Moi Vospominaniia

Richard W. Harrison

Moi Vospominaniia:

The Russian Way of War Richard W. Harrison, 2001 In this first comprehensive treatment of the subject Richard Harrison shows how this theory emerged and developed to become despite radically different political settings and levels of technology essential to the Red Army's victory over Germany in World War II *The Soviet Army's High Commands in War and Peace, 1941-1992* Richard W. Harrison, 2022-07-28 The first full treatment of the unique phenomenon of High Commands in the Soviet Army during World War II and the Cold War The war on the Eastern Front during 1941-45 was an immense struggle running from the Barents Sea to the Caucasus Mountains The vast distances involved forced the Soviet political military leadership to resort to new organizational expedients in order to control operations along the extended front These were the high commands of the directions which were responsible for two or more fronts army groups and along maritime axes one or more fleets In all five high commands were created along the northwestern western southwestern and North Caucasus strategic directions during 1941-42 However the highly unfavorable strategic situation during the first year of the war as well as interference in day to day operations by Stalin severely limited the high commands effectiveness As a consequence the high commands were abolished in mid 1942 and replaced by the more flexible system of supreme command representatives at the front A High Command of Soviet Forces in the Far East was established in 1945 and oversaw the Red Army's highly effective campaign against Japanese forces in Manchuria The Far Eastern High Command was briefly resurrected in 1947 as a response to the tense situation along the Korean peninsula and the ongoing civil war in China but was abolished in 1953 soon after Stalin's death Growing tensions with China brought about the recreation of the Far Eastern High Command in 1979 followed a few years later by the appearance of new high commands in Europe and South Asia However these new high commands did not long survive the collapse of the Soviet Union in 1991 and were abolished a year later The book relies almost exclusively on Soviet and post communist archival and other sources and is the first unclassified treatment of this subject in any country East or West **V.F. Odoevsky** Neil Cornwell, 2015-11-19 Odoevsky 1804-1869

Russia's Rulers Under the Old Regime Dominic Lieven, 1991-02-06 Who were the members of the Russian ruling elite during the reign of the last Tsar before the Revolution How did high level politics operate in Imperial Russia's last years In this highly original book Dominic Lieven probes deeply into the lives of the 215 men appointed by Nicholas II to the State Council which contained all important members of the Russian governmental system of that era Basing his research on previously untouched Soviet archival sources Dominic Lieven describes the social ethnic educational and career backgrounds of these men and he explores how their mentalities were shaped what their political views were and how their attitudes and opinions were influenced by their differing backgrounds and careers Lieven looks not only forward to the causes of the collapse of the old regime but in his introductory chapter backward as well tracing the history of the Russian ruling elite from its earliest origins and making comparisons with the ruling elite of other societies His conclusions about the resilience of the old aristocratic Russian families and the operation of their self protective career advancing network are striking and original Lieven's book serves many purposes It tells us a great deal about the balance of power

between the bureaucrats and their monarchs it brings to life the members of the last ruling elite and it reveals interesting information about the role and personality of the Emperor Nicholas II By making regular comparisons with aristocratic elites elsewhere it sets the Russian experience in a broader European context And by looking at Russia's problems through the eyes of its ruling aristocracy it enables us to understand a good deal that is otherwise incomprehensible about the coming of the Russian Revolution

Russian Genre Painting in the Nineteenth Century Rosalind Polly Blakesley, 2000 This book addresses the little studied area of Russian genre painting in the first three quarters of the nineteenth century Rosalind Gray begins by examining artistic patronage and published texts which engaged with the visual arts in order to illustrate the context in which Russian artists were working Five major painters Venetsianov Bryullov Ivanov Fedotov and Perov are then discussed in detail Dr Gray identifies the vital contribution which these artists made to Russian intellectual life as genre painting was appropriated as a medium in the dissemination of popular values and social change At the same time the relationship between Russian and European art is explored The book demonstrates that far from being a self

contained movement Russian genre painting instead engaged in a fluid and complex dialogue with the art of the West
