Pacification Of Melanesia:

The Pacification of Melanesia ,1977 **Religions of Melanesia** Garry Trompf,2006-09-30 Melanesia boasts over one quarter of the world's distinct religions and presents the most complex religious panorama on earth. The region is famous for its unusual new religious movements that have adapted traditional beliefs to modernity in surprising ways. As the first bibliographical survey to comprehensively cover the entire region, *Religions of Melanesia* is an invaluable research aid for anyone interested in this growing field. Trompf's work is a complete listing of scholarly publications and provides readable and concise descriptions that will clearly guide the researcher toward the most relevant sources. This survey covers 2188 entries organized topically and regionally. Trompf covers such subjects as traditional and modern belief systems and the emergent indigenous Christianity that has taken root. Regional coverage includes Irian Jaya, Papua New Guinea, Solomon Islands, Vanuatu, New Caledonia, and Fiji.

From Primitive to Postcolonial in Melanesia and Anthropology Bruce Knaft,2025-10-01 What have anthropologists taught us about Melanesia, one of anthropology's most important and intensively studied world regions? In this book, Professor Bruce Knaft draws together and critically reanalyzes what we know about major features of Melanesian cultural history: warfare and politics, gender, bodily practices, and spirituality as discerned from more than a century of academic study. *From Primitive to Postcolonial in Melanesia and Anthropology* is arguably the most comprehensive single reassessment of Melanesia as an ethnographic world area to have been published in several decades. Written for students as well as professional scholars, this work further broadens our understanding by analyzing the history of Melanesian ethnography and relating this history to the larger relationship between Melanesia as a contemporary world area and anthropology as a field of contemporary human study. Bruce M. Knaft is Professor of Anthropology, Emory University, and the author of three previous books as well as some thirty journal articles and chapters. Knaft's interests span a wide range of issues in the anthropology of Melanesia, and he is articulate with general issues of cultural theory and anthropological history.

Melanesians and Missionaries Darrell L. Whiteman,2002-05-10 In *Melanesians and Missionaries*, one of the best of the younger generation of missionary anthropologists demonstrates that a commitment to the missionary enterprise on the part of a solid scholar facilitates rather than hinders the anthropological study of a missionary topic. This is better anthropology because Dr. Whiteman is able to probe more deeply into his topic and demonstrates that he understands and appreciates both Melanesians and missionaries. Charles H. Kraft, Professor of Anthropology, School of World Mission, Fuller Theological Seminary, Pasadena.

Statebuilding and State Formation in the Western Pacific Matthew Allen, Sinclair Dinnen,2018-04-19 This book provides a rigorous and cross-disciplinary analysis of this Melanesian nation at a critical juncture in its post-colonial and post-conflict history, with contributions from leading scholars of Solomon Islands. The notion of transition as used to describe the recent drawdown of the decade-long Regional Assistance Mission to Solomon Islands (RAMSI) provides a departure point for considering other transformations social, political, and economic under way in

the archipelagic nation Organised around a central tension between change and continuity two of the book's key themes are the contested narratives of changing state society relations and the changing social relations around land and natural resources engendered by ongoing processes of globalisation and urbanisation Drawing heuristically on RAMSI's genesis in the state building moment that dominated international relations during the first decade of this century the book also examines the critical distinction between state building and state formation in the Solomon Islands context It engages with global scholarly and policy debates on issues such as peacebuilding state building legal pluralism hybrid governance globalisation urbanisation and the governance of natural resources These themes resonate well beyond Solomon Islands and Melanesia and the book will be of interest to a wide range of students scholars and development practitioners This book was previously published as a special issue of The Journal of Pacific History

Leadership and Change in the Western Pacific R. Feinberg, K. A. Watson-Gegeo, 2021-01-07 An ethnographic exploration of the rise of new forms of leadership at community and national levels with islanders are synthesising traditional and Western models

Violence in Pacific Islander Traditional Religions Garry Trompf, 2022-01-27 An Element on the role of violence in the traditional religions of the Pacific Islands Melanesia Micronesia and Polynesia and on violent activity in islander religious life after the opening of Oceania to the modern world This work covers such issues as tribal warfare sorcery and witchcraft traditional punishment and gender imbalance and moves on to consider reprisals against foreign intruders in the Pacific and the continuation of old types of violence in spite of massive socio religious change

Violence and Religious Change in the Pacific Islands Garry Trompf, 2023-08-31 This Element considers patterns of violent behaviour among the inhabitants of the Pacific Islands while their vast region has been undergoing religious change overwhelmingly toward Christianity Major topics researched are religion based violent reactions to early intruders including missionaries new religious movements resisting unwanted interference including cargo cults anti colonial rebellions inspired by spiritual impetuses both indigenous and introduced and the persistence of traditional modes of violence tribal fighting sorcery and tough punishments adapted to altered conditions

Tradition and Christianity Ben Burt, 2021-09-01 Burt studies the effects of the 19th century labour trade colonial subjugation and the subsequent Christian conversion He examines the anti colonial Maasina Rule movement of the 1940s and finally illustrates the subsequent efforts of Kwara ae leaders to regain their self determination and to reaffirm the values of tradition under Christianity The Kwara ae example of colonialism and Christianity is part of the broader experience of Melanesia and of other peoples in the Third World who once lived a tribal life The detailed local focus based on a year of fieldwork provides valuable evidence essential to a wider comparative analysis of colonial history and the continuing development of indigenous Christianity from an anthropological and a historical perspective Tradition and Christianity explores how and why a Pacific Islands people fiercely attached to the tradition of their ancestors have transformed their society by changing their religion
