools they need to respond more wisely believe more certainly and discern more soundly in this confusing age

**Postmodernism And Society** Roy Boyne, Ali Rattansi, 2017-03-01 Neither a manifesto nor a one-sided critique this new book introduces a number of original essays exploring various aspects of that contemporary cultural phenomenon named postmodernism These essays are prefaced by an introductory essay which sets out the major lines of a debate which is about nothing less than the current shape and future prospects of our society

Pragmatism, Technology, and the Persistence of the Postmodern Andrew Wells Garnar, 2020-07-15 Is postmodernity over Does postmodernism still have anything important to say Pragmatism Technology and the Persistence of the Postmodern argues yes to both Despite the claims of a number of scholars that postmodern is over and done with Andrew Wells Garnar demonstrates its continued relevance by carefully examining the use of information and communication technologies These technologies illustrate many important postmodern concepts thus showing the continued significance of postmodern philosophy Garnar reconstructs these concepts with the tools of classical pragmatism By engaging with pragmatists as well as with the thought of Jean-François Lyotard Albert Borgmann and others this book produces a revitalized vision of both pragmatism and the postmodern This version of pragmatism reflects the tenor of the times in a more nuanced way while also showing how the postmodern continues to play out in contemporary life Pragmatism Technology and the Persistence of the Postmodern shows how a pragmatic conception of technology opens up possibilities for working within postmodernity to materially address social and technical problems

Guest edited by Owen Hopkins and Erin McKellar Our current moment is one of profound political and economic change Historically these moments of transition have seen a parallel period of cultural and notably architectural flux In the late 1970s this was manifested in Postmodernism Today a number of architects are looking again at this movement and redeploying a range of its tactics and approaches using contemporary methods and techniques These include different modes of collage formal reference and quotation stylistic eclecticism symbolism in form material and ornament and the bold expressive use of colour both natural and synthetic While the design that results from these multiform tactics and approaches has been seen as a kind of neo Postmodernism this issue argues that this is a simplistic and superficial reading Instead it posits this phenomenon as the architectural attempt both conscious and unconscious to reflect grapple with and make sense of the current political and economic transition and the backdrop of the climate emergency Rather than responding to this situation by attempting to marshal architecture around a single unifying narrative this issue makes the case for the transformative possibilities offered by an approach that is ad hoc eclectic and pluralist Contributors Mat Barnes Jennifer Bonner Graham Burn James Crawford and Alexander Turner Mario Carpo David Knight and Cristina Monteiro David Kohn Stephen Parnell Lera Samovich Geoff Shearcroft Dirk Somers Catrina Stewart and Hugh McEwen L a Catherine Szacka and Amin Taha Featured architects AOC Architecture Bovenbouw Architectuur CAN Groupwork David Kohn Architects DK
