Realisms A Nineteenth Century Novel:

The Nineteenth-Century Novel: Realisms Delia Correa Sousa de, 2013-05-13 The essays in this volume trace the experimentation of nineteenth century writers in advancing new modes of realist fiction while revitalizing the inheritance of the Gothic and the Romantic Focusing on some of the most popular novels of the century *Northanger Abbey* *Jayne Eyre* *Dombey and Son* *Middlemarch* *Far from the Madding Crowd* and *Germinal* this attractive volume explores some of the recurring themes in nineteenth century fiction aspiration and vocation social class sexual politics political reform colonialism and commerce This is an ideal introduction to some of the major fictional achievements of the first industrial era and to most of the crucial themes in nineteenth century fiction Nineteenth-Century Literary Realism Katherine Kearns, 1996-01-26 A challenging rethinking of traditional theories and redefinition of the genre of realism **The Nineteenth-century Novel** Delia da Sousa Correa, 2000 This text explores the scope and variety of the great novels of the 19th century The essays in this collection trace the experimentation of 19th century writers in advancing new modes of realist fiction **Realism's Empire** Geoffrey Baker, 2009 **Man and Society in Nineteenth-century Realism** Maurice Larkin, 1977 **Sympathetic Realism in Nineteenth-Century British Fiction** Rae Greiner, 2013-01-21 British realist novelists of the nineteenth century viewed sympathy not as a feeling but as a form of imaginative thinking useful in constructing their fiction Rae Greiner proposes that sympathy is integral to the form of the classic nineteenth century realist novel Following the philosophy of Adam Smith Greiner argues that sympathy does more than foster emotional identification with others it is a way of thinking along with them By abstracting emotions feelings turn into detached figures of speech that may be shared Sympathy in this way produces realism it is the imaginative process through which the real is substantiated In *Sympathetic Realism in Nineteenth Century British Fiction* Greiner shows how this imaginative process of sympathy is written into three novelistic techniques regularly associated with nineteenth century fiction metonymy free indirect discourse and realist characterization She explores the work of sentimentalist philosophers David Hume Adam Smith and Jeremy Bentham and realist novelists Jane Austen Charles Dickens George Eliot Joseph Conrad and Henry James **The Nineteenth-Century Novel and the Pre-Cinematic Imagination** Alberto Gabriele, 2024-11-14 This book fills a gap in existing scholarship on the history of the novel in relation to visual culture by discussing the visual fascination that novelists such as Nathaniel Hawthorne Herman Melville Honoré de Balzac and George Eliot show for several types of pre cinematic spectacle It also identifies a so far neglected aspect of novel theory that nineteenth century authors elaborated by incorporating suggestions from pre cinematic visual spectacles By shedding light on forms of visuality that were not entertained by the dominant aesthetic modes of painting and photography *The Nineteenth Century Novel and the Pre Cinematic Imagination* argues that the presence of nineteenth century pre cinematic optical illusions in works of fiction redefines the notion of mimesis as animated movement and points to a continuity between pre cinema the literary imagination and the structures of knowledge production of the

modern episteme **Legal Realisms** Christine Holbo, 2019-08-01 United States historians have long regarded the U S Civil War and its Reconstruction as a second American revolution Literary scholars however have yet to show how fully these years revolutionized the American imagination Emblematic of this moment was the post war search for a Great American Novel a novel fully adequate to the breadth and diversity of the United States in the era of the Fourteenth Amendment While the passage of the Reconstruction Amendments declared the ideal of equality before the law a reality persistent and increasing inequality challenged idealists and realists alike The controversy over what full representation should mean sparked debates about the value of cultural difference and aesthetic dissonance and it led to a thoroughgoing reconstruction of the meaning of realism for readers writers politics and law The dilemmas of incomplete emancipation which would damage and define American life from the late nineteenth century onwards would also force novelists to reconsider the definition and possibilities of the novel as a genre of social representation Legal Realisms examines these transformations in the face of uneven developments in the racial ethnic gender and class structure of American society Offering provocative new readings of Mark Twain Henry James William Dean Howells Helen Hunt Jackson Albion Tourg e and others Christine Holbo explores the transformation of the novel s distinctive modes of social knowledge in relation to developments in art philosophy law politics and moral theory As Legal Realisms follows the novel through the worlds of California Native American removal and the Reconstruction era South of the Mississippi valley and the urban Northeast this study shows how violence prejudice and exclusion haunted the celebratory literatures of national equality but it demonstrates as well the way novelists representation of the difficulty of achieving equality before the law helped Americans articulate the need for a more robust concept of social justice **Realism** Pam Morris, 2004-06-02 A clear reader friendly guide to debates around realism this guide is vital reading for students of literature in particular those working on the realist novel

Affect and Realism in Contemporary Brazilian Fiction Karl Erik Schollhammer, 2020-12-15 This book is about contemporary Brazilian fiction from the past two decades and concerned with the possibilities of literary intervention in the reality of the historical moment Thus an understanding of the actual role of literature is strategic in the definition of the contemporary and the book shows an optimism among current writers and artists with respect to the aesthetic ethical and political role of literature and art in the twentieth century In contemporary Brazilian prose two simultaneous ambitions are often reconciled The commitment to individual or social reality is a challenge that is assumed without thereby necessarily accepting and following the molds of the traditional search for national or cultural identities This foundation is one of the constants of contemporary prose without thereby eliminating the continuous existence of a formal experimentalism that is the clearest heir of the modernist project

