Reason And Violence Philosophical Investigations:

Reason and Violence Sherman M. Stanage, 1974

The Routledge Handbook of Contemporary Philosophy of Religion Graham Oppy, 2015-04-17

Philosophy of religion has experienced a renaissance in recent times paralleling the resurgence in public debate about the place and value of religion in contemporary Western societies. The Routledge Handbook of Contemporary Philosophy of Religion is an outstanding reference source to the key topics, problems, and debates in this exciting subject. Comprising over thirty chapters by a team of international contributors, the Handbook is divided into seven parts: theoretical orientations, conceptions of divinity, epistemology of religious belief, metaphysics and religious language, religion and politics, religion and ethics, religion and scientific scrutiny. Within these sections, central issues, debates, and problems are examined, including religious experience, religion and superstition, realism and anti-realism, scientific interpretation of religious texts, feminist approaches to religion, religion in the public square, tolerance, religion and meta-ethics, religion and cognitive science, and the meaning of life. Together, they offer readers an informed understanding of the current state of play in the liveliest areas of contemporary philosophy of religion. The Routledge Handbook of Contemporary Philosophy of Religion is essential reading for students and researchers of philosophy of religion from across the Humanities and Social Sciences.

Hannah Arendt Lewis P. Hinchman, Sandra K. Hinchman, 2012-02-01

This work presents both the range of Arendt's political thought and the patterns of controversy it has elicited. The essays are arranged in six parts around important themes in Arendt's work: totalitarianism and evil, narrative and history, the public world and personal identity, action and power, justice, equality, and democracy, and thinking and judging. Despite such thematic diversity, virtually all the contributors have made an effort to build bridges between interest-driven politics and Arendt's Hellenic existential politics. Although some are quite critical of the way Arendt develops her theory, most sympathize with her project of rescuing politics from both the foreshortening glance of the philosopher and its assimilation to social and biological processes. This volume treats Arendt's work as an imperfect, somewhat time-bound but still invaluable resource for challenging some of our most tenacious prejudices about what politics is and how to study it. The following eminent Arendt scholars have contributed chapters to this book: Ronald Beiner, Margaret Canovan, Elisabeth Young-Bruehl, Seyla Benhabib, Jürgen Habermas, Hanna Pitkin, and Sheldon Wolin.

Spheres of Transnational Ecoviolence Peter Stoett, Delon Almon, 2020-12-01

This book explores violence against the environment within the broad scope of transnational environmental crime (TEC): its extent, perpetrators, and responses. TEC has become one of the greatest threats to environmental and human security today, as well as a lucrative enterprise and a mode of life in many regions of the world. Transnational Spheres of Ecoviolence argues that we cannot seriously consider stopping TEC without also promoting environmental and climate justice. The spheres covered range from wildlife and plant crime to illegal fisheries, toxic waste, and climate crime. These acts of violence against the environment are both localized in terms of event and impact and globalized in terms of market drivers and internationalized

responses Because it is so often intimately linked to political violence coerced labor economic and physical displacement and development opportunity costs ecoviolence must be viewed primarily as a human security issue the fight against it must derive legitimacy from impacts on local communities and be twinned with the protection of environmental activists Reliance on the generosity of distant corporations or the effectiveness of legal structures will not be adequate and militarized responses may do more harm to human security than good to nature A transformative approach to transnational ecoviolence is a very complex task affected by the geopolitics of neoliberalism authoritarian states rebel factions and extremists socio economic patterns and many other factors In this challenging text the authors capture this complexity in digestible form and offer a wide ranging discussion of commensurate policy recommendations for governments and the general public

Disorders and Terrorism United States. National Advisory Committee on Criminal Justice Standards and Goals,1976

, **Terrorism** J. Angelo Corlett,2012-12-06 This book is the culmination of over 15 years of research on terrorism secession and related concepts such as the obligation to obey the law pacifism civil disobedience non violent direct action political violence revolution and assassination It is sincerely hoped that the content of this book is construed as an ethical and philosophical attempt to advance human understanding of some of life s most intractable problems namely terrorism and more generally political violence This book is proffered as a propaedeutic to further study of these issues and is not to be interpreted as the author s final word on them For the pursuit of truth and avoidance of error is never wholly complete but at best a life long process of continual reflection analysis and argument And it will please the author of this book if it brings even a modicum of knowledge to the difficulties it investigates Some of the chapters of this book have been published or have otherwise experienced the critical assistance of various public academic forums and I am sincerely grateful to those who have shaped my thinking about terrorism and its related concepts Among those who have provided critical and helpful insights concerning various sections of the contents of this book are David Copp Richard Falk Joel Feinberg Richard W Miller and Thomas Pogge

