Mayakovsky **Lenin's Electoral Strategy from 1907 to the October Revolution of 1917** August H. Nimtz, 2014-03-13

This book is the first full length study of Lenin's party building project and writings on elections looking in detail at his leadership of the Bolshevik wing of the Russian Social Democratic Labor Party in the four state Dumas from 1906 to the beginning of the First World War **The Ballot, the Streets—or Both** August H. Nimtz, 2019-11-05

Nimtz uncovers in one that attempts to chart a course between plain opportunism and anarchist rejections of the electoral arena. Instead electoral campaigns are seen as crucial for developing political education and organisation and as a key way to measure your forces and communicate with the wider population. As radical left reformist projects exemplified by Sanders and Corbyn once again become a political force and the left has to think about what it means to run for office in a capitalist state it's a good time to look back at how the left has historically conducted such debates **Menace of Our Time** Aaron J. Leonard, 2025

Beginning at the turn of the century and ending only with communism's collapse the US government and major elements in the wider society undertook an unrelenting effort to suppress and criminalize domestic communism. This book tracks those efforts from the state laws of the twenties that imprisoned the fledgling communist leadership, the efforts by police and local authorities against communists as they fought for unions, racial equality and the unemployed, the trials and imprisonment of communist leaders, mid century the extra legal efforts of the Counterintelligence Program COINTELPRO in the sixties and the ongoing relentless attention by the FBI afterward. This is a long overdue book about the most extensive repressive effort ever undertaken by US authorities against a political organization that however problematic was largely operating within the scope of constitutionally mandated freedoms.
