Provided by publisher **Tintoretto's Difference** Kamini Vellodi, 2019-02-27 A provocative account of the philosophical problem of difference in art history Tintoretto's Difference offers a new reading of this pioneering 16th century painter drawing upon the work of the 20th century philosopher Gilles Deleuze Bringing together philosophical art historical art theoretical and art historiographical analysis it is the first book length study in English of Tintoretto for nearly two decades and the first in depth exploration of the implications of Gilles Deleuze's philosophy for the understanding of early modern art and for the discipline of art history With a focus on Deleuze's important concept of the diagram Tintoretto's Difference positions the artist's work within a critical study of both art history's methods concepts and modes of thought and some of the fundamental dimensions of its scholarly practice context tradition influence and fact Indicating potentials of the diagrammatic for art historical thinking across the registers of semiotics aesthetics and time Tintoretto's Difference offers at once an innovative study of this seminal artist an elaboration of Deleuze's philosophy of the diagram and a new avenue for a philosophical art history *Space, Image, and Reform in Early Modern Art* Arthur J. DiFuria, Ian Verstegen, 2021-11-08 The essays in *Space Image and Reform in Early Modern Art* build on Marcia Hall's seminal contributions in several categories crucial for Renaissance studies especially the spatiality of the church interior the altarpiece's facture and affectivity the notion of artistic style and the controversy over images in the era of Counter Reform Accruing the advantage of critical engagement with a single paradigm this volume better assesses its applicability and range The book works cumulatively to provide blocks of theoretical and empirical research on issues spanning the function and role of images in their contexts over two centuries Relating Hall's investigations of Renaissance art to new fields *Space Image and Reform* expands the ideas at the center of her work further back in time further afield and deeper into familiar topics thus achieving a cohesion not usually seen in edited volumes honoring a single scholar Low and High Style in Italian Renaissance Art Patricia Emison, 2013-10-28 During the later 15th and in the 16th centuries pictures began to be made without action without place for heroism pictures more rueful than celebratory In part Renaissance art adjusted to the social and economic pressures with an art we may be hard pressed to recognize under that same rubric an art not so much of perfected nature as simply artless Granted the heroic and epic mode of the Renaissance was that practiced most self consciously and proudly Yet it is one of the accomplishments of Renaissance art that heroic and epic subjects and style occasionally made way for less affirmative subjects and compositional norms for improvisation away from the Vitruvian ideal The limits of idealizing art during the very period denominated as High Renaissance is a topic that involves us in the history of class prejudice of gender stereotypes of the conceptualization of the present of attitudes toward the ordinary and of scruples about the power of sight Exploring the low style leads us particularly to works of art intended for display in private settings as personally owned objects potentially

as signs of quite personal emotions rather than as subscriptions to publicly vaunted ideologies Not all of them show shepherds or peasants none of them not even Giorgione's *La tempesta* is a classic pastoral idyll The rosso stile is to be understood as more comprehensive than that The issue is not only who is represented but whether the work can or cannot be fit into the mold of a basically affirmative art

Finding the Figure in the Carpet Lee McKay Johnson, 2006-12-05 In his 1896 short story *The Figure in the Carpet* James sets forth a riddle for his critical readers as he approaches the major phase in his career He imagines a fictional novelist Hugh Vereker who tantalizes his critics with the idea of a single thread a design woven throughout all of his major works hidden in plain sight The design Vereker says is as obvious as a foot stuck in a shoe but the distinguished novelist is convinced no one will ever see it One critic Corvick however during a trip to India has an astonishing flash of revelation he sees the figure and the discovery is immense When Corvick returns and shares his epiphany with Vereker the novelist assures him that his discovery is precisely accurate there is not a single wrong note But Corvick dies in a road accident before he can write his definitive book on Vereker's secret design My study will show the reader that there is a distinct figure in the carpet in the works of Henry James himself But James only uses the figure in a select group of his major novels and tales all six of which we will examine here These major works are all experimental and radical and show James allowing himself the artistic freedom to follow his own arcane and personal path The pattern is fully manifested in *The Turn of the Screw* in 1897 and remains the consistent thread all the way through the Master's final completed novel *The Golden Bowl* in 1904 I began writing about the relation of writing to painting and how James translates structural aspects of the silent art of painting into prose James borrows both silence and simultaneity from the painter his brother of the brush and experiments with their narrative equivalents I saw with increasing clarity that James' admiration of the powers of painting led him into depicting nonverbal aspects of consciousness in language Finally I saw the whole system lock into place everything fit The figure in the carpet was revealed as visible silence With only a minute adjustment of focus I suddenly saw that James' narrative pictorial structure that I had been tracing all these years constitutes the figure in the carpet itself The pictorial pattern literally governs every line and chooses every word James brings the reader into the full consciousness of his character by taking us into the silent radiation of the visible As readers we experience the silence before language the silence between words and the silence after language In this book I will show my reader how the figure in the carpet operates as the controlling design in every square inch of text in each of James' most famous novels and tales
