Pakistan Peoples Party Rise To Power:

The Pakistan People's Party Philip Edward Jones, 2003 This study provides insights into Pakistan's historical development through focusing on politics in Sindh a key province constituting the new nation state in 1947 This examination of party and ministerial politics at the provincial level provides a unique perspective that is relatively little known It contributes to a deeper understanding of Pakistan and the challenges and difficulties it has faced following independence in establishing a stable political system and government

Makers of Modern Asia Ramachandra Guha, 2014-08-29 The twenty first century has been dubbed the Asian Century Highlighting diverse thinker politicians rather than billionaire businessmen Makers of Modern Asia presents eleven leaders who theorized and organized anticolonial movements strategized and directed military campaigns and designed and implemented political systems

Politics of Socio-Spatial Transformation in Pakistan Asad Rehman, 2023-09-20 Politics of Socio Spatial Transformation in Pakistan analyses the relationship between socio spatial transformation styles of leadership and nature of constituents in Pakistan It examines the way social change influences politics and leadership in its most populated province Offering a unique viewpoint to study the relationship between politics and social change by examining the nature of relationship between leaders and their constituents the author introduces the concept of Gradients of Engagements The book describes the way values of engagement Talluq and styles of leadership mediate engagements among politicians citizens and state bureaucracy in villages and small towns of Pakistani Punjab Starting with the mapping of socio economic and spatio demographic non metropolitan locales the book illustrates the centrality of the processes of ruralization and governmentalization It points out how political leaders mediate these processes personal and public demands of their constituents invoking claims or representativeness and public service The author breaks engagements between leaders and constituents into four gradients of representation elections public service delivery development everyday problem solving governance and collective action thus providing a contextualized and grounded comprehension of the process democratization and its substantive and performative aspects In addition to providing a historical sketch of economic development evolution of social organization and development of political institutions in Punjab the book includes an ethnography of political elites and study of everyday political engagements to show how the styles of leadership mediate the process of institutional development and public service delivery in rural Punjab A novel contribution to the study of political processes such as state formation collective action representation and citizenship in a comparative manner embedded in space and informed by cultural meanings the book will be of interest to researchers studying South Asian Pakistan and Punjab Sikh studies Development Studies and Urban Studies

The Pakistan Paradox Christophe Jaffrelot, 2016-06-16 The idea of Pakistan stands riddled with tensions Initiated by a small group of select Urdu speaking Muslims who envisioned a unified Islamic state today Pakistan suffers the divisive forces of various separatist movements and religious fundamentalism A small entrenched elite continue to dominate

the country's corridors of power and democratic forces and legal institutions remain weak. But despite these seemingly insurmountable problems the Islamic Republic of Pakistan continues to endure. The Pakistan Paradox is the definitive history of democracy in Pakistan and its survival despite ethnic strife, Islamism and deep-seated elitism. This edition focuses on three kinds of tensions that are as old as Pakistan itself: The tension between the unitary definition of the nation inherited from Jinnah and centrifugal ethnic forces between civilians and army officers who are not always in favour of or against democracy and between the Islamists and those who define Islam only as a cultural identity marker.

Democratic Transition and Security in Pakistan Shaun Gregory, 2015-10-23. This volume examines the trajectory of Pakistan's democratic transition and the implications of this change for its security. In May 2013 for the first time in its 66 year history Pakistan saw an elected government complete a full term in office and transfer power through the ballot box to another civilian government. At this important moment in Pakistan's history this collection brings together twelve leading academics and writers with an aim to provide a far reaching analysis of the current situation in Pakistan and emergent trends. Drawing on history, diverse theoretical perspectives and empirical evidence, three themed sections deal respectively with democratic transition including Islam and democracy, civil military relations and economics, contested borders and contested spaces, the Pashtun belt, Kashmir and intra Islamic conflict and regionalism, bilateral relations from both Pakistani and Indian perspectives, US Pakistan relations and nuclear weapons dynamics. Together the contributors explore the status of Pakistan's democratic transition, contemporary security dynamics and wider regional security and political dynamics and the complex interplay of the three to provide a wide ranging analysis of Pakistan's contemporary national and regional challenges, its impact on the region and evidence of some positive trends for Pakistan's future. The book will be of much interest to students of South Asian politics, Asian security, governance and IR in general as well as policy makers, diplomats and military professionals.

