

# Stages of Periodontal Disease

## Gingivitis

The most common and earliest form of periodontal disease is gingivitis. The gingiva is the pink tissue that surrounds the teeth and is commonly referred to as "gum tissue". Hence, if the gingiva is inflamed, the term gingivitis is used. Inflammation is caused by bacterial plaque (biofilm) accumulation. In the absence of effective daily oral hygiene, this results in a change of color from the tissue's normal pink to various shades of red. The affected area will usually become swollen and bleed when touched or probed. Pockets in excess of 2-4 millimeters may form.

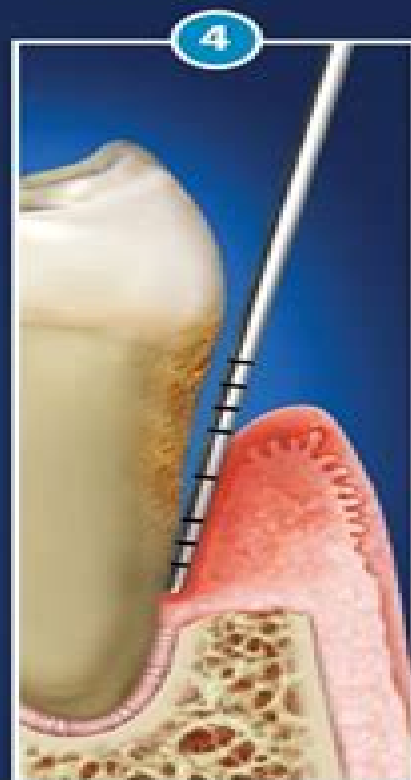

## Early or Mild Periodontitis

This stage clinically appears the same as gingivitis with redness, bleeding on probing, and gum swelling. What distinguishes periodontitis ("perio" – around; "dont" – tooth; "itis" – inflammation) from gingivitis is bone loss. Once the inflammation extends from the gingiva to the bone tissue and begins causing bone loss, this condition is referred to as periodontitis. Here the pocket depths usually increase to approximately 4-6 millimeters.

## Moderate Periodontitis

As the disease progresses from mild to moderate, inflammation and infection extend deeper into the tissues — resulting in 20-50% bone loss from around the tooth root. Pocket depths may increase to 4-8 millimeters. Symptoms such as bleeding, swelling and redness will remain and pus may be visible. Smoking cigarettes\* will mask some of these signs and worsen the condition.

## Advanced Periodontitis

When bone loss is severe, representing a loss of 50-85% of bone support from the tooth root, teeth become very loose and uncomfortable during functional movements (chewing). Pocket depths may range from 7-12 millimeters. Signs and symptoms will remain, such as bleeding, swelling, redness, and probably pus unless masked by the smoking of cigarettes,\* which will worsen the condition.

\* Cigarettes reduce blood flow and often hide the signs of periodontal disease.

The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
