Rapanese French Series The Musical Method Of Learning French Series:

The Art of French Piano Music Roy Howat, 2009-01-01 An essential resource for scholars and performers this study by a world renowned specialist illuminates the piano music of four major French composers in comparative and reciprocal context Howat explores the musical language and artistic ethos of this repertoire juxtaposing structural analysis with editorial and performing issues He also relates his four composers historically and stylistically to such predecessors as Chopin Schumann Liszt the French harpsichord school and Russian and Spanish music Challenging long held assumptions about performance practice Howat elucidates the rhythmic vitality and invention inherent in French music In granting Faur and Chabrier equal consideration with Debussy and Ravel he redresses a historic imbalance and reshapes our perceptions of this entire musical tradition Outstanding historical documentation and analysis are supported by Howat s direct references to performing traditions shaped by the composers themselves The book balances accessibility with scholarly and analytic rigor combining a lifetime s scholarship with practical experience of teaching and the concert platform

Composing Japanese Musical Modernity Bonnie C. Wade, 2014-01-13 When we think of composers we usually envision an isolated artist separate from the orchestra someone alone in a study surround by staff paper and in Europe and America this image generally has been accurate For most of Japan s musical history however no such role existed composition and performance were deeply intertwined Only when Japan began to embrace Western culture in the late nineteenth century did the role of the composer emerge In *Composing Japanese Musical Modernity* Bonnie Wade uses an investigation of this new musical role to offer new insights not just into Japanese music but Japanese modernity at large and global cosmopolitan culture Wade examines the short history of the composer in Japanese society looking at the creative and economic opportunities that have sprung up around them or that they forged during Japan s astonishingly fast modernization She shows that modernist Japanese composers have not bought into the high modernist concept of the autonomous artist instead remaining connected to the people Articulating Japanese modernism in this way Wade tells a larger story of

international musical life of the spaces in which tradition and modernity are able to meet and ultimately where modernity itself has been made **The American School Board Journal** William George Bruce, William Conrad Bruce, 1896
