Pacos Memories:

Memory, Allegory, and Testimony in South American Theater Ana Elena Puga, 2008-05-05 In this timely study Puga compares contemporary Southern Cone playwrights and their aesthetic strategies for subverting ideologies of dictatorship. In the process she traces the shaping of a resistant identity in memory, its direct expression in testimony, and its indirect elaboration in two different kinds of allegory.

Discursive Remembering Lucas M. Bietti, 2014-10-14 This book aims at building a bridge between the social and political aspects of remembering and the cognitive and discourse processes driving such activities. By analyzing these cognitive and discursive processes Bietti explores practices of individual and collective remembering in institutional and private settings in relation to periods of political violence in Argentina. This book begins to fill the conceptual gap between cognitive oriented approaches to remembering that draw conclusions about how memory functions in the mind without a detailed discourse analysis of the communicative interaction in which this process unfolds and the discourse and pragmatic oriented approaches that are mainly interested in analyzing the rhetorical features of conversational remembering. In some cases disregarding that there are underlying cognitive mechanisms that drive the construction of discourses about past experiences. The empirical analysis shows that individual and collective remembering in relation to periods of political violence in Argentina vary in pragmatic ways due to the fact that these accounts of the past were constructed with reference to the communicative situation. Thus this book also aims at shedding new light on the current practices of commemoration and remembrance related to periods of political violence in Argentina in public and private settings.

The Memory Hive Laura Otis, 2020-12-03 While reeling from the after effects of a painful relationship with a married man, English professor Cara Heming risks everything and marries Diego, a Spanish man she has just met. As she helps her new husband adjust to life in New York, Cara struggles to balance her demanding job and the needs of her demented mother and depressed father. Frustrated by Cara's focus on her parents and her work, Diego transforms into an angry, jealous, and paranoid partner. Far from perfect herself, puritanically inclined Cara harbors biases that inflame Diego's rage. When he and Cara's mother grow increasingly vicious, Cara must join forces with her timid father, who surprises her. Trying to find her way out of the darkness, Cara must fight to survive the consequences of her mistakes. *The Memory Hive* is the compelling tale of a woman's journey of tragic errors, terrifying abuse, and growing resilience after she marries a Spanish man she barely knows.
