Everywhere Saviors Frank Dewey Staley, 2022-08-26 *Everywhere Saviors* is Frank Dewey Staley's fourth novel and is clearly his most expansive. This story reconnects with the life of Dobro Temple, agent to the Los Angeles glitterati and his daughter, the effervescent and precocious Sara. For light to appear, there must be darkness as contrast. And *Everywhere Saviors* explores a darkness both frightening and consuming. Experiences within this book will keep many readers up at night. But this book shows us more than simply an underbelly of who we are. *Everywhere Saviors* reminds us again and again that so many of the faces that surround us are there to smile at us and offer us a helping hand. **The Wicked Alpha**

Javyriah, 2024-06-14 Rebecca was watching the full moon from the window of her room AND hearing the speech behind her back. She already decided to let him live here. It was not a game of mind, but her heart. And she already has given her heart to him. But the dangers that come along with him are far more dangerous than she can even think. She never thought that she will lose everything along in the fight for love and trying to change the evil into good. Only because of the Alpha Wolf that came out as her true mate, Luna Moon, we can not let a Male Wolf enter our territory. It will be not only dangerous but very risky for all of us and our pack. Beta Julie said, "He is not what he looks like, there is something very dangerous and off-vibe that has come along with him." Simon warned her, "Not only you, but I also don't believe my brother. I don't even know where he was all these years, what he was up to. Don't trust him." Simara was the traitor, but she also told her. *A Twentieth Century*

, 1909 Digital Literary Redlining Amy E. Earhart, 2025-06-24 Though canon concerns seem to be a relic of 1990s academia, we are once again at a historical moment when there is resistance to teaching texts by writers of color and texts that deal with race, ethnicity, and gender. At the same time, algorithmic bias: scholars are locating systemic bias encoded into systems from policing software to housing software. Bringing these divergent areas together, Amy E. Earhart examines how technological and institutional infrastructures construct and deconstruct race, ethnicity, and gender identities. Focusing on two central infrastructures, the database, a commonly used technological infrastructure in the digital humanities, and the anthology, a scholarly and pedagogical infrastructure, Earhart considers how such seemingly naturalized infrastructures impact the representation and modeling of identity. The book draws upon the building and use of DALA, a collection of almost 100 years of generalist American and African American literature anthologies constructed to investigate questions of identity and representation in literary anthologies and, by extension, the larger literary canon. The resulting examination and its

rigorous discussion of how identities are created and recreated within Black literary histories has important implications for contemporary cultural and political debates about canon formation literary scholarship and the bias embedded in technological infrastructures
