Department of Railways and Canals, 1917      **The Railway King of Canada** R. B. Fleming, 2007-10-01 During the first two decades of this century Sir William Mackenzie was one of Canada's best known entrepreneurs. He spearheading some of the largest and most technologically advanced projects undertaken in Canada he built a business empire that stretched from Montreal to British Columbia and to Rio de Janeiro and Sao Paulo in Brazil. It included gas electric telephone and transit utilities, railroads, hotels and steamships as well as substantial coal mining, whaling and timber interests. But when he died in 1923 his estate was virtually bankrupt as a result of the dramatic collapse of his Canadian Northern Railway during the First World War. In a business biography intended as much for general readers as for a scholarly audience Fleming offers a revisionist perspective on Mackenzie. He dispels the simplistic approach of those historians and journalists who have depicted Mackenzie and his partner Sir Donald Mann as melodramatic crooks who could have stepped out of the pages of Huckleberry Finn      Journals of the House of Commons Great Britain. Parliament. House of Commons, 1846
