Pacific Bridges The New Immigration From Asia And The Pacific Islands:

Pacific Bridges, 1987 **Pacific Bridges** James T. Fawcett, Benjamin V. Cariño, 1987 **Asians and Pacific Islanders in the United States** Herbert Barringer, Robert W. Gardner, Michael J. Levin, 1993-02-23

Asians and Pacific Islanders in the United States examines in comprehensive detail the most rapidly growing and quickly changing minority group in the United States. Once a small population, this group is now recognized by official census counts and by society as a diverse people comprised of Japanese, Chinese, Koreans, Filipinos, Hawaiians, Samoans, and many other heritages. However, the conception that Asians are a single and successful model minority still exists, though they are in fact a complex and multidimensional people still struggling in the pursuit of the American dream. A major addition to the literature on recent immigration, the book is lucidly written by three demographers eager to convey their findings and analyses to general readers as well as to fellow professionals. It provides easily accessible information and useful commentary, making it an excellent resource for anyone interested in those groups now lumped together under a single Census Bureau rubric. Choice: This is a demographer's delight. The major question addressed in this book is: How well are the new Asian immigrants adapting to American society? Barringer, Gardner, and Levin cogently argue and convincingly demonstrate that the response to the question is much more complex than suggested by articles in the popular press. An important book and highly recommended. Contemporary Sociology. For the real scoop on the state of Asian America, turn to the Russell Sage Foundation's excellent *Asians and Pacific Islanders of the United States*. The best demographic overview it makes a strong case for Asian American success without overlooking genuine problems. Reason: a comprehensive study of the size, diversity, and complexity of the Asian and Pacific Islander populations based on the 1980 census and subsequent mid-census assessments prior to the 1990 census sheds a particularly interesting light on the shifting nature of recent Asian and Pacific Islander immigration and the related but often undocumented secondary movement of populations after arrival. The Annals of the American Academy of Political and Social Science. A Volume in the Russell Sage Foundation Census Series. *Globalisation and Governance in the Pacific Islands* Stewart Firth, 2006-12-01. The Pacific Islands are feeling the effects of globalisation. Free trade in sugar and garments is threatening two of Fiji's key industries. At the same time, other opportunities are emerging. Labour migration is growing in importance, and Pacific governments are calling for more access to Australia's labour market. Fiji has joined Samoa, Tonga, Tuvalu, and Kiribati as a remittance economy with thousands of its citizens working overseas. Meantime, Papua New Guinea and Solomon Islands grapple with an older kind of globalisation in which overseas companies exploit mineral and forest resources. The Pacific Islands confront unique problems of governance in this era of globalisation. The modern democratic state often fits awkwardly with traditional ways of doing politics in that part of the world. Just as often, politicians in the Pacific exploit tradition or invent it to serve modern political purposes. The contributors to this volume examine Pacific globalisation and governance from a wide range of perspectives. They come from Papua New Guinea, Solomon Islands, Hawai'i

the Federated States of Micronesia Samoa Fiji New Zealand and Jamaica as well as Australia Publisher's description
