## **Passport To Taxfree International Living:**

Passport to Tax-Free International Living Adam Starchild,2000-04-01 If you are like most people you undoubtedly feel that you have paid enough taxes during your career to last several lifetimes and you certainly don't relish the idea of paying taxes once you are retired You may not have to There are places around the world offering outstanding lifestyles that you can enjoy during your retirement or even semi retirement where you may considerably reduce the taxes you would expect to pay in your home country In some places you may be able to eliminate income taxes entirely The opportunities exist they are even promoted by some jurisdictions These places may be thought of as retirement havens which is the subject of this book Simply put a retirement haven is a country jurisdiction or city that offers special tax incentives for their residents While such places may be attractive to various individuals they are especially so for retirees who wish to maintain their assets in the safest and most efficient manner possible Unquestionably one of the most effective methods for maintaining assets during the retirement years is to reduce your tax burden The author does not endorse any retirement haven over another Included in the book are places around the world that may prove suitable for individuals who are retired or are about to retire and who wish to significantly reduce their tax burden in a land that is pleasant safe and where they can enjoy a superior style of life The golden years can truly be golden with proper planning and wise decision making You may find that you wish not to move to another part of the world during your retirement or that you don't wish to live in any particular place Perhaps you wish to travel the world perpetually There is a term for this Perpetual Traveler Indeed there are people who have retired and bought yachts that they use as an ocean going mobile home They visit ports and magnificent cities throughout the world remaining for the length of time the country allows which may be several months and then sailing to the next destination By not being a resident of a country you are not liable for taxes The sophistication of personal computers and internet data links can keep you in touch with the world and informed about your investments No two retirement havens are alike Each has unique characteristics that individuals must evaluate according to their own likes dislikes and expectations What this book does is summarize the MANY countries that offer a significant escape from taxes Retirement need not be a mundane affair in which you watch your hard earned savings and investments dwindle away due to a high cost of living and burdensome taxes With the proper planning it can be a time of new opportunities and enjoyment as well as a time in which you keep more of your assets by reducing your cost of living and taxes International Living ,2005 *International Tax Information* ,1993

grand hotel and a poignant gripping meditation on suicide and voyeurism The poster is new I notice it right away taped to a utility pole Beneath the word Missing printed in a bold high impact font are two sepia toned photographs of a man dressed in a bow tie and tux Most people would keep walking Maybe they d pay a bit closer attention to the local news that evening Mikita Brottman spent ten years sifting through the details of the missing man s life and disappearance and his purported suicide by jumping from the roof of her own apartment building the Belvedere As Brottman delves into the murky circumstances surrounding Rey Rivera s death which begins to look more and more like a murder she contemplates the nature of and motives behind suicide and uncovers a haunting pattern of guests at the Belvedere when it was still a historic hotel taking their own lives on the premises Finally she fearlessly takes us to the edge of her own morbid curiosity and asks us to consider our own darker impulses and obsessions
