Critical Zone 2 Q.S. Tong,Shouren Wang,Douglas Kerr,2007-02-01 Despite globalizing forces whether economic political or cultural there remain conspicuous differences that divide scholarly communities How should we understand and respond to those discursive gaps among different traditions and systems of knowledge production *Critical Zone* is a book series in cultural and literary studies that is concerned with current critical debates and intellectual preoccupations in the humanities The series aims to improve understanding across cultures traditions discourses and disciplines and to produce international critical knowledge *Critical Zone* is an expression of timely collaboration among scholars from Hong Kong mainland China the United States and Europe and conceived as an intellectual bridge between China and the rest of the world The second volume of *Critical Zone* as does its predecessor consists of two parts The first part includes original essays that deal with the concept and practice of empire as a collective response to the question of how imperial formations and operations in the past and at present should be examined in a larger context of international politics and how historical imperialism may be considered in relation to the conditions of our time Part II includes two sets of translations of essays first published in Chinese about two recent debates in China one on the canonicity of Lu Xun and the other on the problem of how to reform Peking University in the context of globalization These two groups

of translations are led by review essays that contextualize the debates **The East Is Black** Robeson Taj Frazier, 2015-02-15 During the Cold War several prominent African American radical activist intellectuals including W E B and Shirley Graham Du Bois journalist William Worthy Marxist feminist Vicki Garvin and freedom fighters Mabel and Robert Williams traveled and lived in China There they used a variety of media to express their solidarity with Chinese communism and to redefine the relationship between Asian struggles against imperialism and black American movements against social racial and economic injustice In *The East Is Black* Taj Frazier examines the ways in which these figures and the Chinese government embraced the idea of shared struggle against U S policies at home and abroad He analyzes their diverse cultural output newsletters print journalism radio broadcasts political cartoons lectures and documentaries to document how they imagined communist China's role within a broader vision of a worldwide anticapitalist coalition against racism and imperialism *Black Power in the Bluff City* Shirletta Kinchen, 2024-01-12 During the civil rights era Memphis gained a reputation for having one of the South's strongest NAACP branches But that organization led by the city's black elite was hardly the only driving force in the local struggle against racial injustice In the late sixties Black Power proponents advocating economic political and cultural self determination effectively mobilized Memphis's African American youth using an array of moderate and radical approaches to protest and change conditions on their campuses and in the community While Black Power activism on the coasts and in the Midwest has attracted considerable scholarly attention much less has been written about the movement's impact outside these hotbeds In *Black Power in the Bluff City* Shirletta J Kinchen helps redress that imbalance by examining how young Memphis activists like Coby Smith and Charles Cabbage dissatisfied by the pace of progress in a city emerging from the Jim Crow era embraced Black Power ideology to confront such challenges as gross disparities in housing education and employment as well as police brutality and harassment Two closely related Black Power organizations the Black Organizing Project and the Invaders became central to the local black youth movement in the late 1960s Kinchen traces these groups' participation in the 1968 sanitation workers strike including the controversy over whether their activities precipitated events that culminated in Martin Luther King's assassination and their subsequent involvement in War on Poverty programs The book also shows how Black Power ideology drove activism at the historically black LeMoyne Owen College scene of a 1968 administration building takeover and at the predominately white Memphis State University where African American students transformed the campus by creating parallel institutions that helped strengthen black student camaraderie and consciousness in the face of marginalization Drawing on interviews with activists FBI files newspaper accounts from the period and many other sources the author persuasively shows not only how an emerging generation helped define the black freedom struggle in Memphis but also how they applied the tenets of Black Power to shape the broader community Shirletta J Kinchen is an assistant professor in the Pan African Studies Department at the University of Louisville **The Columbia Guide to America in the 1960s** David R. Farber, Beth L. Bailey, 2001 The

The Business of Black Power Laura Warren Hill,Julia Rabig,2012 Explores business development in the Black power era and the centrality of economic goals to the larger black freedom movement The Business of Black Power emphasizes the centrality of economic goals to the larger black freedom movement and explores the myriad forms of business development in the Black power era This volume charts a new course forBlack power studies and business history exploring both the business ventures that Black power fostered and the impact of Black power on the nation s business world Black activists pressed business leaders corporations and various levels of government into supporting a range of economic development ventures from Black

entrepreneurship to grassroots experiments in economic self determination to indigenous attempts to rebuild inner city markets in the wake of disinvestment They pioneered new economic and development strategies often in concert with corporate executives and public officials Yet these same actors also engaged in fierce debates over the role of business in strengthening the movement and some African Americans outright rejected capitalism or collaboration with business The ten scholars in this collection bring fresh analysis to this complex intersection of African American and business history to reveal how Black power advocates or those purporting a Black power agenda engaged business to advance their economic political and social goals They show the business of Black power taking place in the streets boardrooms journals and periodicals corporations courts and housing projects of America In short few were left untouched by the influence of this movement Laura Warren Hill is assistant professor of history at Bloomfield College Julia Rabig is a lecturer at Dartmouth College

