Radio carbon: Calibration and Prehistory

Edited by
Trevor Watkins

The technical complexities of C-14 dating can battle archaeologists.

This book attempts their rescue. It is by specialists for non-specialists.

The realisation that the production rate of C-14 in the atmosphere was not constant undermined the assumption that C-14 years could be equated with calendar years.

Correction by calibration with cross-dated tree-ring radio-carbon samples offers hope, but creates 'correction curves' of bewildering variety.

This book explains the issues clearly and simply, provides valuable comparative data, assesses the reliability of the methods, tells how to take a sample, and where to send it for dating.

Radiocarbon Calibration And Prehistory:

Radiocarbon Trevor Watkins, 1975 **The Prehistory of Texas** Timothy K. Perttula, 2012-09-24 Paleoindians first arrived in Texas more than eleven thousand years ago although relatively few sites of such early peoples have been discovered Texas has a substantial post Paleoindian record however and there are more than fifty thousand prehistoric archaeological sites identified across the state This comprehensive volume explores in detail the varied experience of native peoples who lived on this land in prehistoric times Chapters on each of the regions offer cutting edge research the culmination of years of work by dozens of the most knowledgeable experts Based on the archaeological record the discussion of the earliest inhabitants includes a reclassification of all known Paleoindian projectile point types and establishes a chronology for the various occupations The archaeological data from across the state of Texas also allow authors to trace technological changes over time the development of intensive fishing and shellfish collecting funerary customs and the belief systems they represented long term changes in settlement mobility and character landscape use and the eventual development of agricultural societies The studies bring the prehistory of Texas Indians all the way up through the Late Prehistoric period ca a d 700 1600 The extensively illustrated chapters are broadly cultural historical in nature but stay strongly focused on important current research problems Taken together they present careful and exhaustive considerations of the full archaeological and paleoenvironmental record of Texas *The Farming of Prehistoric Britain* P. J. Fowler, 1983-07-07 Emphasizing past gains in knowledge from experimental aerial and field archaeology Dr Fowler demonstrates how the application of archaeological approaches to agrarian history has made the subject central to our understanding of the prehistoric period Emphasizing past gains in knowledge from experimental aerial and field archaeology Dr Fowler demonstrates how the application of archaeological approaches to agrarian history has made the subject central to our understanding of the prehistoric period World Prehistory and Archaeology Michael Chazan, 2021-04-30 World Prehistory and Archaeology provides an integrated discussion of world prehistory and archaeological methods presenting an up to date perspective on what we know about our human prehistory and how we come to know it A cornerstone of World Prehistory and Archaeology is the discussion of prehistory as an active process of discovery Methodological issues are addressed throughout the text to engage readers Archaeological methods are introduced following which the question of how we know the past is discussed This fifth edition involves readers in the current state of archaeological research revealing how archaeologists work and interpret what they find Through the coverage of various new research author Michael Chazan shows that archaeology is truly a global discipline In this edition there is a particular emphasis on the relevance of archaeology to contemporary society and to the major issues that face us today This edition will provide students with a necessary grounding in the fundamentals of archaeology before engaging them with the work that goes into understanding world prehistory They will be given the tools to place this knowledge in the context of the modern world acknowledging the

relevance of archaeology to the concerns of today Prehistoric Britain Timothy Darvill, 2010-07-02 Britain has been inhabited by humans for over half a million years during which time there were a great many changes in lifestyles and in the surrounding landscape This book now in its second edition examines the development of human societies in Britain from earliest times to the Roman conquest of AD 43 as revealed by archaeological evidence Special attention is given to six themes which are traced through prehistory subsistence technology ritual trade society and population Prehistoric Britain begins by introducing the background to prehistoric studies in Britain presenting it in terms of the development of interest in the subject and the changes wrought by new techniques such as radiocarbon dating and new theories such as the emphasis on social archaeology The central sections trace the development of society from the hunter gatherer groups of the last Ice Age through the adoption of farming the introduction of metalworking and on to the rise of highly organized societies living on the fringes of the mighty Roman Empire in the 1st century AD Throughout emphasis is given to documenting and explaining changes within these prehistoric communities and to exploring the regional variations found in Britain In this way the wealth of evidence that can be seen in the countryside and in our museums is placed firmly in its proper context It concludes with a review of the effects of prehistoric communities on life today With over 120 illustrations this is a unique review of Britain's ancient past as revealed by modern archaeology The revisions and updates to Prehistoric Britain ensure that this will continue to be the most comprehensive and authoritative account of British prehistory for those students and interested readers studying the subject *Proceedings of the Prehistoric Society* Prehistoric Society (London, England), 2010

