Pakistan At The Crobbroads:

Pakistan at the Crossroads Christophe Jaffrelot, 2016-06-29 In *Pakistan at the Crossroads* top international scholars assess Pakistan's politics, economics and the challenges faced by its civil and military leaders domestically and diplomatically. Contributors examine the state's handling of internal threats, tensions between civilians and the military, strategies of political parties, police and law enforcement reform, trends in judicial activism, the rise of border conflicts, economic challenges, financial entanglements with foreign powers and diplomatic relations with India, China, Iran, Saudi Arabia, Afghanistan and the United States. This volume is critical to grasping the sophisticated interplay of internal and external forces complicating the country's recent trajectory. **Pakistan at the Crossroads** Mushtaq Ahmad, 1985 *Pakistan at the Crossroads*

Christophe Jaffrelot, 2017 **Unconventional Warfare in South Asia** Scott Gates, Kaushik Roy, 2016-02-17 India is the world's tenth largest economy and possesses the world's fourth largest military. The subcontinent houses about one fifth of the world's population and its inhabitants are divided into various tribes, clans and ethnic groups following four great religions: Buddhism, Christianity, Hinduism and Islam. Framing the debate using case studies from across the region as well as China, Afghanistan and Burma and using a wealth of primary and secondary sources, this incisive volume takes a closer look at the organization and doctrines of the shadow armies and the government forces which fight the former. Arranged in a thematic manner, each chapter critically asks: Why stateless marginal groups rebel? How do states attempt to suppress them? What are the consequences in the aftermath of the conflict, especially in relation to conflict resolution and peace building? *Unconventional Warfare in South Asia* is a welcomed addition to the growing field of interest on civil wars and insurgencies in South Asia. An indispensable read which will allow us to better understand whether South Asia is witnessing a New War and whether the twenty-first century belongs to the insurgents. **Pakistan's Tactical Nuclear Weapons** Inderjit

Panjrath, 2018-01-01 Amidst many developments in the constantly evolving Indo-Pak conflict paradigm, the latest and perhaps the most intriguing has been the induction of Tactical Nuclear Weapons (TNWs) by Pakistan. While nuclear sabre rattling is not new to Pakistan's strategy, this time around there seems to be a strong pitch among security analysts to project these as the proverbial Brahmastra in its possession, foreclosing any sort of military retaliatory strike by India. This is significant at a time when sporadic Pak-sponsored terror attacks on Indian soil continue unabated. For the Indian security analysts, this raises some pertinent questions: Is the threat of TNWs credible enough to deter India from launching a suitable military response to a Pakistan-supported terror attack? Does induction of TNWs by Pakistan materially alter the Indo-Pak nuclear balance and consequently the direction any future conflict may assume? What are the response options for India to retain, restore the nuclear as well as overall security balance? This book is an endeavour to find answers to all these. In the process, the author attempts to explore how the two protagonists view nuclear deterrence, what is the relevance of nuclear weapons for both of them, how are the fundamental drivers of the ongoing conflict and the ever-changing dynamics and influences in the region.

affecting it Using these parameters and the technical capabilities of TNWs believed to be held by Pakistan the author constructs five possible scenarios for the foreseeable future The outcome is interesting as it answers the fundamental question are Pakistan s TNWs indeed the game changer they are being touted as or are we giving the devil more than his due

Pakistan's National Security Approach and Post-Cold War Security Arshad Ali,2021-03-30 This book analyzes the paradox that despite being a national security state Pakistan has become even more insecure in the post Cold War era It provides an in depth analysis of Pakistan s foreign and security policies and their implications for the overall state and society The book identifies the immediate security challenges to Pakistan and charts the distinctive evolution of Pakistan s national security state in which the military elite became the dominant actor in the political sphere of government during and after the Cold War period By examining the national security state militarization democracy and security proxy wars and the hyper military industrial complex the author illustrates how the vanguard role of the military created considerable structural sociopolitical economic and security problems in Pakistan Furthermore the author argues that the mismatch between Pakistan s national security stance and the transformed security environment has been facilitated and sustained by the embedded interests of the country s military industrial complex A critical evaluation of the role of the military in the political affairs of the government and how it has created structural problems for Pakistan this book will be of interest to academics in the field of South Asian Politics and Security South Asian Foreign and Security Policy International Relations Asian Security and Cold War Studies

Pakistans Spy Agencies Musa Khan Jalalzai,2020-08-03 The imbalance of Pakistan s civil military relations has caused misperceptions about the changing role of intelligence in politics The country maintains 32 secret agencies working under different democratic political and military stakeholders who use them for their own interests Established in 1948 The ISI was tasked with acquiring intelligence of strategic interests and assessing the intensity of foreign threats but political and military stakeholders used the agency adversely and painted a consternating picture of its working environment The civilian intelligence agency Intelligence Bureau IB has been gradually neglected due to the consecutive military rule and weak democratic governments The ISI today seems the most powerful agency and controls the policy decisions The working of various intelligence agencies militarisation of intelligence and ineffectiveness of the civilian intelligence are some of the issues discussed in the book
