**The Celluloid Atlantic** Saverio Giovacchini, 2025-02-01 Offers a fresh look at American and Italian cinema in the postwar period The Celluloid Atlantic changes the way we look at American and Italian cinema in the postwar period In the thirty years following World War II American and Italian film industries came to be an integrated transnational unit rather than two separate nation based entities Written in jargon free prose and based on previously unexplored archival sources this book revisits the history of Neorealism World War II combat cinema the Western all Italiana and the career of John Kitzmiller the African American star who made Italy his home and was the first person of color to win the Best Actor Award at the Cannes Film Festival The Celluloid Atlantic makes the trailblazing argument that culturally hybrid genres like the so called spaghetti Western were less the exceptions than the norm Giovacchini argues that the waning of the Celluloid Atlantic in the early 1970s was due to the economic policies of the first Nixon administration specifically its important but largely neglected Revenue Act of 1971 as well as to the ideological debates between Europeans and Americans that intensified during the American intervention in Vietnam

**Cesare Zavattini** Cesare Zavattini, 2021-01-01 Cesare Zavattini Selected Writings offers for the first time in English a substantive selection of the Italian screenwriter s writings across two volumes Through translation and detailed cultural and contextual commentary translator and editor David Brancalone traces not only Zavattini s theory of the screen but also his experimentation in new film practices including the flash film film lampo the inquiry film film inchiesta cinema as encounter cinema d incontro the diary film film diario the confessional film film confessione and the grass roots community film cinema insieme or cinema di tanti per tanti

**Sanctioning Modernism** Vladimir Kulic, Timothy Parker, Monica Penick, 2014-06-01 In the decades following World War II modern architecture spread around the globe alongside increased modernization urbanization and postwar reconstruction and it eventually won widespread acceptance But as the limitations of conventional conceptions of modernism became apparent modern architecture has come under increasing criticism In this collection of essays experienced and emerging scholars take a fresh look at postwar modern architecture by asking what it meant to be modern what role modern architecture played in constructing modern identities and who sanctioned or was sanctioned by modernism in architecture This volume presents focused case studies of modern architecture in three realms political religious and domestic that address our very essence as

human beings Several essays explore developments in Czechoslovakia Romania and Yugoslavia and document a modernist design culture that crossed political barriers such as the Iron Curtain more readily than previously imagined Other essays investigate various efforts to reconcile the concerns of modernist architects with the traditions of the Roman Catholic Church and other Christian institutions And a final group of essays looks at postwar homebuilding in the United States and demonstrates how malleable and contested the image of the American home was in the mid twentieth century These inquiries show the limits of canonical views of modern architecture and reveal instead how civic institutions ecclesiastical traditions individual consumers and others sought to sanction the forms and ideas of modern architecture in the service of their respective claims or desires to be modern

A Story of Six Rivers Peter Coates,2013-06-01 Many of the world s major cities sprang up on the banks of rivers Used for water food irrigation transportation and power rivers sustain life and connect the world together but most of us think of them simply as waterways that must be crossed on the way to another place Using four European and two North American rivers as examples A Story of Six Rivers considers the place of rivers in our world and emphasizes the inextricable links between history culture and ecology Peter Coates explores six rivers chosen as examples of the types of rivers found on the planet the Danube the second longest river in Europe the Spree which flows through Berlin the Po which cuts eastward across northern Italy the Mersey in northwest England the Yukon which runs through Canada and Alaska and the Los Angeles in California Creating a series of river biographies Coates gives voice to each of these bodies of water exploring how rivers nurture us provide cultural and economic opportunities and pose threats to our everyday lives He challenges recent narratives that paint rivers as the victims of abuse pollution and damage at the hands of humans focusing on change rather than devastation Describing how humans and rivers form a symbiotic and sometimes mutually destructive relationship Coates argues that rivers illustrate the limits of human authority and that their capacity to inspire us is as strong as our ability to pollute them An intimate portrait of the way these bodies of water inform our lives A Story of Six Rivers will make us reconsider the streams and tributaries we traverse each day
