Biodiversity Databases Gordon B. Curry, Chris J. Humphries, 2016-04-19 With changes in technology and a renewed effort to catalog the world's biodiversity huge amounts of data are being generated on biodiversity issues As response to the call for better information systems to manage the biodiversity crisis a wide range of solutions are being developed for inventorying managing and disseminating taxonomic data This book brings together a diverse array of authors expertise and assessors that discuss technical developments to improve the construction population and dissemination of biodiversity information It is designed to inform students and researchers of biodiversity about the changes and challenges that need to be understood by everyone in this information age

PaleoBase Norman Macleod, 2003-08-15 PaleoBase is a new initiative in the presentation of systematic information on fossil organisms It represents the marriage of up to date systematic information on a collection of over 1500 fossil genera state of the art color digital photographs of representative specimens from The Natural History Museum's unrivaled paleontological collections and modern relational database technology With PaleoBase an important new tool for the teaching of life history in a wide variety of advanced secondary undergraduate and graduate courses e g paleontology historical geology stratigraphy paleoceanography paleobiogeography becomes available to students and educators alike PaleoBase Macrofossils is the first product from the PaleoBase project and will be released in three Parts It will consist of approximately 1000 generic records drawn from the major invertebrate groups The genera have been carefully selected to include taxa used in the teaching of paleontology and historical geology worldwide Together they represent the ideal fossil collection one that in practice only the largest natural history museums could hope to assemble PaleoBase Macrofossils gives educators students and researchers access to a virtual collection of these fossils many of which are actual figured specimens from the 19th and 20th century technical publications that served to originally establish the concepts of these genera For an online demonstration and guided tour of PaleoBase Macrofossils please visit www.paleobase.com For an information brochure or for any queries please e mail paleobase.support@oxon.blackwellpublishing.com Versions for Mac and PC single user and site licence High quality digital images of representative specimens in full color that can be magnified to reveal additional morphological detail Complete systematic descriptions incorporating the latest information and written by experts from The Natural History Museum's Department of Palaeontology A morphological key for each group that can be used to study morphological character distributions or aid in the identification of unknown specimens from local collections A complete classification for each genus Descriptions of the genus geographical and paleogeographical distribution A summary of each genus chronostratigraphical distribution Identification of each genus original shell mineralogy A complete glossary of all morphological terms used in the genus descriptions A complete bibliography that connects the information provided by Macrofossils to the larger technical literature

Invertebrate Palaeontology and Evolution E. N. K. Clarkson, 2013-07-23 Invertebrate Palaeontology and Evolution is well established as the foremost

palaeontology text at the undergraduate level This fully revised fourth edition includes a complete update of these sections on evolution and the fossil record and the evolution of the early metazoans New work on the classification of the major phyla in particular brachiopods and molluscs has been incorporated The section on trace fossils is extensively rewritten The author has taken care to involve specialists in the major groups to ensure the taxonomy is as up to date and accurate as possible

PaleoBase N Macleod, 2006-10 A product from the PaleoBase project this book consists of approximately 1000 generic records drawn from the major invertebrate groups It gives educators students and researchers access to a virtual collection of the fossils many of which are specimens from the 19th and 20th century technical publications *The New Taxonomy* Quentin D. Wheeler, 2008-04-09 A Fresh Look at Taxonomy The most fundamental of all biological sciences taxonomy underpins any long term strategies for reconstructing the great tree of life or salvaging as much biodiversity as possible Initiatives reinventing taxonomy for the Internet age are leading to a resurgence in this once declining discipline In this volume we witness the emergence of cybertaxonomy a convergence of descriptive taxonomy with information science and computer engineering Featuring a new paradigm of international teamwork The New Taxonomy presents a roadmap for confronting the biodiversity crisis Some have seen the confusion of pattern and process that followed Huxley's 1940 *The New Systematics* as the beginning of decline for support of taxonomy In this answer to Huxley contemporary taxonomists reclaim the unique mission goals and importance of taxonomy as an independent science Fossil News, 2005 *Books In Print* 2004-2005 Ed Bowker Staff, Staff Bowker, Ed, 2004 Annual Report - California Academy of Sciences California Academy of Sciences, 2002 The Rise of Animals Mikhail A. Fedonkin, 2007 An essential resource for paleontologists biologists geologists and teachers The Rise of Animals is the best single reference on one of earth's most significant events **Online Databases and Other Internet Resources for Earth Science** Pillarisetty Venkataramana, 2007-10-31 Though an enormous amount of information relating to earth sciences are available on the Internet for a serious researcher teacher librarian or a student who has deadlines to meet searching the Internet for specific scientific information can at times be frustrating The main purpose of Online Databases and Other Internet Resources for Earth Science is to group these resources together and to provide the URLs and hyperlinks so a researcher teacher or student can access them with the minimum effort time and cost The book also introduces the reader to a few basic concepts that propel the Internet and the world wide web so that he or she can make informed searches apart from assessing the quality and reliability of the data available on the internet A brief introduction is provided on the current status of the draft treaty by the World Intellectual Property Organization WIPO and the EU directive on copyright restrictions for scientific databases and what a researcher is permitted to do with the data obtained from the Internet especially those from a commercial data provider Earth science resources on the Internet are grouped into various categories such as journals databases multimedia directories teaching aids and mailing lists Online earth science publications and a list of open access publications related to earth sciences The

databases are further grouped into bibliographic data specimen collection chemical analysis geophysical data etc
