Globalisation and Governance in the Pacific Islands Stewart Firth,2006-12-01 The Pacific Islands are feeling the effects of globalisation Free trade in sugar and garments is threatening two of Fiji s key industries At the same time other opportunities are emerging Labour migration is growing in importance and Pacific governments are calling for more access to Australia s labour market Fiji has joined Samoa Tonga Tuvalu and Kiribati as a remittance economy with thousands of its citizens working overseas Meantime Papua New Guinea and Solomon Islands grapple with an older kind of globalisation in which overseas companies exploit mineral and forest resources The Pacific Islands confront unique problems of governance in this era of globalisation The modern democratic state often fits awkwardly with traditional ways of doing politics in that part of the world Just as often politicians in the Pacific exploit tradition or invent it to serve modern political purposes The contributors to this volume examine Pacific globalisation and governance from a wide range of perspectives They come from Papua New Guinea Solomon Islands Hawai i

Pacific Women in Politics Kerry Baker, 2019-04-30 Women are significantly underrepresented in politics in the Pacific Islands given that only one in twenty Pacific parliamentarians are female compared to one in five globally A common but controversial method of increasing the number of women in politics is the use of gender quotas or measures designed to ensure a minimum level of women's representation In those cases where quotas have been effective they have managed to change the face of power in previously male dominated political spheres How do political actors in the Pacific islands region make sense of the success or failure of parliamentary gender quota campaigns To answer the question Kerry Baker explores the workings of four campaigns in the region In Samoa the campaign culminated in a safety net quota to guarantee a minimum level of representation set at five female members of Parliament In Papua New Guinea between 2007 and 2012 there were successive campaigns for nominated and reserved seats in parliament without success although the constitution was amended in 2011 to allow for the possibility of reserved seats for women In post conflict Bougainville women campaigned for reserved seats during the constitution making process and eventually won three reserved seats in the House of Representatives as well as one reserved ministerial position Finally in the French Pacific territories of New Caledonia French Polynesia and Wallis and Futuna Baker finds that there were campaigns both for and against the implementation of the so called parity laws Baker argues that the meanings of success in quota campaigns and related notions of gender and representation are interpreted by actors through drawing on different traditions and renegotiating and redefining them according to their goals pressures and dilemmas Broadening the definition of success thus is a key to an understanding of realities of quota campaigns *Pacific Women in Politics* is a pathbreaking work that offers an original contribution to gender relations within the Pacific and to contemporary Pacific politics

The Plural Practice of Adoption in Pacific Island States Jennifer Corrin, Sue Farran, 2018-12-11 This book deals with adoption laws and practices in small island developing states in the Pacific It commences with an introductory chapter giving an overview of relevant laws and practices and pulling together the common themes and issues raised in the book Each of the following chapters deals with adoption law and practice in a small South Pacific country The countries in question all have plural legal systems with systems of adoption and its closest customary law equivalent operating side by side In most cases there is an insufficiently developed relationship between the two systems which has resulted in a number of problems Additionally international law adds another layer of complexity Size and remoteness in the small states under discussion have a profound impact on local practices

East Asia's Demand for Energy, Minerals and Food Kate Barclay, Graeme Smith, 2016-02-05 China Japan and South Korea's international relations are shaped by the fact that all three countries are significant importers of resources This book brings together work on specific aspects of the politics of resources for each of these countries regionally and internationally There are some similarities in the approaches taken by all these three For example their development assistance shares a focus on infrastructure building

and reluctance to purposefully influence domestic politics However there are also significant differences due in large part to the individual nature of the states as international actors China has significant domestic supplies of resources while Japan and Korea are net importers China s size also marks it out as different as does its state socialist history and continuing authoritarian state One of the key issues to understanding contemporary resource politics in Northeast Asia is that Western dominance of the world order is currently declining In some cases Northeast Asian approaches to resources are seen as being mercantilist In other cases Northeast Asian powers are seen as replacing Western powers in exploiting resource rich developing countries This book gives readers an informed view of this very important issue in contemporary international relations This book was published as a special issue of Asian Studies Review **Offshore** Madeline Gleeson, 2016-05-01

What has happened on Nauru and Manus since Australia began its most recent offshore processing regime in 2012 This essential book provides a comprehensive and uncompromising overview of the first three years of offshore processing since it recommenced in 2012 It explains why offshore processing was re-established what life is like for asylum seekers and refugees on Nauru and Manus what asylum seekers refugees and staff in the offshore detention centres have to say about what goes on there and why the truth has been so hard to find In doing so it goes behind the rumours and allegations to reveal what is known and what still is not known about Australia s offshore detention centres