Athens and Attica in Prehistory: Proceedings of the International Conference, Athens, 27-31 May 2015 Nikolas Papadimitriou, James C. Wright, Sylvian Fachard, Naya Polychronakou-Sgouritsa, Eleni Andrikou, 2020-07-30 This book provides the most complete overview of the Attica region from the Neolithic to the end of the Late Bronze Age It paves the way for a new understanding of Attica in the Early Iron Age and indirectly throws new light on the origins of what will later become the polis of the Athenians **Climate and Cultural Change in Prehistoric Europe and the Near East** Peter F. Biehl, Olivier P. Nieuwenhuys, 2016-11-23 The subject of climate change could hardly be more timely In Climate and Cultural Change in Prehistoric Europe and the Near East an interdisciplinary group of contributors examine climate change through the lens of new archaeological and paleo environmental data over the course of more than 10 000 years from the Near East to Europe Key climatic and other events are contextualized with cultural changes and transitions for which the authors discuss when how and if changes in climate and environment caused people to adapt move or perish More than this publication of crucial archaeological and paleo environmental data however the volume seeks to understand the social political and economic significance of climate change as it was manifested in various ways around the Old World Contrary to perceptions of threatening global warming in our popular media and in contrast to grim images of collapse presented in some archaeological discussions of past climate change this book rejects outright societal collapse as a likely outcome Yet this does

not keep the authors from considering climate change as a potential factor in explaining culture change by adopting a critical stance with regard to the long standing practice of equating synchronicity with causality and explicitly considering alternative explanations **A Holocene Prehistoric Sequence in the Egyptian Red Sea Area** P. M. Vermeersch, 2008

Egyptian Prehistory Monographs 7 The prehistory of the Eastern Desert of Egypt is not well understood A Holocene Prehistoric Sequence in the Egyptian Red Sea Area is an important contribution to our knowledge of the Epi Palaeolithic Neolithic and Predynastic occupation of the area It presents the results of an excavation of a small rock shelter near Quseir Egypt which is one of the rare stratified sites in the Eastern Egyptian desert The stratigraphic sequence starts around 8000 B C E and continues until about 5000 B C E The archaeological material attests clear connections with the Nile Valley and the Western Desert during the wet Holocene period Topics covered in the book include the site s lithics and ceramics microwear analysis of the lithic artifacts and the woody vegetation of the Neolithic period Prehistoric Woodworking Rob

Sands, 2016-09-16 Rob Sands explores the evidence left by the use of axes on wooden beams and tools found in waterlogged archaeological sites dating over 2000 years old A toolmark can not only inform the archaeologist about the implement used but also provides evidence of building and artifact construction methods and labor patterns Examples come from the author s work at Oakbank Crannog in Scotland The volume examines the methods of recording techniques of analysis and implications of this unusual form of evidence **Prehistoric Britain** Joshua Pollard, 2008-06-23 Informed by the latest research and in

depth analysis Prehistoric Britain provides students and scholars alike with a fascinating overview of the development of human societies in Britain from the Upper Paleolithic to the end of the Iron Age Offers readers an incisive synthesis and much needed overview of current research themes Includes essays from leading scholars and professionals who address the very latest trends in current research Explores the interpretive debates surrounding major transitions in British prehistory

Radiocarbon Dating R.E. Taylor, Ofer Bar-Yosef, 2016-06-03 This volume is a major revision and expansion of Taylor s seminal book Radiocarbon Dating An Archaeological Perspective It covers the major advances and accomplishments of the 14C method in archaeology and analyzes factors that affect the accuracy and precision of 14C based age estimates In addition to reviewing the basic principles of the method it examines 14C dating anomalies and means to resolve them and considers the critical application of 14C data as a dating isotope with special emphasis on issues in Old and New World archaeology and late Quaternary paleoanthropology This volume again a benchmark for 14C dating critically reflects on the method and data that underpins in so many cases the validity of the chronologies used to understand the prehistoric archaeological record The Prehistoric Hunter-Gatherers of South-Eastern Europe Aitor Ruiz-Redondo, William

