anthropology and political science they examine a range of themes relating to Shi'i belief practice piety and belonging as well as relations between Shi'i and non Shi'i communities Rule, Protest, Identity Peter Robb, David Taylor, 2023-11-06 First published in 1978 *Rural Protest Identity* consists of eleven essays on modern South Asia Its concern is with the diversity of the region to suggest how its study may be enriched by the juxtaposition of various disciplines and in particular through the examination of familiar subjects from less familiar points of view Four papers deal with the ruling of modern India One examines the relationship between the British government and an Indian state one the legal implications of the emergency under Mrs Gandhi and two the role of civil servants in the formation of Indian government policy Four more papers deal with aspects of protest movements one with British Ceylon one with a follower of Gandhi and two with Gandhi himself Three final papers treat questions of identity from literary or linguistic standpoints Two discuss ideas or stereotypes as expressed in famous books and the third considers a linguistic movement in Pakistan This book will be of interest to student of South Asian studies history economics literature and political science *State, Nation and Ethnicity in Contemporary South Asia* Ishtiaq Ahmed, 1998-01-01 Preface **The Shi'a in Modern South Asia** Justin Jones, Ali Usman Qasmi, 2015 Explores various Shi'i communities across South Asia revealing the many forms of Shi'i religion within this important region and examining the responses of these communities to the many transformations of the modern world Provided by publisher

teacher traditions and caste and helps students understand diverse ways of approaching these themes Part Two focuses on some of the key ways in which Buddhism Hinduism Islam and Sikhism in South Asia have been shaped in the modern period Overall the book considers the impact of gender politics and the way religion itself is variously understood The chapters contain a compelling range of primary source materials and a series of geographical and historical snapshots to orientate readers to South Asia Valuable features for students include images task boxes discussion points suggestions for further reading a timeline and glossary of terms

South Asia in World History Marc Jason Gilbert, 2017 Few regions have shaped the world's history as deeply as South Asia The birthplace of three of the world's major religions Hinduism Buddhism and Sikhism the Indian subcontinent has made indelible contributions to the world from foods such as curry and granulated sugar to the performance of meditation and yoga from the architectural magnificence of the Taj Mahal to the binary system of numbers In this accessible book Marc Jason Gilbert takes us on a journey through South Asia's fascinating history starting with the blossoming of the Harappan civilization in the fertile Indus valley more than four thousand years ago Following the routes of the cotton tea and opium trade that connected the West and the East throughout history Gilbert describes South Asia's classical Hindu and Buddhist empires the coming of Islam to South Asia the local impact of the Mongol invasions the splendors of the Mughal Empire the expansion of British colonial dominion and the development of South Asian modern nations Nepal Pakistan Bhutan Bangladesh India the Maldives and Myanmar in the twentieth century The book concludes with a timely reflection on the contradictory face of contemporary South Asia Although the region has produced some of the world's most iconic leaders of non violent protest Mahatma Gandhi Arundhati Roy Mother Teresa and Aung San Suu Kyi severe social divisions and injustice persist in most South Asian countries Simultaneously extraordinary economic growth is deeply transforming South Asian societies and may enable them to rival the United States and China as the world's largest economies Gilbert's transnational perspective illuminates how world historical processes from changes in the environment and the economy to the movement of peoples and ideas have shaped and continue to shape the history of South Asia and its place in the wider world