Victorian Metafiction Tabitha Sparks, 2022-11-17 Critics agree in the abstract that metafiction refers to any novel that draws attention to its own fictional construction but metafiction has been largely associated with the postmodern era In this innovative new book Tabitha Sparks identifies a sustained pattern of metafiction in the Victorian novel that illuminates the

art and intentions of its female practitioners From the mid nineteenth century through the fin de siècle novels by Victorian women such as Charlotte Brontë Rhoda Broughton Charlotte Riddell Eliza Lynn Linton and several New Women authors share a common but underexamined trope the fictional characterization of the woman novelist or autobiographer Victorian Metafiction reveals how these novels systemically dispute the assumptions that women wrote primarily about their emotions or were restricted to trivial sentimental plots Countering an established tradition that has read novels by women writers as heavily autobiographical and confessional Sparks identifies the literary technique of metafiction in numerous novels by women writers and argues that women used metafictional self consciousness to draw the reader's attention to the book and not the novelist By dislodging the narrative from these cultural prescriptions Victorian Metafiction effectively argues how these women novelists presented the business and art of writing as the subject of the novel and wrote metafiction in order to establish their artistic integrity and professional authority

Landscapes of Realism Dirk Göttsche, Rosa Mucignat, Robert Weninger, 2021-04-15 Few literary phenomena are as elusive and yet as persistent as realism While it responds to the perennial impulse to use literature to reflect on experience it also designates a specific set of literary and artistic practices that emerged in response to Western modernity Landscapes of Realism is a two volume collaborative interdisciplinary exploration of this vast territory bringing together leading edge new criticism on the realist paradigms that were first articulated in nineteenth century Europe but have since gone on globally to transform the literary landscape Tracing the manifold ways in which these paradigms are developed discussed and contested across time space cultures and media this first volume tackles in its five core essays and twenty five case studies such questions as why realism emerged when it did why and how it developed such a transformative dynamic across languages to what extent realist poetics remain central to art and popular culture after 1900 and how generally to reassess realism from a twenty first century comparative perspective

Ekphrastic Tradition Mack Smith,2010-11-01 Literary Realism and the Ekphrastic Tradition examines representative texts and the theories of realism upon which they are based It studies the foundations of these theories in the philosophies of language contemporaneous with them Beginning with Adamicism Mack Smith looks at the way humanist rationalist empiricist Kantian positivist and poststructuralist theories of language are textually dramatized He considers the cultural and personal influences that affect historical notions of realism and reality He also demonstrates the rhetorical basis of realism by considering a mimetic device used by novelists in rendering a faithful version of reality ekphrasis the narrative description of a work of art Smith seeks a middle ground between the extremes of theory and interpretation discourse and reality and textualism and history thus making an important contribution to the revaluation of literary studies **The Cambridge**

Introduction to Modernism Pericles Lewis,2007-05-03 Publisher description *Narrative Factuality* Monika

Fludernik,Marie-Laure Ryan,2019-12-16 The study of narrative the object of the rapidly growing discipline of narratology has been traditionally concerned with the fictional narratives of literature such as novels or short stories But narrative is a transdisciplinary and transmedial concept whose manifestations encompass both the fictional and the factual In this volume which provides a companion piece to Tobias Klauk and Tilmann Köppe's *Fiktionalität Ein interdisziplinäres Handbuch* the use of narrative to convey true and reliable information is systematically explored across media cultures and disciplines as well as in its narratological stylistic philosophical and rhetorical dimensions At a time when the notion of truth has come under attack it is imperative to reaffirm the commitment to facts of certain types of narrative and to examine critically the foundations of this commitment But because it takes a background for a figure to emerge clearly this book will also explore nonfactual types of narratives thereby providing insights into the nature of narrative fiction that could not be reached from the narrowly literary perspective of early narratology 4E Cognition and Eighteenth-Century Fiction Karin

Kukkonen,2019-01-16 When the novel broke into cultural prominence in the eighteenth century it became notorious for the gripping immersive style of its narratives In this book Karin Kukkonen explores this phenomenon through the embodied style in Eliza Haywood's flamboyant amatory fiction Charlotte Lennox's work as a cultural broker between Britain and France Sarah Fielding's experimental novels and Frances Burney's practice of life writing and fiction writing Four female authors

who are often written out of the history of the genre are here foregrounded in a critical account that emphasizes the importance of engaging readers minds and bodies and which invites us to revisit our understanding of the rise of the modern novel Kukkonen s innovative theoretical approach is based on the approach of 4E cognition which views thinking as profoundly embodied and embedded in social and material contexts extending into technologies and material devices such as a pen and enactive in the inherent links between perceiving the world and moving around in it 4E Cognition and Eighteenth Century Fiction investigates the eighteenth century novel through each of these trajectories and shows how language explores its embodied dimension by increasing the descriptions of inner perception or the bodily gestures around spoken dialogue The embodied dimension is then related to the media ecologies of letter writing book learning and theatricality As the novel feeds off and into these social and material contexts it comes into its own as a lifeworld technology that might not answer to standards of nineteenth century realism but that feels real because it is integrated into the lifeworld and embodied experiences 4E cognition answers one of the central challenges to cognitive literary studies how to integrate historical and cultural contexts into cognitive approaches