Violent Acts Severino João Medeiros Albuquerque,1991 Albuquerque analyzes the use of violence in Latin American theatre from the 1950s through the 1980s He argues that in the face of repression and torture some playwrights counter victimization with art as urgent as street confrontation A study from both Spanish and Portuguese speaking countries Annotation copyrighted by Book News Inc Portland OR [Pacifism's Appeal](#) Jorg Kustermans,Tom Sauer,Dominiek Lootens,Barbara Segaeert,2019-03-13 This volume examines the possibility or need of a revitalization of pacifism as a world political practice It takes as its point of departure the observation that although just war thinking has long been dominant in Western debates about war and peace recent events have served to temper enthusiasm about the doctrine Pacifism has been much less prominent a stance in recent decades but there is the impression that it may be staging a return Just war thinking has to a large extent failed Outright bellicism remains as undesirable as ever Pacifism presents itself again as a possible alternative Once upon a time the peace movement was popular and pacifism with it Pacifism

appealed to people It stirred hearts and minds It inspired political action and institutional designs This volume examines whether pacifism can claim its ground again and how it should be redefined in light of today s world political circumstances

Disorders and Terrorism United States. National Advisory Committee on Criminal Justice Standards and Goals. Task Force on Disorders and Terrorism,1977 Government study prompted by acts of extraordinary violence in this country since the 1960s Included in the appendices is a chronology of terrorist episodes in the U S from Jan 1959 March 1976 and a bibliography prepared by staff members of the New York University Law School Staff *Ethics of Coercion and Authority* Timo Airaksinen,2010-11-23 The work would be of great value to philosophers engaged in the conceptual analysis of coercion to political scientists studying the state or other coercive institutions and to advanced readers interested in the field of peace research Choice *High and Low Corruption* Harry Adams,2023-12-19 High and Low Corruption Children Capabilities and Crime provides a systematic theory of corruption and analyzes high corruption in terms of political corruption and high end white collar crime and low corruption in terms of juvenile delinquency and street crime It shows how delinquents and street criminals often suffer from arrested development of their basic human capabilities In turn Harry Adams argues that their maldevelopment often emerges neither merely through their own fault when they were children nor through the fault of biological caregivers who were guilty of parental child neglect Beyond this Adams argues that the maldevelopment of at risk youth commonly emerges through a kind of political child neglect when corrupt public officials fail to provide adequate protection or back up support for their development In these ways the author shows how the former type of high corruption or suite crime can significantly contribute to the latter type of corruption and street crime By applying a set of moral constitutional and criminological principles from Derek Parfit Ronald Dworkin and Jeffrey Reiman respectively Adams also provides a systematic account of why and how both these types of corruption should be curbed **Natural Resources and Social Conflict** M. Schnurr,L. Swatuk,2012-03-02 This volume brings together international scholars reflecting on the theory and practice of international security human security natural resources and environmental change It contributes by centring the margins and privileging alternative conceptions and understandings of environmental in security

Terrorism, Insurgency and Indian-English Literature, 1830-1947 Alex Tickell,2013-06-17 In this ground breaking interdisciplinary study of terrorism insurgency and the literature of colonial India Alex Tickell re envisages the political aesthetics of empire Organized around key crisis moments in the history of British colonial rule such as the Black Hole of Calcutta the anti thug campaigns of the 1830s the 1857 Rebellion anti colonial terrorism in Edwardian London and the Amritsar massacre in 1919 this timely book reveals how the terrorizing threat of violence mutually defined discursive relations between colonizer and colonized Based on original research and drawing on theoretical work on sovereignty and the exception this book examines Indian English literary traditions in transaction and covers fiction and journalism by both colonial and Indian authors It includes critical readings of several significant early Indian works for the first time from

neglected fictions such as Khyas Chunder Dutt's story of anticolonial rebellion *A Journal of Forty Eight Hours of the Year* 1945 1835 and Sarath Kumar Ghosh's nationalist epic *The Prince of Destiny* 1909 to dissident periodicals like *Hurriyat* Chunder Mookerji's *Hindoo Patriot* 1856 66 and Shyamaji Krishnavarma's *Indian Sociologist* 1905 14 These are read alongside canonical works by metropolitan and Anglo Indian authors such as Philip Meadows Taylor's *Confessions of a Thug* 1839 Rudyard Kipling's short fictions and novels by Edmund Candler and E M Forster Reflecting on the wider cross cultural politics of terror during the Indian independence struggle Tickell also reappraises sacrificial violence in Indian revolutionary nationalism and locates Gandhi's philosophy of ahimsa or non violence as an inspired tactical response to the terror effects of colonial rule