A History of Modern South Asia Ian Talbot, 2016-01-28. Noted historian Ian Talbot has written a new history of modern South Asia that considers the Indian Subcontinent in regional rather than in solely national terms. A leading expert on the Partition of 1947, Talbot focuses here on the combined history of India, Pakistan and Bangladesh since 1757 and specifically on the impact of external influences on the local peoples and cultures. This text explores the region's colonial and postcolonial past and the cultural and economic Indian reaction to the years of British authority, thus viewing the transformation of modern South Asia through the lens of a wider world.

Making Sense of Pakistan Farzana Shaikh, 2018-10-15. Pakistan's transformation from supposed model of Muslim enlightenment to a state now threatened by an Islamist takeover has been remarkable. Many account for the change by pointing to Pakistan's controversial partnership with the United States since 9/11, others see it as a consequence of Pakistan's long history of authoritarian rule which has marginalized liberal opinion and allowed the rise of a religious right. Farzana Shaikh argues the country's decline is rooted primarily in uncertainty about the meaning of Pakistan and the significance of being Pakistani. This has pre-empted a consensus on the role of Islam in the public sphere and

encouraged the spread of political Islam It has also widened the gap between personal piety and public morality corrupting the country s economic foundations and tearing apart its social fabric More ominously still it has given rise to a new and dangerous symbiosis between the country s powerful armed forces and Muslim extremists Shaikh demonstrates how the ideology that constrained Indo Muslim politics in the years leading to Partition in 1947 has left its mark skillfully deploying insights from history to better understand Pakistan s troubled present The Military and Denied Development in the Pakistani Punjab Shahrukh Rafi Khan,Aasim Sajjad Akhtar,2014-11-01 This book focuses on the retrogressive agrarian interventions by the Pakistani military in rural Punjab and explores the social resentment and resistance it triggered potentially undermining the consensus on a security state in Pakistan Set against the overbearing and socially unjust role of the military in Pakistan s economy this book documents a breakdown in the accepted function of the military beyond its constitutionally mandated role of defence Accompanying earlier work on military involvement in industry commerce finance and real estate the authors research contributes to a wider understanding of military intervention revealing its hand in various sectors of the economy and consequently its gains in power and economic autonomy **Towards Peoples' Histories in Pakistan** Kamran Asdar Ali,Asad Ali,2023-05-04 After seventy five years of independence the history of Pakistan remains centered on the state its ideology and the two nation theory Towards Peoples Histories in Pakistan seeks to shift that focus away from histories of an imagined nation to the history of its peoples Based on the premise that the historiographical tradition in Pakistan has ignored the existence of people who actually make history this book brings together historians anthropologists sociologists and political scientists to shed light on the diverse histories of the people themselves Assembling histories of events and peoples missing from grand narratives of national history the essays in this collection incorporate a diversity of approaches to the past as it opens the possibilities of multiple histories the archives through which they are registered and the various temporalities in which they persist The volume highlights and recuperates the entangled nature of history and memory within Pakistan s social and cultural life By critically examining both leftist and nationalist thought Towards People s Histories in Pakistan explores competing visions of what is meant by the people and charts new ground in developing the promise of people s histories both within Pakistan and beyond New Perspectives on Pakistan's Political Economy Matthew McCartney,S. Akbar Zaidi,2019-09-19 This volume makes a major intervention in the debates around the nature of the political economy of Pakistan focusing on its contemporary social dynamics This is the first comprehensive academic analysis of Pakistan s political economy after thirty five years and addresses issues of state class and society examining gender the middle classes the media the bazaar economy urban spaces and the new elite The book goes beyond the contemporary obsession with terrorism and extremism political Islam and simple civilian military relations and looks at modern day Pakistan through the lens of varied academic disciplines It not only brings together new work by some emerging scholars but also formulates a new political economy for the country reflecting the contemporary reality and

diversification in the social sciences in Pakistan The chapters dynamically and dialectically capture emergent processes and trends in framing Pakistan s political economy and invite scholars to engage with and move beyond these concerns and issues
