The Reality Game John Rowan, 2016-05-05 In the years since it was first published, The Reality Game has become a classic text. For all those training and practising in humanistic and integrative psychotherapy, it is an essential guide to good practice and an excellent introduction to the skills used in individual and group therapy. This new edition has been updated to take into account changes in the field and John Rowan's own work, while still providing guidance on establishing and developing the relationship between counsellor and client and covering assessment, the initial interview, the opening session, aims, transference, resistance and supervision. With the student's needs always at the forefront, this extensively revised new edition responds to the questions most often asked by trainees in these disciplines and includes discussions of ethics and new chapters on transpersonal psychology and on dialogical self theory. It will be a must-read for psychotherapists and counsellors in practice and training, especially those involved in humanistic and integrative psychotherapy.

The Reality Game, second edition John Rowan, 2014-02-04 The Reality Game is for people who are or who want to be counsellors or psychotherapists. It is particularly useful for those training in humanistic or integrative psychotherapy and counselling. Discussing the skills and techniques used in both individual and group therapy, this is an essential guide to good practices for the professional humanistic counsellor or psychotherapist and also responds to the questions most often asked by those training in these disciplines.

The Future of Training in Psychotherapy and Counselling John Rowan, 2014-02-25 The Future of Training in Psychotherapy and Counselling presents a revealing and stimulating account of the current state of training that demonstrates how training will have to adapt if it is to successfully meet the needs and challenges of the future. In an attempt to look afresh at the whole question of training, John Rowan proposes that there are three ways of doing therapy and any examination of training has to consider each of these: the instrumental, where the main emphasis is on treating the client or patient; the authentic way, where the main emphasis is on meeting the client or patient; the transpersonal way, where main emphasis is on linking with the client in a more personal way. Each approach makes different assumptions about the self, about the relationship and about the level of consciousness involved in doing therapy. By challenging the basic precepts of traditional training, John Rowan encourages the reader to reconsider subjects including the difference between counselling and psychotherapy, culture and ethics, the origins of disturbance in clients and child development. The Future of Training in Psychotherapy and Counselling provides a much needed new perspective that will compel all psychotherapists and counsellors to take a closer look at training in the field.

The Shadow and the Counsellor Steve Page, 2002-09-11 The Shadow and the Counsellor introduces the concept of shadow the darker side to ourselves that we do not wish to acknowledge or do not even recognise It examines how it comes into being and explores its impact within counselling The Shadow and the Counsellor is structured around a six stage model which is designed to help the counsellor recognise confront and deal with their shadow side This can then be a framework for reflection and practical action With case studies including short clinical examples to longer examples running through the book this will give counsellors a new way of approaching their practice
