caring for her parents many of the problems often are not just old age Further the real issue is not that the answers to ease suffering don't exist Rather what we need to know is generally not available to the general public Even more concerning many health care professionals have had little or no training in the care of older adults The Gift of Caring hopes to change that It is written to give empowerment to all older adults family members and health care professionals by sharing much needed knowledge and practical strategies The Gift of Caring shows the best ways to advocate for our parent's health care and our own by giving us the tools we need to insist upon the better way Your parents and you deserve the best healthcare as you age But there are so many reasons why that's not happening You can change that