Davies, 2023-11-03 Situating the South Eastern European region at the crossroads between the Near East and the rest of Europe The Prehistoric Hunter Gatherers of South Eastern Europe provides an interdisciplinary exploration of the Balkan record of prehistoric foragers in terms of dispersal ecologies evolution and symbolism **Prehistoric Gold in Europe**

Giulio Morteani,Jeremy P. Northover,2013-06-29 Interest in the study of early European cultures is growing These cultures have left us objects made of gold other metals and ceramics The advent of metal detectors coupled with improved analytical techniques has increased the number of findings of such objects enormously Gold was used for economic and ceremonial purposes and thus the gold objects are an important key to our understanding of the social and political structures as well as the technological achievements of Bronze and Iron Age European societies A correct interpretation of the information provided by gold and other metal objects requires the cooperation of experts in the fields of social materials and natural science Detailed investigation of gold deposits in Europe have revealed the composition and genesis of the deposits as sources of the metal In Prehistoric Gold in Europe a group of leading European geoscientists metallurgists and archaeologists discuss the techniques of gold mining and metallurgy the socioeconomic importance of gold as coinage and a symbol of wealth and status and as an indicator of religious habits as well as a mirror of trade and cultural relations mirrored by the distribution and types of gold objects in prehistoric times Prehistoric Flint Mines in Europe Françoise Bostyn,Jacek Lech,Alan Saville,Dagmara H. Werra,2023-11-09 This volume offers a review of major flint mines dating from the Neolithic to the Bronze Age The 18 articles were contributed by archaeologists from Belgium France Germany Great Britain Hungary Italy the Netherlands Poland Spain and Sweden using the same framework to propose a uniform view of the mining phenomenon **Down the Bright Stream: The Prehistory of Woodcock Corner and the Tregurra Valley, Cornwall**

Sean R. Taylor,2022-06-23 This volume reports on a series of fieldwork projects carried out in the Tregurra Valley to the east of Truro Cornwall between 2009 2015 The fieldwork led to the identification of a large number of pits and hearths across the site the majority of which that have proved dateable spanning the Early Neolithic to the end of the Early Bronze Age

California Prehistory Terry L. Jones,Kathryn A. Klar,2007-07-16 Some forty scholars examine California s prehistory and archaeology looking at marine and terrestrial palaeoenvironments initial human colonization linguistic prehistory early forms of exchange mitochondrial DNA studies and rock art This work is the most extensive study of California s prehistory undertaken in the past 20 years An essential resource for any scholar of California prehistory and archaeology

Prehistoric Britain from the Air Timothy Darvill,1996-07-04 This book provides a bird s eye look at the monumental achievements of Britain s earliest inhabitants Arranged thematically it illustrates and describes a wide selection of archaeological sites and landscapes dating from between 500 000 years ago and the Roman conquest Timothy Darvill brings to life many of the familiar sites and monuments that prehistoric communities built and exposes to view many thousands of sites that simply cannot be seen at ground level Throughout the book he makes a unique application of social archaeology to the field of aerial photography The Prehistoric Burial Sites of Northern Ireland Harry Welsh,June Welsh,2014-07-28 Much has been written about the history of Northern Ireland but less well known is its wealth of prehistoric sites particularly burial sites from which most of our knowledge of the early inhabitants of this country has been obtained **Modelling**

Human-Environment Interactions in and beyond Prehistoric Europe Samuel Seuru, Benjamin Albouy, 2023-07-25 This book offers insight into the relationship between prehistoric and protohistoric human populations and the world around them. It reconstructs key aspects of the palaeoenvironment from large scale drivers of environmental conditions such as climate to more regional variables such as vegetation cover and faunal communities. The volume underscores how computational archaeology is leading the way in the study of past human environment interactions across spatial and chronological scales. With the increased availability of high resolution climate models, agent based modelling, palaeoecological proxies and the mature use of Geographic Information System in ecological modelling, archaeologists working in interdisciplinary settings are well positioned to explore the intersection of human systems and environmental affordances and constraints. These methodological advancements provide a better understanding of the role humans played in past ecosystems both in terms of their impact upon the environment and in return the impact of environmental conditions on human systems. They may also allow us to infer past ecological knowledge and land use patterns that are historically contingent rather than environmentally determined. This volume gathers contributions that combine reconstructions of past environments and archaeological data with a view to exploring their complex interactions at different scales and invites scholars from varying disciplines and backgrounds to present and compare different modelling approaches.
