Paths To Regionalisation:

Paths to Regionalisation Sophie Boisseau Du Rocher, Bertrand Fort, 2005 The aim of this book is to explain the different experiences in region building in Europe and East the two regions of the world that are making major contributions to the experience and theory of region building Europe and East Asia have evolved in different ways with different logics and mechanisms but it does not mean they do not have common interests or things to learn from one another This book seeks to contribute to a better understanding of the experiences and challenges in both regions and to stimulate a much needed reflection of the benefits of regions to harness globalisation OECD Multi-level Governance Studies Decentralisation and Regionalisation in Portugal What Reform Scenarios? OECD, 2020-02-17

The report presents a diagnosis of Portugal multi level governance in international perspectives and highlights the strengths and challenges of the system It then presents three potential policy paths of regional reform for Portugal As the options are not mutually exclusive they could work as complements to each other The report analyses the conditions under which the reforms may deliver more economic efficiency and regional equity *Regional Pathways to Nuclear Nonproliferation* Wilfred Wan, 2018-06-15 The contemporary nuclear landscape is rife with challenges Stagnated progress in disarmament widespread modernization plans and emergent proliferation pathways are contributing to the risk of catastrophe Meanwhile global nuclear order appears more precarious than ever This book makes a case for a regional reorientation of the nuclear nonproliferation regime arguing that a more specialized decentralized and localized arrangement could more effectively address post Cold War challenges In the process it develops a framework to analyze the conditions that would allow for more robust regional nuclear cooperation Regional Pathways to Nuclear Nonproliferation includes a series of case studies centering on Northeast Asia Southeast Asia and the Middle East It provides a comprehensive overview of existing nuclear cooperation at the regional level including in the context of nuclear weapon free zones For each case the book both analyzes the viability of a stronger regional nuclear order and considers the form such an order would likely take What is the magnitude and character of the nuclear proliferation threat across different regions What does the presence of institutions in economic environmental and human security domains suggest about the likelihood of addressing that threat A better understanding of broader regional patterns may be the key to explaining the possibility of regional nuclear cooperation It may also help identify means to effectuate the timing and scale of that cooperation bolstering regional nuclear orders and in turn ensuring the viability of global nuclear order

Regionalisation of Globalised Innovation Ulrich Hilpert, 2003-10-23 While processes of innovation are increasingly realised globally they can also take a highly regionalised expression In this book the global networks that link regions are set against the local aspects of innovation With contributions from international experts this book examines local Islands of Innovation where research and industrial expe The Belt and Road Initiative as Epochal Regionalisation Xiangming Chen, Julie Tian Miao, Xue Li, 2021-04-08 The Belt and Road Initiative BRI launched by China in 2013 carries and projects

powerful regional dimensions and transformations with short and long term global national and local consequences The BRI's regional significance lies in its designation and creation of several cross border corridors that originate from inside China and extend out into its neighbouring countries and those farther afield in Asia Africa and Europe Through driving and facilitating new trade and infrastructure connections along and beyond these corridors the BRI has begun to reshape the master processes of globalisation urbanisation and development by affecting the economic social and spatial fortunes of many countries and cities This book serves two purposes First through a new framework and three case studies it examines the BRI's impacts on globalisation urbanisation and development via the China Europe Freight Train the paired construction of a new city and railway across the China Laos borderland and the port park city development corridor between Djibouti and Ethiopia Second the comparative analysis and evidence guide the book to advance policy recommendations for targeted stakeholders that can potentially turn the BRI into a global public good with greater benefits and fewer risks

Drivers of Integration and Regionalism in Europe and Asia Louis Brennan, Philomena Murray, 2015-05-22 This book examines the drivers of regionalism and integration in both Europe and Asia and seeks to forge comparative perspectives between the two regions Comprising contributions from scholars analysts and policymakers this volume explores and debates how and why regional bodies such as the European Union EU and the Association of Southeast Asian Nations ASEAN are formed and sustained Furthermore it examines the drivers of and impediments to regionalism and integration The debates regarding what and who constitute drivers are presented in a fresh thematic and comprehensive manner Leadership and core states are also critically examined whilst material ideational and normative factors are all assessed comparatively Significantly in light of the global financial crisis the book considers the role of crisis as a driver of regionalism and integration This book will be of interest to students scholars and policymakers interested in Asian and European politics and comparative politics

Regionalism and Regional Self-Government in South-East Europe Vedran Đulabić, 2024-11-15 The book analyses state of play regarding regional level of government in the countries of South East Europe particularly countries succeeding former Yugoslavia Slovenia Croatia Bosnia and Herzegovina Serbia Montenegro Kosovo and North Macedonia using the research methods from the fields of Law Public Administration and Political Science The book offers fresh analytical perspective of the regional self government issues in these countries out of which every country has particular issues to deal with Be it controversial territorial restructuring debate Croatia complex institutional system B H dealing with territorial concentrated ethnic minorities Serbia Kosovo North Macedonia or the issue of small size and non existence of regional forces Slovenia Montenegro Besides the introductory methodological and concluding synthesis trends and issues for further research chapters the book contains country chapters written by experts from a particular country in the region who follow the same chapter structure which allows further comparisons Besides that the book contains three chapters on several cross cutting issues such as position of ethnic minorities and their territorial regional concentration and institutional
