Reason, Life, Culture Anna-Teresa Tymieniecka,2012-12-06 Rationality in its various expressions and innumerable applications sustains understanding and our sense of reality It is traditionally differentiated according to its sources in the soul in consciousness in reason in experience and in elevation Such a functional approach however leaves us searching for the common foundation harmonizing these rationalities The perennial quest to resolve the aporias of rationality is finding in contemporary science's focus on origins on the generative roots of reality tantalizing hints as to how this may be accomplished This project is enhanced by the wave of recent phenomenology onto-poiesis of life which reveals expresses the workings of the logos at the root of beingness and all rationality whereby we gaze upon the prospect of a New Enlightenment In the rays of this vision the revival of the intuitions of classical Islamic metaphysics particularly intuition of the continuity of beingness in the gradations of life receive fresh confirmation **The Merleau-Ponty Aesthetics Reader** Maurice

Investigating the complex history of visual art's engagement with literature this collection demonstrates that the art of the book is a fully interdisciplinary and distinctly modern form The essays in the collection develop new critical approaches to the analysis of twentieth century bookworks and explore ways in which European writers and painters challenged the boundary between visual and linguistic expression in the content production and physical form of books The Art Book Tradition in Twentieth Century Europe offers a detailed examination of word image relations in forms ranging from the livre d'artiste to personal diaries and almanacs It analyzes innovative attempts to challenge familiar hierarchies between texts and images to fuse different expressive media and to reconceptualize traditional notions of ekphrasis Giving consideration to the material qualities of books the works discussed in this collection also test and celebrate the act of reading while locating it in the context of other sensory experiences Essays examine works by Dufy Matisse Beckett Kandinsky Braque and Ponge among other European artists and writers active during the twentieth century [Merleau-Ponty at the Gallery](#) Véronique M.

Fóti, 2020-03-01 A study of the significance of the visual arts in Merleau Ponty's aesthetics in relation to the work of five artists not known or discussed by him Merleau Ponty's phenomenological ontology engages deeply with visual art and this aspect of his work remains significant not only to philosophers but also to artists art theorists and critics Until recently scholarly attention has been focused on the artists he himself was inspired by and wrote about chiefly Cézanne Klee Matisse and Rodin Merleau Ponty at the Gallery expands and shifts the focus to address a range of artists Giorgio Morandi Kiki Smith Cy Twombly Joan Mitchell and Ellsworth Kelly whose work came to prominence in the second half of the twentieth century

and thus primarily after the philosopher's death. Veronique M. F. ti does not confine her analyses to Merleau-Ponty's texts which now importantly include his late lecture courses but also engages directly with the art. Of particular concern to her is the art's ethical bearing especially as related to animal and vegetal life. The book's concluding chapter addresses the still widespread rejection of beauty as an aesthetic value. The book operates along several lines at once offering insightful and new critical readings of artists through the lens of Merleau-Ponty's scholarship. Clearly written and engaging it will be of interest to a wide range of scholars and students. Rajiv Kaushik Brock University
