Pack Up the Moon Rachael Herron,2014 *Splinters of Light* Rachael Herron,2015-03-03 From the acclaimed author of Pack Up the Moon comes a poignant and beautiful novel about love loss and the unbreakable bonds of family particularly those between mothers daughters and sisters Ten years ago Nora Glass started writing essays about being a single mother of a six year old daughter Her weekly column made her a household name and over the years her fans have watched Ellie grow from a toddler to a teenager But now Nora is facing a problem that can't be overcome Diagnosed with a devastating disease that will eventually take away who she is she is scared for herself but even more frightened about what this will mean for her sixteen year old daughter Now Nora has no choice but to let go of her hard won image as a competent self-assured woman and turn to the one person who has always relied on her her twin sister Mariana Nora and Mariana couldn't be more different from one another and they've always had a complicated relationship But now the two sisters will have to summon the strength to help them all get through a future none of them could have ever imagined while uncovering the joy and beauty that was always underneath **Writing in Action** Paul Mills,1996 Writing in Action provides a step by step practical

guide to the process of writing Although the emphasis is on creative writing fiction poetry and drama it also covers autobiographical writing and the writing of reports and essays Because this is a book about process rather than product Writing in Action also looks at the practice of adaptation and editing This book is crammed with practical suggestions and self-evaluation exercises as well as invaluable tips on style sentence structure punctuation and vocabulary It is an ideal course text for students and an invaluable guide to self-study *Stylistics and the Teaching of Literature* H.G.

Widdowson,2014-06-06 This volume forms part of the Applied Linguistics and Language Study collection that looks at the field of analysing and appreciating literary texts First published in 1975 this text makes a considerable contribution to extending our view of the principles underlying language teaching and curriculum design The author begins by

distinguishing the idea that discipline from the pedagogic subject in order to demonstrate that stylistics is Janus like in the way it can be treated for example at school or university as a way from linguistics to literary study or the reverse To understand this bidirectionality he explains distinctions between the linguist s text and the critic s messages by introducing the concept of discourse as a means through which to understand the communicative value of passages of language

Stylistics in a Second Language Context Rubina Kamran,2009-06 In most institutions thee study of second language literary works has become a dead exercise of learning facts figures and critical opinions about those works The author feels that the judicious use of approaches suggested in stylistics would help second language students to judge things for themselves in a context not naturally attuned to the underlyng assumptions of that likterature These things would include the use of language thus helping the ESL learner to develop an understanding of the dynamics of the language The Door of Death Wide Open Jules Guyard,1925
