have enhanced punishment and social control been defined as the most appropriate responses to these complex social problems Making Crime Pay Law and Order in Contemporary American Politics provides original fascinating and persuasive answers to these questions According to conventional wisdom the worsening of the crime and drug problems has led the public to become more punitive and tough anti crime policies are politicians collective response to this popular sentiment Katherine Beckett challenges this interpretation arguing instead that the origins of the punitive shift in crime control policy lie in the political rather than the penal realm particularly in the tumultuous period of the 1960s

Public Spaces, Private Lives Henry A. Giroux, 2003 While many of the essays in this book were written before 9 11 they point to a number of important issues such as the commercialization of public life the stepped up militarization racial profiling and the threat to basic civil liberties that have been resurrected since the terrorist attacks Public Spaces Private Lives serves to legitimate the claim that there is much in America that has not changed since 9 11 Rather than a dramatic change what we are witnessing is an intensification and acceleration of the contradictions that threatened American democracy before the tragic events of 9 11 Hence Public Spaces Private Lives offers a context for both understanding and critically engaging the combined threats posed by the increase in domestic militarization and a neoliberal ideology that substitutes market values for those democratic values that are crucial to rethinking what a vibrant democracy would look like in the aftermath of September 11th
