Dead Letters to the New World Michael McLoughlin, 2003-10-16 This book contextualises and details Herman Melville's artistic career and outlines the relationship between Melville and Ralph Waldo Emerson Michael McLoughlin divides Melville's professional career as a novelist into two major phases corresponding to the growth and shift in his art In the developmental phase from 1845 to 1850 Melville wrote his five Transcendental novels of the sea in which he defended self reliance attacked conformity and learned to employ Transcendental symbols of increasing complexity This phase culminates in Moby Dick with its remarkable matching of Transcendental idealism with tragic drama influenced by Hawthorne After 1851 Melville endeavoured to find new ways to express himself and to re envision human experience philosophically In this period of transition Melville wrote anti Transcendental fiction attacking self reliance as well as conformity and substituting fatalism for Emersonian optimism According to McLoughlin Moby Dick represents an important transitional moment in Herman Melville's art dramatically altering tendencies inherent in the novels from Typee onward in contrast to Melville's blithely exciting and largely optimistic first six novels of the sea Melville's later works beginning with his pivotal epic Moby Dick assume a much darker and increasingly anti Transcendental philosophical position *The World To-day*, 1912 *The Shame and the Sorrow* Donna Merwick, 2013-03-01 The Dutch through the directors of the West India Company purchased Manhattan Island in 1625 They had come to the New World as traders not expecting to assume responsibility as the sovereign possessor of a conquered New Netherland They did not intend to make war on the native peoples around Manhattan Island but they did they did not intend to help destroy native cultures but they did they intended to be overseas the tolerant pluralistic and antimilitaristic people they thought themselves to be and in so many respects were at home but they were not For the Dutch intruders establishing a settled presence away from the homeland meant the destabilization of the adventurers values and self regard They found that the initially peaceful encounters with the indigenous people soon took on the alarming overtones of an insurgency as the influx of the Dutch led to a complete upheaval and eventual disintegration of the social and political worlds of the natives How are the Dutch to be judged Donna Merwick in *The Shame and the Sorrow* asks this question She points to a betrayal both of their own values and of the native peoples She also directs us to the self delusion of hegemonic control Her work belongs alongside the best of today's postcolonial studies in the description of cross cultural violence and subtle questioning of the nature of writing its history **Rebel's Karma** Rebecca Zanetti, 2021-06-08 There's no denying destiny For too long Benjamin Reese has masked his deadly skills and temper with loyalty and humor A vampire demon hybrid he fiercely protects his family guards his brothers and destroys the enemy without mercy But when he discovers one fragile beautiful blonde a woman once mated to a Kurjan no less every primal instinct he has buried for centuries roars to life With the mating mark she roused on his hand entwining their fates no one will prevent him from keeping her safe and making her his forever Or desire Karma wishes she could remember her last name Or if she even had

Fatal Fictions Alison L. LaCroix, Richard H. McAdams, Martha Craven Nussbaum, 2017 Writers of fiction have always confronted topics of crime and punishment This age old fascination with crime on the part of both authors and readers is not surprising given that criminal justice touches on so many political and psychological themes essential to literature and comes equipped with a trial process that contains its own dramatic structure This volume explores this profound and enduring literary engagement with crime investigation and criminal justice The collected essays explore three themes that connect the world of law with that of fiction First defining and punishing crime is one of the fundamental purposes of government along with the protection of victims by the prevention of crime And yet criminal punishment remains one of the most abused and terrifying forms of political power Second crime is intensely psychological and therefore an important subject by which a writer can develop and explore character A third connection between criminal justice and fiction involves the inherently dramatic nature of the legal system itself particularly the trial Moreover the ongoing public conversation about crime and punishment suggests that the time is ripe for collaboration between law and literature in this troubled domain The essays in this collection span a wide array of genres including tragic drama science fiction lyric poetry autobiography and mystery novels The works discussed include works as old as fifth century BCE Greek tragedy and as recent as contemporary novels memoirs and mystery novels The cumulative
