Winston S. Churchill: Never Despair, 1945-1965 Martin

Gilbert,2015-04-06 The final volume of the acclaimed official biography A meticulously detailed and annotated account of Churchill s declining years A contemporary classic Foreign Affairs The eighth and final volume of Winston S Churchill s official biography begins with the defeat of Germany in 1945 and chronicles the period up to his death nearly twenty years later It sees him first at the pinnacle of his power leader of a victorious Britain In July 1945 at Potsdam Churchill Stalin and Truman aimed to shape postwar Europe But upon returning home was thrown out of office in the general election Though out of office Churchill worked to restore the fortunes of Britain s Conservative Party while warning the world of Communist ambitions urging the reconciliation of France and Germany pioneering the concept of a united Europe and seeking to maintain the close link between Britain and the United States In October 1951 Churchill became prime minister for the second time The Great Powers were navigating a precarious peace at the dawn of the nuclear age With the election of Eisenhower and the death of Stalin he worked for a new summit conference to improve East West relations but in April of 1955 ill health and pressure from colleagues forced him to resign In retirement Churchill completed his acclaimed four volume History of the English Speaking Peoples and watched as world conflicts continued still convinced they could be resolved by statesmanship Never despair remained his watchword and his faith until the end A milestone a monument a magisterial achievement rightly regarded as the most comprehensive life ever written of any age Andrew Roberts historian and author of The Storm of War The most scholarly study of Churchill in war and peace ever written Herbert Mitgang The New York Times

Space Has No Frontier John Bromley-Davenport,2014-01-01 An exploration of Lovell s life and achievements in the scientific and political context of the time The extraordinary life of Bernard Lovell began before World War I and his story encompasses many of the great events of the last 100 years World War II the invention of radio astronomy the space race the Moon landings the exploration of the solar system the Cold War the Cuban missile crisis and the defense of Britain against nuclear attack It can now be revealed that he was also a spy The great radio telescope which Lovell built became and remains one of the most important scientific instruments in the world The Jodrell Bank Observatory

and the Lovell Telescope have held their place at the frontier of research for 55 years His legacy remains great as can be seen from the extensive media coverage and personal tributes that his death in 2012 attracted all over the world With the 70th anniversaries of many wartime events in which he played a crucial role as well as the recent declassification of information relating to his activities as an agent in the Cold War this biography is sure to have a broad and timely interest
