Weekly Compilation of Presidential Documents ,1998 Public Papers of the Presidents of the United States United States. President,1993 Containing the public messages speeches and statements of the President 1956 1992 **Research Report of the Interdepartmental Workers' Compensation Task Force** United States. Interdepartmental Workers' Compensation Task Force,1979 Revolutionary Republicanism Samuel Hayat,2023-12-22 Revolutionary Republicanism provides a history of French republicanism seen through a seminal episode of its creation the 1848 revolution The process of reinventing republicanism in 1848 gave rise to two opposite understandings of republicanism a moderate one that merely adapted the institutions of representative government to popular sovereignty and a more radical social democratic notion of republicanism based on inclusive forms of representation and aiming at the emancipation of the proletariat These two notions of republicanism unfolded over the course of the few critical months between the revolution of February 1848 and the uprising of June 1848 which saw the victory of the moderate one Playing devil s advocate to the traditional republican history that casts 1848 as a mere step in the continuous history of French republicanism the book demonstrates that the events of the revolution amounted to a repression of all that the Republic had meant up until that point particularly the forms of participation and popular representation hitherto seen as constituting a republican regime The text also sets out to chart the history of the democratic and social Republic as the socialist and worker revolutionaries of 1848 called the radical republicanism they dreamed of founding and believed would fulfil the republican promise of emancipation This book will appeal to all those with an interest in the French revolutions and the history of radical ideas **Parliamentary Debates** New Zealand. the treatment of ethnic minorities both in newsrooms and in the reporting that comes out of them within the changing media landscape From the Rodney King riots to the racial inequities of the new digital media Amy Alexander has chronicled the biggest race and class stories of the modern era in American journalism Beginning in the bare knuckled newsrooms of 1980s San Francisco her career spans a period of industry wide economic collapse and tremendous national demographic changes Despite reporting in some of the country s most diverse cities including San Francisco Boston and Miami Alexander consistently encountered a stubbornly white male press corps and a surprising lack of news concerning the ethnic communities in these multicultural metropolises Driven to shed light on the race and class struggles taking place in the United States Alexander embarked on a rollercoaster career marked by cultural conflicts within newsrooms Along the way her identity as a black woman journalist changed dramatically an evolution that coincided with sweeping changes in the media industry and the advent of the Internet Armed with census data and news industry demographic research Alexander explains how the so called New Media is reenacting Old Media s biases She argues that the idea of newsroom diversity at best an afterthought in good economic times has all but fallen off the table as the industry fights for its economic life a dynamic that will ultimately speed the demise of venerable news outlets Moreover for the shrinking number of journalists of color who currently work at big news organizations the lingering ethos of having to be twice as good as their white counterparts continues it is a reality that threatens to stifle another generation of practitioners from non traditional backgrounds In this hard hitting account Alexander evaluates her own career in the context of the continually evolving story of America s growing ethnic populations and the homogenous newsrooms producing our nation s too often monochromatic coverage This veteran journalist examines the major news stories that were entrenched in the great race debate of the past three decades stories like those of Eli n Gonz lez Janet Cooke Jayson Blair Tavis Smiley the tragedy of Hurricane Katrina and the election of Barack Obama Uncovering Race offers sharp analysis of how race gender and class come to bear on newsrooms and takes aim at mainstream media s failure to successfully cover a browner younger nation a failure that Alexander argues is speeding news organizations demise faster than the Internet
