## **Paideia The Ideals Of Greek Culture Volume 1:**

**Paideia: The Ideals of Greek Culture: Volume I. Archaic Greece: The Mind of Athens** Werner Jaeger, 1965 Werner Jaeger's classic three volume work originally published in 1939 is now available in paperback Paideia the shaping of Greek character through a union of civilization tradition literature and philosophy is the basis for Jaeger's evaluation of Hellenic culture Volume I describes the foundation growth and crisis of Greek culture during the archaic and classical epochs ending with the collapse of the Athenian empire The second and third volumes of the work deal with the intellectual history of ancient Greece in the Age of Plato the 4th century B C the age in which Greece lost everything that is valued in this world state power liberty but still clung to the concept of paideia As its last great poet Menander summarized the primary role of this ideal in Greek culture when he said The possession which no one can take away from man is paideia Consilio et Animis Antoinette M. Ryan, 2012-10-01 Once the province and tool of elite learning in American society and the core of the Humanities the study of the Classics now occupies a tenuous place on the margins of curriculum in most public schools Administrators of schools and districts with limited resources teachers and students of ancient Greek and Roman culture and language confront many questions regarding the relevance and utility of including the Classics in education that must address modern challenges In this book Toni Ryan argues that the Classics provide students with a uniquely wide range of opportunities for critical examination of the connections among language cultural constructions of power and knowledge and oppression in society She proposes rationale for incorporating a critical approach to classical studies in American public schools as a path to exploring social justice issues Critical pedagogy in Classics offers a platform for illuminating paths for critical awareness reflection and action in the quest to understand and address the broad concerns of social justice Ryan asserts the potential for education in Classics to be reconstructed to empower and emancipate particularly through the exploration of philosophical questions that have been pondered in classical cultures and in classical studies since antiquity For public school educators and students the examination of classical language and culture allows us to safely explore critical questions in an admittedly unsafe world Those questions that are eternally ours that are eternally centered in the human condition are the province of Classics **Critics of State Education** George H. Smith, Marilyn Moore, 2017-10-10 Since at least the days of ancient Sparta governments have sought to control the educational process By influencing the education of their citizens governments hope to produce loyal subjects Yet everywhere at all times men and women of independent mind and will have resisted and opposed state education Critics of State Education A Reader surveys this important movement bringing together influential historical texts of thinkers great and small In readings from Plato's Athens to Priestley's Britain George H Smith and Marilyn Moore explore the value of liberating education from the influence and control of government *Negation, Subjectivity, and The History of Rhetoric* Victor J. Vitanza, 1997-01-01 Vitanza introduces his book with the questions What Do I Want Wanting to Write This our Book What Do I Want Wanting You to Read This our Book Thereafter in

a series of chapters and excursions and as schizographer of rhetorics erotics he interrogates three recent influential historians of Sophists Edward Schiappa John Poulakos and Susan Jarratt and how these historians as well as others represent Sophists and in particular Isocrates and Gorgias under the sign of the negative Vitanza concludes rather rebegins in a sophistic performative excursus with a prelude to future anterior histories of rhetorics Vitanza asks What will have been anti Oedipalized de negated hysterics of rhetorics What will have they looked like sounded read like Or to ask affirmatively what then will have libidinalized hysterics of rhetorics looked sounded read like

**Body Technologies in the Greco-Roman World** Maria Gerolemou, Giulia Maria Chesi, 2023-11-16 A collection of papers that introduces the notion of the technosoma techno body into discussions on the representations of the body in classical antiquity By applying the category of the technosoma to the natural body this volume explicitly narrows down the discussion of the technical and the natural to the physiological body In doing so the present collection focuses on body technologies in the specific form of beautification and body enhancement techniques as well as medical and surgical treatments The volume elucidates two main points Firstly ancient techno bodies show that the categories of gender and sexuality are at the core of the intersection of the natural and the technical and intersect with notions of race age speciesism class and education and disability Secondly the collection argues that new body technologies have in fact a very ancient history that can help to address the challenges of contemporary technological innovation To this end the volume showcases the intersection of natural bodies with technology gender sexuality and reproduction On the one hand techno bodies tend to align with normative ideas about gender and sexuality On the other hand body modification and or enhancement techniques work hand in hand with economic and political power and knowledge thus they often produce techno bodies that are shaped according to individual needs i e according to a certain lifestyle Consequently techno bodies threaten to alter traditional ideas of masculinity femininity male and female sexuality and beauty

**Culture: A Drama of Nature and Person** Piotr Jaroszyński, 2023-12-11 This monograph represents a rare classical philosophical approach to culture It is grounded in philosophical realism and emphasizes personalism as a true achievement of philosophical anthropology Employing the apparatus of the history of philosophy science and religion the author demonstrates the immense scope of the drama unfolding within human culture In a classical approach evaluation is inevitable with regard to various theories of culture human culture as such and all its main actors Jaroszyński's work shows that realistic study of what it means to be a human person leads to the most comprehensive understanding of culture as it is and should be

**Aesthetics and the Literature of Ideas** François Jost, Melvin J. Friedman, 1990 This collection explores the aesthetic principles that pervade all sectors of human activities involving

intellectual perceptiveness The three areas of investigation are aesthetics and rationality in the realm of literary history and criticism the genres and meanings in the metamorphosis of the arts and aesthetics in literature society and politics

**Apollonius' Argonautica** M.M. DeForest, 2018-07-17 The Argonautica was said to have been the source of a quarrel between Apollonius who wrote what looks like an epic poem and Callimachus who denounced the writing of epic poetry Although the quarrel did not take place in the real world its issue controls the poem The heroes are determined to take part in a Homeric epic which the Callimachean narrator refuses to write Drawing on the methods of modern literary theorists but eschewing the jargon DeForest shows how Apollonius uses the literary dispute in Alexandria to give a three dimensional quality to his poem The amusing conflict between heroes and narrator turns serious when the levels of narrative split apart and Medea steps into the gap as a free standing figure the forerunner of powerful women in fiction *Learning and Persuasion in the German Middle Ages* Ernst Ralf Hintz, 2014-01-14 Augustine as a point of departure This study examines Christian education in early vernacular texts of the German Middle Ages on the basis of Latin traditions of learning and teaching from Late Antiquity The point of departure is Augustine's De doctrina christiana in which Augustine not only consolidated Christian and pagan traditions but combined them into a program of Christian education Illuminates continuity of traditions The author considers the continuity of these traditions in the late sixth century in Gregory the Great's treatise on pastoral care Regula pastoralis the early ninth century work of Hrabanus Maurus De institutione clericorum in the Old High German poem the Muspilli also from the ninth century then in the Middle High German works the Memento Mori from the late 11th century and the poems of Frau Ava and Von den Letzten Dingen from the early and late 12th century respectively Translations of the Latin and early German texts generally appear together with a version of their original texts A bibliography and index conclude the volume