The World Come of Age Lilian Calles Barger, 2018-07-02 On November 16 2017 Pope Francis tweeted Poverty is not an accident It has causes that must be recognized and removed for the good of so many of our brothers and sisters With this statement and others like it the first Latin American pope was associated in the minds of many with a stream of theology that swept the Western hemisphere in the 1960s and 70s the movement known as liberation theology Born of chaotic cultural crises in Latin America and the United States liberation theology was a trans American intellectual movement that sought to speak for those parts of society marginalized by modern politics and religion by virtue of race class or sex Led by such revolutionaries as the Peruvian Catholic priest Gustavo Gutierrez the African American theologian James Cone or the feminists Mary Daly and Rosemary Radford Ruether the liberation theology movement sought to bridge the gulf between the religious values of justice and equality and political pragmatism It combined theology with strands of radical politics social theory and the history and experience of subordinated groups to challenge the ideas that underwrite the hierarchical structures of an unjust society Praised by some as a radical return to early Christian ethics and decried by others as a Marxist takeover liberation theology has a wide raging cross sectional history that has previously gone undocumented In *The World Come of Age* Lilian Calles Barger offers for the first time a systematic retelling of the history of liberation theology demonstrating how a group of theologians set the stage for a torrent of new religious activism that challenged the religious and political status quo

From Here to Equality, Second Edition William A. Darity Jr., Andrea Kirsten Mullen, 2022-07-27 Racism and discrimination have choked economic opportunity for African Americans at nearly every turn At several historic moments the trajectory of racial inequality could have been altered dramatically But neither Reconstruction nor the New Deal nor the civil rights struggle led to an economically just and fair nation Today systematic inequality persists in the form of housing discrimination unequal education police brutality mass incarceration employment discrimination and massive wealth and opportunity gaps Economic data indicates that for every dollar the average white household holds in wealth the average black household possesses a mere ten cents This compelling and sharply argued book

addresses economic injustices head on and make the most comprehensive case to date for economic reparations for U S descendants of slavery Using innovative methods that link monetary values to historical wrongs William Darity Jr and A Kirsten Mullen assess the literal and figurative costs of justice denied in the 155 years since the end of the Civil War and offer a detailed roadmap for an effective reparations program including a substantial payment to each documented U S black descendant of slavery This new edition features a new foreword addressing the latest developments on the local state and federal level and considering current prospects for a comprehensive reparations program **From Head Shops to Whole Foods** Joshua C. Davis, 2017-08-08

In the 1960s and 70s a diverse range of storefronts including head shops African American bookstores feminist businesses and organic grocers brought the work of the New Left Black Power feminism environmentalism and other movements into the marketplace Through shared ownership limited growth and democratic workplaces these activist entrepreneurs offered alternatives to conventional profit driven corporate business models By the middle of the 1970s thousands of these enterprises operated across the United States but only a handful survive today Some such as Whole Foods Market have abandoned their quest for collective political change in favor of maximizing profits Vividly portraying the struggles successes and sacrifices of these unlikely entrepreneurs From Head Shops to Whole Foods writes a new history of social movements and capitalism by showing how activists embraced small businesses in a way few historians have considered The book challenges the widespread but mistaken idea that activism and political dissent are inherently antithetical to participation in the marketplace Joshua Clark Davis uncovers the historical roots of contemporary interest in ethical consumption social enterprise buying local and mission driven business while also showing how today s companies have adopted the language but not often the mission of liberation and social change **The New Black History E.**

Hinton, 2016-04-30 The New Black History anthology presents cutting edge scholarship on key issues that define African American politics life and culture especially during the Civil Rights and Black Power eras The volume includes articles by both established scholars and a rising generation of young scholars **Is It Nation Time?** Eddie S. Glaude, 2002-04-15

During the late 1960s and early 1970s the Black Power movement provided the dominant ideological framework through which many young poor and middle class blacks made sense of their lives and articulated a political vision for their futures The legacy of the movement is still very much with us today in the various strands of black nationalism that originated from it we witnessed its power in the 1995 Million Man March and we see its more ambiguous effects in the persistent antagonisms among former participants in the civil rights coalition Yet despite the importance of the Black Power movement very few in depth balanced treatments of it exist Is It Nation Time gathers new and classic essays on the Black Power movement and its legacy by renowned thinkers who deal rigorously and unsentimentally with such issues as the commodification of blackness the piety of cultural recovery and class tensions within the movement For anyone who wants to understand the roots of the complex political and cultural desires of contemporary black America this will be an essential collection Contributors Eddie S
