A New Critical History of Old English Literature Stanley B. Greenfield, Daniel G. Calder, 1996-05-01 Anglo Saxon prose and poetry is without question the major literary achievement of the early Middle Ages c 700 1100 In no other vernacular language does such a vast store of verbal treasures exist for so extended a period of time For twenty years the definitive guide to that literature has been Stanley B Greenfield s 1965 Critical History of Old English Literature Now this classic has been extensively revised and updated to make it more valuable than ever to both the student and scholar

A Companion to Old and Middle English Literature Laura Lambdin, Robert Thomas Lambdin, 2002-06-30 Old and Middle English literature can be obscure and challenging So too can the vast body of criticism it has elicited Yet the masters of medieval literature often drew on similar texts since imitation was admired For this reason recent scholarship has often focused on the importance of genre The genre in which a work was written can illuminate the author s intentions and the text s meaning Read in light of a genre s parameters a given work can be considered in relation to other works within the same category This reference is a comprehensive overview of Old and Middle English literature Chapters focus on particular genres such as Allegorical Verse Balladry Beast Fable Chronicle Debate Poetry Epic and Heroic Lyric Middle English Parody Burlesque Religious and Allegorical Verse and Romance Expert contributors define the primary characteristics of each genre and discuss relevant literary works Chapters provide extensive reviews of scholarship and close with detailed bibliographies A more thorough bibliography of major scholarly studies closes the book

Ashgate Critical Essays on Early English Lexicographers Christine Franzen, 2017-03-02 Anglo Saxon lexicography studies Latin texts and words The earliest English lexicographers are largely unidentifiable students teachers scholars and missionaries Materials brought from abroad by early teachers were augmented by their teachings and passed on by their students Lexicographical material deriving from the early Canterbury school remains traceable in glossaries throughout this period but new material was constantly added Aldhelm and lfric Bata among others wrote popular much studied hermeneutic texts using rare exotic words often derived from glossaries which then contributed to other glossaries lfric of Eynsham is a rare identifiable early English lexicographer unusual in his lack of interest in hermeneutic vocabulary The focus is largely on context and the process of creation and intended use of glosses and glossaries Several articles examine intellectual centres where scholars and texts came together for example Theodore and Hadrian in Canterbury Aldhelm in Malmesbury Dunstan at Christ Church Canterbury thelwold in Winchester King thelstan s court Abingdon Glastonbury and Worcester

Empire of Magic Geraldine Heng, 2003-07-13 Empire of Magic offers a genesis and genealogy for medieval romance and the King Arthur legend through the history of Europe s encounters with the East in crusades travel missionizing and empire formation It also produces definitions of race

and nation for the medieval period and posits that the Middle Ages and medieval fantasies of race and religion have recently returned Drawing on feminist and gender theory as well as cultural analyses of race class and colonialism this provocative book revises our understanding of the beginnings of the nine hundred year old cultural genre we call romance as well as the King Arthur legend Geraldine Heng argues that romance arose in the twelfth century as a cultural response to the trauma and horror of taboo acts in particular the cannibalism committed by crusaders on the bodies of Muslim enemies in Syria during the First Crusade From such encounters with the East Heng suggests sprang the fantastical episodes featuring King Arthur in Geoffrey of Monmouth s chronicle The History of the Kings of England a work where history and fantasy collide and merge each into the other inventing crucial new examples and models for romances to come After locating the rise of romance and Arthurian legend in the contact zones of East and West Heng demonstrates the adaptability of romance and its key role in the genesis of an English national identity Discussing Jews women children and sexuality in works like the romance of Richard Lionheart stories of the saintly Constance Arthurian chivalric literature the legend of Prester John and travel narratives Heng shows how fantasy enabled audiences to work through issues of communal identity race color class and alternative sexualities in socially sanctioned and safe modes of cultural discussion in which pleasure not anxiety was paramount Romance also engaged with the threat of modernity in the late medieval period as economic social and technological transformations occurred and awareness grew of a vastly enlarged world beyond Europe one encompassing India China and Africa Finally Heng posits romance locates England and Europe within an empire of magic and knowledge that surveys the world and makes it intelligible usable for the future Empire of Magic is expansive in scope spanning the eleventh to the fifteenth centuries and detailed in coverage examining various types of romance historical national popular chivalric family and travel romances among others to see how cultural fantasy responds to changing crises pressures and demands in a number of different ways Boldly controversial theoretically sophisticated and historically rooted Empire of Magic is a dramatic restaging of the role romance played in the culture of a period and world in ways that suggest how cultural fantasy still functions for us today