Power in Philosophy Anna Alomes, 2012-01-01 In a world witnessing social transformation by non violent means on the scale never before seen this book offers a challenge to philosophy to catch up and support these changes with the required foundations for sustaining peace in the 21st century and beyond This book offers hope for a compassionate future issues a wake up call to academia and provides a roadmap for change

Hamas and Suicide Terrorism Rashmi Singh, 2013-01-11 This book analyses the root causes of suicide terrorism at both the elite and rank and file levels of the Hamas and also explains why this tactic has disappeared in the post 2006 period This volume adopts a multi causal multi level approach to analyse the use of suicide bombings by Hamas and its individual operatives in the Israeli Palestinian conflict It uses extensive fieldwork and on the ground interviews in order to delve beneath the surface and understand why and how suicide operations were adopted as a sustained mechanism of engagement within the Israeli Palestinian conflict Three core factors fuelled Hamas's suicide bombing campaigns First Palestinian suicide operations are a complex combination of instrumental and expressive violence adopted by both organisations and individuals to achieve political and or societal survival retaliation and competition In other words suicide bombings not only serve distinct political and strategic goals for both Hamas and its operatives but they also serve to convey a symbolic message to various audiences within Israel the Palestinian territories and around the world Second suicide operations perform a crucial role in the formation and consolidation of Palestinian national identity and are also the latest manifestation of the historically entrenched cultural norm of militant heroic martyrdom Finally Hamas's use of political Islam also facilitates the articulation justification and legitimisation of suicide operations as a modern day jihad against Israel through the means of modern interpretations and fatwas This approach not only facilitates a much needed multifaceted holistic understanding of suicide bombings in this particular region but also yields policy relevant lessons to address extreme political violence in other parts of the world This book will be of much interest to students of Hamas terrorism Middle East politics and security studies

Uprising at Bowling Green Arthur G. Neal, Joseph B Perry Jr, Norbert Wiley, 2015-11-17 Often overlooked the student demonstration at Bowling Green State University was the first and most successful 1960s campus protest and a key point in the transition from 1950s social mores to 1960s activism What began as a protest against outdated rules about dating and student behaviour

quickly turned toward political objectives about civil liberties and ousted the university president The authors two of whom were present on campus during the demonstration tell the story of how what began as dissent against old schoolmarm rules quickly turned into a fully fledged 1960s crusade with new issues and tactics Feminist activists played a leading role and the uprising succeeded in advancing the civil liberties of women Drawing on the sociological ideas of Weber Durkheim and Marx this book depicts how young activists broke the 1950s mold little aware that many of their ideals would be echoed in many important 1960s protests It is a vivid portrait of how the 1950s became the 1960s in America

Race, Racism, and Reparations J. Angelo Corlett, 2018-08-06 If affirmative action and other ethnicity based social programs are justified then J Angelo Corlett believes it is important to come to an adequate understanding of the nature of ethnicity in general and ethnic group membership in particular In *Race Racism and Reparations* Corlett reconceptualizes traditional ideas of race in terms of ethnicity As he makes clear the answers to the questions What is a Native American or What is a Latino have important implications for public policy especially for those programs designed to address historic injustices and economic and social imbalances among different groups in our society Having supplanted race with a well defined concept of ethnicity the author then analyzes the nature and function of racism Corlett argues for a notion of racism that must encompass not only racist beliefs but also racist actions omissions and attempted actions His aim is to craft a definition of racism that will prove useful in legal and public policy contexts Corlett places special emphasis on the broad questions of whether reparations for ethnic groups are desirable and what forms those reparations should take land money social programs He addresses the need for differential affirmative action programs and reparations policies the experiences and oppressors of different ethnic groups vary greatly Arguments for reparations to Native and African Americans are considered in light of a variety of objections that are or might be raised against them Corlett articulates and critically analyzes a number of possible proposals for reparations
