Norberto R. Keppe

Pathology Of Power:

The Pathology of Power Norman Cousins, 1988-08-01 Examines the state of national security in the United States and contends that the American people are being massively defrauded by groups making military policy decisions in accordance with their own self interest

Pathologies of Power Paul Farmer, 2005 Pathologies of Power uses harrowing stories of life and death to argue that the promotion of social and economic rights of the poor is the most important human rights struggle of our times

The Pathologies of Power Christopher J. Fettweis, 2013-09-30 The foreign policy of the United States is guided by deeply held beliefs few of which are recognized much less subjected to rational analysis Christopher J Fettweis writes in this his third book He identifies the foundations of those beliefs fear honor glory and hubris and explains how they have inspired poor strategic decisions in Washington He then proceeds to discuss their origins The author analyzes recent foreign policy mistakes including the Bay of Pigs the Vietnam War and the Iraq War and he considers the decision making process behind them as well as the beliefs inspiring those decisions The American government's strategic performance Professor Fettweis argues can be improved if these pathological beliefs are recognized and eliminated

Liberation of the People Norberto R. Keppe, 1988

Three Faces of Power Kenneth Ewart Boulding, 1990-05 Defining power as the ability to get what we want this volume identifies three major types of power threat power economic power and integrative power It argues that threat power should not be seen as fundamental since it is not effective unless reinforced by economic and integrative power

The Power of Countertransference Karen J. Maroda,2013-04-15 A signpost of the relational turn in contemporary psychoanalysis Karen Maroda s The Power of Countertransference published in 1991 is perhaps the first systematic effort to integrate the need for mutual emotional exchanges which may include the analyst s own self disclosures into an interactive model of psychoanalytic practice Maroda s call for emotional honesty and affective self disclosure had an immediate impact on the field and led Harold Searles to comment If we follow the example set by Maroda we shall be minimally likely to act in our emotions in our sessions with our patients They will benefit greatly as a result we practitioners shall benefit and the

profession of psychoanalysis and psychoanalytic therapy will become healthier and stronger than it is at present This revised edition includes a new Foreword by Lewis Aron and an Afterword in which Maroda clarifies her own position and comments on the evolution of psychoanalytic technique since the publication of *The Power of Countertransference* *From Knowledge to Power* Harry W. Paul, 1985 The first full scale treatment of a period of dramatic expansion in French science

The Power of Plagues Irwin W. Sherman, 2017-06-01 The *Power of Plagues* presents a rogues gallery of epidemic causing microorganisms placed in the context of world history Author Irwin W Sherman introduces the microbes that caused these epidemics and the people who sought and still seek to understand how diseases and epidemics are managed What makes this book especially fascinating are the many threads that Sherman weaves together as he explains how plagues past and present have shaped the outcome of wars and altered the course of medicine religion education feudalism and science Cholera gave birth to the field of epidemiology The bubonic plague epidemic that began in 1346 led to the formation of universities in cities far from the major centers of learning and hot spots of the Black Death at that time And the Anopheles mosquito and malaria aided General George Washington during the American Revolution Sadly when microbes have inflicted death and suffering people have sometimes responded by invoking discrimination scapegoating and quarantine often unfairly against races or classes of people presumed to be the cause of the epidemic Pathogens are not the only stars of this book Many scientists and physicians who toiled to understand treat and prevent these plagues are also featured Sherman tells engaging tales of the development of vaccines anesthesia antiseptics and antibiotics This arsenal has dramatically reduced the suffering and death caused by infectious diseases but these plague protectors are imperfect due to their side effects or attenuation and because microbes almost invariably develop resistance to antimicrobial drugs The *Power of Plagues* provides a sobering reminder that plagues are not a thing of the past Along with the persistence of tuberculosis malaria river blindness and AIDS emerging and remerging epidemics continue to confound global and national public health efforts West Nile virus Lyme disease and Ebola and Zika viruses are just some of the newest rogues to plague humans The argument that civilization has been shaped to a significant degree by the power of plagues is compelling and *The Power of Plagues* makes the case in an engaging and informative way that will be satisfying to scientists and non scientists alike

Maternal Metaphors of Power in African American Women's Literature Geneva Cobb Moore, 2017-03-31 An in depth examination of Black women s experiences as portrayed in literature throughout American history Geneva Cobb Moore deftly combines literature history criticism and theory in *Maternal Metaphors of Power in African American Women s Literature* by offering insight into the historical black experience from slavery to freedom as depicted in the literature of nine female writers across several centuries Moore traces black women writers creation of feminine and maternal metaphors of power in literature from the colonial era work of Phillis Wheatley to the postmodern efforts of Paule Marshall Alice Walker and Toni Morrison Through their characters Moore shows how these writers re created the identity of black women and challenge existing rules shaping their subordinate status and

behavior Drawing on feminist psychoanalytic and other social science theory Moore examines the maternal iconography and counter hegemonic narratives by which these writers responded to oppressive conventions of race gender and authority Moore grounds her account in studies of Wheatley Harriet Jacobs Charlotte Forten Grimk Jessie Fauset Nella Larsen and Zora Neale Hurston All these authors she contends wrote against invisibility and powerlessness by developing and cultivating a personal voice and an individual story of vulnerability nurturing capacity and agency that confounded prevailing notions of race and gender and called into question moral reform In these nine writers construction of feminine images real and symbolic Moore finds a shared sense of the historically significant role of black women in the liberation struggle during slavery the Jim Crow period and beyond A foreword is offer by Andrew Billingsley a pioneering sociologist and a leading scholar in African American studies
